

# Inflation Swap Clearing

**LCH** The Markets' Partner

**SwapClear**

## EXPERIENCE THE SAVINGS

As the first CCP to introduce inflation swap clearing, LCH continues to lead the way to even greater efficiencies and capital optimisation. By providing significant margin offsets against cleared interest rate swaps, we're already the interbank market standard; but now an increasing number of buy-side clients are also choosing SwapClear to clear inflation products.

The benefits of clearing inflation products are more compelling than ever, especially since the introduction of uncleared margin rules in September 2016.

By clearing this highly capital-intensive, long-dated product, you not only benefit from margin efficiencies, but unlock further opportunities for trade compression.

## Buy-side Growth

**PRODUCT RANGE**

We continue to focus on delivering the right balance of risk and commercial considerations to members and their clients. That's why we're clearing the most liquid inflation products, ensuring the safest and most efficient experience for the market.

**Coming Soon – Blended Rate Compression**

Blended rate compression for inflation swaps will allow participants to realise greater operational and capital efficiencies.\* Here's how it works. LCH enables institutions to compress any trade with different interest rates but the same remaining cash-flow dates, expanding the number of eligible trades and the opportunity for portfolio efficiency.
