

Clearing SONIA* Futures

Easing the Transition to the New Sterling Benchmark

LCH The Markets' Partner

Listed Rates

Transitioning away from LIBOR** presents a huge challenge for financial markets. By clearing CurveGlobal® One and Three Month SONIA Futures, we help ensure a smooth and orderly transition of your sterling portfolios.

LCH Spider, our automated portfolio margining tool, is now available for cross-product margining of all CurveGlobal® contracts — including SONIA Futures — against OTC swaps. This provides additional opportunities for capital efficiencies by reducing collateral requirements for SONIA Futures against offsetting OTC positions.

CLEARING INNOVATION

We have now expanded our SONIA Futures offering with the launch of clearing for CurveGlobal® One Month SONIA Future. This new monthly contract has been designed to complement the existing CurveGlobal® Three Month SONIA Future.

Our clearing offering for the existing Three Month contract has also been enhanced, with the addition of four new serial months to join the quarterly cycle.

So take advantage of the opportunity to clear your entire rates futures portfolio through LCH — maximising your initial margin savings and maintaining your competitive edge. As well as these efficiencies, you'll gain access to unparalleled rates liquidity and the most extensive service offering of any CCP — from OIS, FRAs, IRS and inflation to futures.

HOW DOES IT WORK?

The CurveGlobal® One Month and Three Month SONIA Futures are based on the overnight reference rate for sterling, as calculated and published by the Bank of England.

CurveGlobal® One Month SONIA Future	1,500,000	0.005	6.25

CURVEGLOBAL® INTER COMMODITY SPREAD

The ICS between CurveGlobal® Three Month SONIA Futures and CurveGlobal® Three Month Sterling Futures allows participants to trade against orders that can be implied from combinations of orders resting in outright markets and/or orders resting in the strategy markets.

- 01. Exchange created ICS pricing
- 02. Full "implied in" and "implied out" pricing supported
- 03. Enables cross-market trading with no legging risk
- 04. Better execution on the "implieds"

The launch of the CurveGlobal® One Month SONIA Future also enables users to benefit from an innovative new ICS that links the pricing of the CurveGlobal® Three Month and new One Month SONIA Futures.
