I. Clearing Fees

The clearing fees as described in this section are common at Group level.

A. Minimum Activity Charge (MAC)

A single Minimum Activity Charge will apply to all clearing members registered in LCH SA and/or LCH Ltd accounts for RepoClear operations.

Calculated on a monthly basis, the MAC is the minimum monthly amount to be paid by each clearing member. This MAC is a common one for LCH SA and LCH Ltd; members registering operations on both “segments” will be charged the MAC amount once only.

	For all debts SA & Ltd
Group level MAC amount – monthly payable	€ 8,500.00

The MAC is only levied if the total amount of clearing fees (see below) is lower than the amount of the MAC. In that case, the member is charged with the difference between these two amounts as follows:

$$\text{If } \sum \text{fees}_m < \text{MAC}_m \Rightarrow \text{charge of } [(\text{MAC}_m) - \sum \text{fees}_m]$$

Where: $\sum \text{fees}_m$ represents the total clearing fees levied on buy/sell and repo transactions, on both LCH SA and LCH Ltd, in the course of the month ‘m’.

MAC_m represents the Minimum Activity Charge for the same month.

LCH SA invoices the MAC in the course of the month following that for which it is due.

B. Clearing fees

LCH SA charges a fee for each transaction cleared. The clearing fees are invoiced on a monthly basis.

Buy / Sell transactions

The cash clearing fee is composed of two distinct elements:

- A fixed processing fee of €1.55 per cash trade, plus,
- An ad valorem registration fee (applied to the nominal of the cash trade) of €1.75 per million start cash amount is charged.

These clearing fees are calculated as soon as the transaction is registered.

Repo transactions

The Repo clearing fee is composed of two distinct elements:

- A fixed processing fee of €3.1 per repo trade, plus,
- An ad-valorem component (applied to the start cash amount of the repo) of 0.004%

Clearing fees are charged after the termination date falls due.

The rates indicated below are expressed in euro and are subject to VAT at the applicable rate.
