VIA CFTC PORTAL SUBMISSION

15 March 2018

Mr. Christopher Kirkpatrick
Commodity Futures Trading Commission
1155 21st Street NW
Three Lafayette Centre
Washington DC 20581

Dear Mr. Kirkpatrick:

LCH Limited ("LCH"), a derivatives clearing organization registered with the Commodity Futures Trading Commission (the "CFTC"), is submitting for self-certification, pursuant to CFTC regulation §40.6(a), Rulebook changes in respect of the ForexClear service. These changes will take effect on or after May 14, 2018.

Part I: Explanation and Analysis
The ForexClear service proposes to introduce clearing of European Plain Vanilla FX Options in eight currency pairs (through six currencies) and associated hedge trades (i.e. FX Forward, Swap and Spot trades)1. ForexClear will accept trades for clearing that have a remaining maturity between one business day2 and two calendar years for currency pairs AUD/USD, EUR/USD, EUR/CHF, EUR/GBP, EUR/JPY, GBP/USD, USD/CHF, USD/JPY. All currency pairs follow well established calendar conventions and have a settlement convention of T+2, and LCH retains full responsibility for the ‘clearing to settlement’ process, with some settlement aspects being undertaken in conjunction with CLS3, with whom LCH has entered into a development and participation agreement.

ForexClear performed rigorous analysis to determine the feasibility of adding FX Option currency pairs and associated hedges to the ForexClear service portfolio. This analysis informed the LCH §39.5(a) submission to the CFTC in September 20174. The risk management procedures for this new product adhere to the principles adopted by LCH, and set out in its Group Risk Policies. Some new risks have been identified (e.g. the settlement and exercise/expiry processes are new to the ForexClear service portfolio of products). Accordingly, ForexClear has implemented appropriate controls to mitigate such risks. The terms of the eligible contracts are as set out in the LCH Rulebook.

1 Client clearing of deliverable FX Options and associated hedges will not be available at initial launch. This may be offered as a later phase.
2 Next day trades are only permitted for settlement management purposes. Moreover, although ForexClear will be able to accept trades with same-day settlement in a default management scenario, trades with these economics will not be eligible in business-as-usual circumstances.
3 CLS Bank International, the global utility for eliminating settlement risk in FX transactions.
4 CFTC letter to LCH dated October 18, 2017, deemed LCH eligible to clear Foreign Exchange Options pursuant to section 5c(c)(5)(C)(iiii) of the Commodity Exchange Act ("CEA") and CFTC regulation 39.5(a)(2).
Part II: Description of Rule Changes
In support of this initiative changes are required to the Rulebook. A summary of the changes (Appendix A) and marked-up versions of the sections noted below are included as appendices to this letter:

- General Regulations (Appendix B)
- Default Rules (Appendix C)
- Settlement Finality Regulations (Appendix D)
- Procedures Section 1 – Clearing Member and Dealer Status (Appendix E)
- Procedures Section 21 – ForexClear Service (Appendix F)
- Product Specific Contract Terms and Eligibility Criteria Manual (Appendix G)

Part III: Core Principle Compliance
LCH has concluded that compliance with the Core Principles will not be adversely impacted by this initiative, which complies with all Core Principles.

Part IV: Public Information
LCH has posted a notice of pending certification with the CFTC and a copy of this submission on the LCH website at http://www.lch.com/rules-regulations/proposed-rules-changes

Part V: Opposing Views
There were no opposing views expressed to LCH by governing board or committee members, members of LCH or market participants that were not incorporated into this change.

Certification
LCH hereby certifies to the Commodity Futures Trading Commission, pursuant to the procedures set forth in Commission regulation §40.6, that attached rule submission complies with the Commodity Exchange Act, as amended, and the regulations promulgated there under.

### Regulation 100
(ForexClear Option Service – Settlement Limits, Settlement Trade Down and Settlement Events)

New language inserted to provide the following:

1. **i)** the Clearing House may determine the Settlement Position Limit (the maximum permitted net deliverable or payable in a given currency on a given day arising from all ForexClear Option Contracts), Settlement Exposure Limit (the maximum permitted net deliverable or payable value in a given currency on any given day from all ForexClear Option Contracts that have a settlement date falling greater than two days from a given day) and Mandatory ForexClear Swap Limit (the maximum amount of swap transactions in a given currency the Clearing House is entitled to enter into on behalf of a ForexClear Option Clearing Member in accordance with Regulation 101) with respect to each ForexClear Option Clearing Member and ForexClear Currency;

2. **ii)** in the event the Clearing House wishes to change the limits referred to in clause (i), the Clearing House must propose a ballot to all ForexClear Option Clearing Members on no fewer than 10 business days’ notice. If 75% or more ForexClear Option Clearing Members vote in favour (those ForexClear Option Clearing Members that do not submit a vote shall be deemed to vote in favour), the relevant revised limit will take effect following 30 calendar days (or such other time as the Clearing House determines);

3. **iii)** in the event the Clearing House wishes to change the caps associated with the limits references in clause (i), the Clearing House must propose a ballot upon no fewer than 10 business days’ notice. Any change in a cap requires consent of 100% of ForexClear Option Clearing Members; provided, however, that the Clearing House may amend a cap in its sole discretion in limited situations (e.g., for risk related reasons);

4. **iv)** each business day at 10:00AM EST, the Clearing House will compare the Settlement Position Limit with respect to each ForexClear Option Clearing Member and each ForexClear Currency with the outstanding exposure of such ForexClear Option Clearing in the given ForexClear Currency. In the event the relevant ForexClear Option Clearing Member does not do so by 5:00PM EST, a ForexClear Settlement Event will be declared and the Clearing House may take certain actions on behalf of the relevant ForexClear Option Clearing Member, including entering into Mandatory Settlement ForexClear Swap Contracts to reduce the relevant exposure; and

REGULATION 91 REGISTRATION OF FOREXCLEAR CONTRACTS

(f) *A ForexClear Transaction may be presented for registration as two ForexClear Contracts, or one ForexClear Contract and one FCM ForexClear Contract, in accordance with the provisions of the Rulebook.*

(a) *Once a ForexClear Transaction has been presented to the Clearing House, the Clearing House shall (where applicable in accordance with paragraph (c) below and Procedure 2I (ForexClear Clearing Service)) request the consent of the relevant ForexClear Clearing Member with whom a ForexClear Contract shall be registered as a result thereof to such registration. Upon the ForexClear Clearing Member providing its consent, such ForexClear Transaction shall be deemed to have been submitted (as such term is defined in the Procedures) by such ForexClear Clearing Member to the Clearing House for registration. Any such consent shall be provided in accordance with the Procedures.*

(g) *A ForexClear Clearing Member which has been nominated to clear the ForexClear Contract arising from the registration of a ForexClear Transaction on behalf of a third party Executing Party other than a ForexClear Dealer will (only where such ForexClear Transaction is not a Trading Venue Transaction) be notified by the Clearing House of the relevant ForexClear Transaction and shall choose whether to grant or refuse consent to the registration of such ForexClear Transaction and the ForexClear Contract resulting from such ForexClear Transaction. Where:*

(i) *a ForexClear Clearing Member is an Executing Party to a ForexClear Transaction and is to clear a ForexClear Contract resulting from such ForexClear Transaction;*

(ii) *a ForexClear Dealer approved to clear ForexClear Transactions through a ForexClear Clearing Member is an Executing Party to a ForexClear Transaction and such ForexClear Clearing Member is to clear a ForexClear Contract resulting from such ForexClear Transaction; or*

(iii) *a ForexClear Transaction is an Eligible Trading Venue Transaction in respect of a ForexClear Clearing Member, and a third party Executing Party (other than a ForexClear Dealer) to such ForexClear Transaction has nominated such ForexClear Clearing Member to clear a ForexClear Contract resulting from such ForexClear Transaction,*

the consent of that ForexClear Clearing Member to the registration of the relevant ForexClear Contract will occur automatically and without the need for any further action by such ForexClear Clearing Member.

(h) *The Clearing House shall register or reject the registration of a ForexClear Contract in respect of a ForexClear Transaction presented for registration subject to, and in accordance with, these Regulations, the Procedures and all Applicable Law.*

(i) *Subject to Regulation 91(k), if at any time falling after the registration of any ForexClear Contract the Clearing House determines that the corresponding transaction of which details were submitted for registration,*
(i) did not, at the Registration Time, meet the ForexClear Eligibility Criteria applicable to that ForexClear Transaction in existence at the Registration Time;

(ii) in the case of a ForexClear Deliverable Forward Transaction or ForexClear Spot Transaction, was not, at the Registration Time, entered into in accordance with Regulation 98(a); or

(iii) in the case of a ForexClear Swap Transaction, was not, at the Registration Time, entered into in accordance with Regulation 100 or Regulation 101, each an “Ineligible Transaction”.

the Clearing House shall, as soon as practicable thereafter, set aside both ForexClear Contracts arising from such Ineligible Transaction in accordance with Regulation 91(c) below.

(j) Upon a ForexClear Contract being set aside under Regulation 91(i) (an "Ineligible ForexClear Contract"), the Clearing House will notify the FXCCM party to such Ineligible ForexClear Contract via the ForexClear Approved Trade Source System that such Ineligible ForexClear Contract has been set aside. The following shall take effect immediately upon the delivery of such notice: (i) such Ineligible ForexClear Contract shall be deemed to be terminated at the time of the notification and shall thereafter have no force or effect; (ii) all collateral in respect of variation margin obligations (if any) provided by the Clearing House or by an FXCCM in respect of such Ineligible ForexClear Contract shall be retained by the receiving party upon termination; (iii) where there is a difference between the value of the Ineligible ForexClear Contract as at the last margin run and the value (as determined by the Clearing House) of that Ineligible ForexClear Contract at the time of the next official settlement rate for that currency pair, then a payment shall be made between the FXCCMs to the original Ineligible Transaction equal to such difference; and (iv) these payments shall be deemed to satisfy in full the relevant party’s obligations under the Ineligible ForexClear Contract and shall be retained by the receiving party upon termination as a termination payment.

(k) The Clearing House may not determine a ForexClear NDF Transaction to be an Ineligible Transaction after the Valuation Date (as defined in the Procedures) in respect of the ForexClear NDF Contracts arising from the registration of such a ForexClear NDF Transaction has occurred.

(l) The Clearing House shall provide no less than 10 business days’ prior notice (including by email) to ForexClear Clearing Members of an amendment to the ForexClear Eligibility Criteria.

(m) Where a ForexClear Contract relates to an FCM ForexClear Transaction, it is a condition for registration as a ForexClear Contract that the FCM ForexClear Transaction to which the ForexClear Contract relates be presented for clearing: (i) by an executing party (in its capacity as an FCM Clearing Member or ForexClear Clearing Member or through its designated FCM Clearing Member or ForexClear Clearing Member) as a ForexClear Contract or FCM ForexClear Contract (as the case may be); and (ii) by an FCM Clearing Member on behalf of its FCM Client as an FCM ForexClear Contract. In the event that the Clearing House registers a
ForexClear Contract and, for whatever reason, the corresponding FCM ForexClear Contract has not also been registered, the ForexClear Contract shall be deemed not to be registered as a ForexClear Contract until such time as such corresponding FCM ForexClear Contract has been registered.

| (n) In relation to an FCM ForexClear Transaction, if either the executing party (in its capacity as an FCM Clearing Member or ForexClear Clearing Member or through its designated FCM Clearing Member or ForexClear Clearing Member) or the FCM Clearing Member (as the case may be) does not present an FCM ForexClear Transaction for clearing, the Clearing House shall set aside any FCM ForexClear Contract or ForexClear Contract that has been registered (if any) and the particulars of the corresponding FCM ForexClear Transaction in question shall at the Clearing House’s discretion be either: (i) deemed never to have been submitted to the Clearing House; or (ii) rejected until such time as the Executing Party (in its capacity as an FCM Clearing Member or ForexClear Clearing Member or through its designated FCM Clearing Member or ForexClear Clearing Member) or the FCM Clearing Member have presented the relevant contract to the Clearing House. In addition, any payment made under, or in respect of, any FCM ForexClear Contract set aside or deemed not cleared under this paragraph shall be repayable to the person who made the payment. Without prejudice to FCM Regulation 44 and its obligations under this Regulation 91 and under FCM Regulation 49, the Clearing House (and each other member of the LCH Group Holdings Limited and their respective officers, employees and agents) shall have no liability whatsoever to any person arising out of or in respect of the registration by it in error or otherwise of an FCM ForexClear Contract.  

| (o) Upon the exercise of a ForexClear Option Contract by or on behalf of a ForexClear Clearing Member or, as the case may be, by the Clearing House or upon the deemed exercise of such option pursuant to these Regulations or the Procedures, the ForexClear Option Contract shall immediately terminate and in its place a ForexClear Spot Transaction or a ForexClear Deliverable Forward Transaction shall automatically and immediately come into existence, and the related ForexClear Spot Contracts and ForexClear Deliverable Forward Contracts shall immediately be deemed to be registered by the Clearing House, on the terms specified in the applicable ForexClear Option Contract Terms, these Regulations and/or the Procedures. Notwithstanding the foregoing and in accordance with the Procedures, the Clearing House may, in its sole discretion, postpone or delay the registration of a ForexClear Spot Transaction or ForexClear Deliverable Forward Transaction resulting from the exercise of a ForexClear Option Contract in the event of an administrative, system or processing delay that affects the Clearing House’s ability to register such ForexClear Spot Transaction or ForexClear Deliverable Forward Transaction. For the avoidance of doubt, a postponement or delay pursuant to this Regulation 91(h) shall not impact a ForexClear Clearing Member’s ability to exercise a ForexClear Option Contract (or the deemed exercise of such ForexClear Option Contract pursuant to these Regulations or the Procedures), which exercise shall be irrevocable.
REGULATION 92  CANCELLATION OF FOREXCLEAR CONTRACTS

(a) A ForexClear Clearing Member may, in accordance with this Regulation 92 and the Procedures, cancel any ForexClear Contract to which it is a party.

(b) A ForexClear Dealer may, in accordance with this Regulation 92 and the Procedures, cancel a ForexClear Contact that arose from a ForexClear Transaction to which it is a party.

(c) A ForexClear Clearing Member shall be bound by the cancellation of a ForexClear Contract made by the relevant ForexClear Dealer.

(d) A ForexClear Dealer shall have no obligation to inform, notify or seek the consent of any ForexClear Clearing Member prior to initiating the cancellation of a ForexClear Contract in accordance with Regulation 92(b).

(e) Each ForexClear Clearing Member is deemed to grant a continuing authority to the Clearing House to terminate any ForexClear Contract registered in the name of that ForexClear Clearing Member upon the request of a ForexClear Dealer with whom that ForexClear Clearing Member is a party to an FDC Agreement.

(f) The Clearing House shall have no obligation to inform, notify or seek the consent of any ForexClear Clearing Member prior to cancelling a ForexClear Contract in accordance with this Regulation 92.

(g) The cancellation of a ForexClear Contract to which a ForexClear Clearing Member is a party (in this Regulation, the "First ForexClear Contract") is contingent upon inter alia the cancellation of the corresponding ForexClear Contract that arose from the same underlying ForexClear Transaction (in this Regulation, the "Second ForexClear Contract"), and vice versa.

(h) The date and time of the cancellation of a ForexClear Contract shall be as reported by the Clearing House in accordance with the Procedures and shall be binding on ForexClear Clearing Members.

(i) The Clearing House may decline to cancel a ForexClear Contract if:

   (i) in the opinion of the Clearing House acting in its sole discretion, the cancellation of that ForexClear Contract is not consistent with the Regulations and Procedures of the Clearing House and any policies of the Clearing House concerning risk management; or

   (ii) if there is insufficient Collateral standing to the credit of a ForexClear Clearing Member’s account to accommodate the cancellation of the First ForexClear Contract and/or the Second ForexClear Contract.

(j) With effect from the time of the cancellation of a ForexClear Contract in accordance with this Regulation 92, neither the ForexClear Clearing Member nor the Clearing House shall have any obligations under the terms of that ForexClear Contract and liability in respect thereof.
REGULATION 94  EXERCISE OF FOREXCLEAR OPTION CONTRACTS

(a) Subject to (b) below, a ForexClear Option Buyer may exercise the right or rights granted to it pursuant to a ForexClear Option Contract only by giving an irrevocable notice in the manner and at the time specified by the Procedures.

(b) If a ForexClear Option Contract has not been exercised in the manner and by the time specified in the Procedures, then it will, subject to the satisfaction of any conditions set forth in the Procedures, be deemed exercised in the manner and at the time specified by the Procedures.

(c) If a ForexClear Option Contract has not been exercised or deemed to have been exercised pursuant to this Regulation 94, the right or rights granted pursuant to that ForexClear Option Contract will immediately expire and become void and of no effect.

(d) For the avoidance of doubt, a ForexClear Option Contract may be exercised (or deemed to be exercised) in partial or in whole.
REGULATION 95 COMPRESSION

(a) Nothing in this Regulation shall apply to ForexClear Contracts which are not ForexClear NDF Contracts.

(b) Notwithstanding any other provision of these Regulations, but subject to paragraph (a) above, if:

(i) one or more ForexClear Contracts registered by a ForexClear Clearing Member in accordance with the Rulebook has substantially the same Economic Terms as one or more other ForexClear Contracts registered for the account of such ForexClear Clearing Member, and

(ii) all such ForexClear Contracts are either (a) registered on the ForexClear Clearing Member’s own behalf, or (b) registered on behalf of the same ForexClear Clearing Client and in the same Client Account,

then, to the extent permitted in the Procedures and this Regulation 95, the ForexClear Clearing Member may request that the Clearing House compress and combine all such ForexClear Contracts by terminating the relevant existing ForexClear Contracts and compressing them so that there results in either (1) no replacement ForexClear Contract, or (2) one or more replacement ForexClear Contracts having a net future cash flow equal to the net future cash flow of such original ForexClear Contracts. For the avoidance of doubt, in no circumstances can a ForexClear Contract registered in the Proprietary Account of a ForexClear Clearing Member be compressed pursuant to this Regulation 95 with a ForexClear Contract registered in the Client Account of that ForexClear Clearing Member.

(c) For the purposes of paragraph (b) above, two or more ForexClear Contracts may be deemed by the Clearing House to have “substantially the same Economic Terms” if they are based on the same underlying currencies and the Clearing House considers them, in its sole discretion, to have substantially the same Valuation Date (as defined in schedule 6 of the Product Specific Contract Terms and Eligibility Criteria Manual) and Settlement Date (as defined in schedule 6 of the Product Specific Contract Terms and Eligibility Criteria Manual). For the avoidance of doubt, the Clearing House may determine that two or more ForexClear Contracts have “substantially the same Economic Terms” even if they have differing Forward Rates (as defined in schedule 6 of the Product Specific Contract Terms and Eligibility Criteria Manual). The Clearing House shall determine (in its sole discretion) whether ForexClear Contracts that are the subject of a request for compression from the ForexClear Clearing Member may be compressed and, if such ForexClear Contracts are compressed, the Clearing House shall determine (in its sole discretion) whether any replacement ForexClear Contract(s) shall replace the compressed ForexClear Contracts and, if so, the resulting terms of such ForexClear Contract(s), and such determinations shall be binding on the ForexClear Clearing Member, absent manifest error. It is a condition for compression of ForexClear Contracts that the amount of Collateral that the Clearing House requires in respect of the original ForexClear Contracts is equal to that which is required by the Clearing House in respect of the replacement ForexClear Contract(s),
REGULATION 96  SETTLEMENT OF FOREXCLEAR OPTION CONTRACTS

(a) A ForexClear Option Contract that has been exercised, or deemed to be exercised, pursuant to Regulation 94 shall only be settled in accordance with this Regulation 96 and the Procedures.

(b) Immediately upon the exercise or deemed exercise of a ForexClear Option Contract pursuant to Regulation 94:

(i) if the ForexClear Option Contract is a Spot Settled ForexClear Option Contract, a ForexClear Spot Contract (between the same parties as the relevant ForexClear Option Contract) shall immediately arise pursuant to Regulation 91(h); and

(i) the party that was the ForexClear Option Buyer under the relevant ForexClear Option Contract shall be obliged to pay an amount equal to (and in the same currency as) the Put Currency Amount to the Clearing House; and

(ii) the party that was the ForexClear Option Seller under the relevant ForexClear Option Contract shall be obliged to pay an amount equal to (and in the same currency as) the Call Currency Amount to the Clearing House.
REGULATION 97  PREMIUM UNDER FOREXCLEAR OPTION CONTRACTS

(b) The Clearing House shall pay to a ForexClear Option Seller under the terms of a ForexClear Option Contract the premium in the form and manner prescribed in the Procedures and by the time specified in the Procedures.
REGULATION 98   HEDGING OF FOREXCLEAR OPTION CONTRACTS

(a) A ForexClear Clearing Member may, from time to time, submit for registration to the
Clearing House one or more ForexClear Deliverable Forward Transactions or
ForexClear Spot Transactions (or any combination of the same) provided that the
same have been concluded for the purpose of:

(i) hedging some or all of its foreign exchange exposure;
(ii) reducing its initial margin requirement; and/or
(iii) reducing its settlement risk.

in each case arising under, or in connection with, (A) one or more ForexClear Option

The "Settlement Position Amount" means, with respect to a given day, a given ForexClear Option Clearing Member and a given ForexClear Currency, the net amount of that ForexClear Currency that is or will be payable by that ForexClear Option Clearing Member under all ForexClear Contracts (other than ForexClear NDF Contracts) to which it is a party that have a Settlement Date (as defined in the applicable ForexClear Contract Terms) falling two days after such day.

(ii) the ForexClear Spot Transaction(s) meet the applicable ForexClear Eligibility Criteria in effect on such date.
For the avoidance of doubt, the Clearing House shall be entitled (in accordance with Regulation 16(c)) to refuse to register any new ForexClear Spot Contract notwithstanding that it may satisfy (i) and (ii) above if it considers such action advisable for its own protection or the protection of the relevant market.

(j) Each time a ForexClear Option Clearing Member submits a ForexClear Spot Transaction to the Clearing House for registration pursuant to (i) above, it hereby represents and warrants to the Clearing House that such ForexClear Spot Transaction (either individually or when taken together with other ForexClear Spot Transactions submitted pursuant to (i) above) satisfies the condition in (i)(i) above.

(o) At the time and in the manner specified in the Procedures, the Clearing House shall notify each Non-Impacted ForexClear Option Clearing Member and the Impacted ForexClear Option Clearing Member of the Mandatory Settlement ForexClear Swap Contracts (if any) that it has entered into for and on its behalf.

(q) For as long as a ForexClear Settlement Event is continuing with respect to a ForexClear Option Clearing Member and a given ForexClear Currency, the Clearing House shall be entitled, in its sole and absolute discretion, to refuse to register any new ForexClear Contract in respect of any ForexClear Transaction denominated in that ForexClear Currency that is submitted by that ForexClear Option Clearing Member, other than (i) any ForexClear NDF Transaction, (ii) any ForexClear Transaction that is expressly permitted by this Regulation 100 or Regulation 101, (iii) any ForexClear Spot Transaction or ForexClear Deliverable Forward Transaction arising pursuant to the exercise of a ForexClear Option Contract under Regulation 96, or (iv) any ForexClear Transaction permitted under Regulation 98. Settlement Exposure Limit

(r) Each time a ForexClear Option Clearing Member submits a ForexClear Transaction (other than a ForexClear NDF Transaction) for registration with the Clearing House (either as a new ForexClear Transaction or in connection with a transfer in accordance with Regulation 18), which would, if registered, have a Settlement Date falling more than two days after the date of registration, the Clearing House shall compare:
(i) the Settlement Exposure Limit on that day with respect to that ForexClear Option Clearing Member and the relevant ForexClear Currency; and

and the amount payable on a day to one party (the Payee) by the other party (the Payer) under (i) or (ii) (as applicable) above shall be reduced by setting-off such amount against the amount (the Other Amount) payable by the Payee to the Payer under (i) or (ii) (as applicable) above. (A) if the ForexClear Option Clearing Member is a Non-Affected ForexClear Option Clearing Member in respect of that ForexClear Liquidity Event, the Clearing House shall not have the authority to enter into any Mandatory ForexClear Swap Contract that would, (i) upon its registration by and with the Clearing House, cause the Net Settlement Amount in relation to the ForexClear Option Clearing Member on the relevant day and in relevant ForexClear Currency to exceed the Settlement Position Limit applicable to the ForexClear Option Clearing Member and the relevant ForexClear Currency on such day, or (ii) exceed the Mandatory ForexClear Swap Limit applicable to that Non-Affected ForexClear Option Clearing Member and the relevant ForexClear Currency; and

(A) if the ForexClear Option Clearing Member is a Non-Impacted ForexClear Option Clearing Member in respect of that ForexClear Settlement Event, the Clearing House shall not have the authority to enter into any Mandatory Settlement ForexClear Swap Contract that would, upon its registration by and with the Clearing House, cause the Net Settlement Amount in relation to the ForexClear Option Clearing Member on the relevant day and in relevant ForexClear Currency to exceed the Settlement Position Limit applicable to the ForexClear Option Clearing Member and the relevant ForexClear Currency on such day; and

(B) the terms of the Mandatory Settlement ForexClear Swap Contracts shall be subject to Regulation 100;

(a) Each ForexClear Option Clearing Member hereby agrees and acknowledges for the benefit of the Settlement Service Provider that the Settlement Service Provider shall owe no liability or responsibility whatsoever to any ForexClear Option Clearing Member with respect to the settlement services the Settlement Service Provider shall provide in connection with settlement under the ForexClear Option Service not taking place through the Clearing House Protected Payment System.

(b) Each ForexClear Option Clearing Member agrees that this Regulation 106 shall be for the benefit of, and enforceable by, the Settlement Service Provider in accordance with the Contracts (Rights of Third Parties) Act 1999. The rights of the Clearing House to terminate, rescind or vary, waive or agree to a settlement under this Regulation 106 are not subject to the consent of any other person.

DEFAULT RULES

1. Save where expressly stated to the contrary these Default Rules ("Rules") have effect with regard to the provision of clearing services for all markets cleared by the Clearing House. These Rules (including each Supplement) form part of the Clearing House's Rulebook but do not apply in relation to a Co-operating Clearing House.

The Rules comprise:

- these general Default Rules (Rules 1 to 27 inclusive);
- Supplements specific to the following Service(s): the Commodities Service, the Equities Service, the ForexClear Service, the Rates Service and the RepoClear Service.

Each Supplement establishes a separate default fund specific to the Service to which the Supplement relates. The Supplements establish the size of each default fund, the basis for calculating Contributions to each default fund, and include supplementary provisions addressing cases where the relevant default fund has been utilised. The general Default Rules establish the mechanisms, which apply severally to each default fund, for utilisation of the default funds, and for other matters common to all default funds. In the event of any inconsistency between the provisions of the Default Rules and the provisions of a Supplement or an Annex, the Supplement or Annex (as applicable) will prevail.

The allocation by the Risk Committee of the Clearing House of a Contract to a particular Service to which a Supplement applies shall be done in accordance with the definitions set out in the Supplements, and each decision of the Risk Committee in this respect is conclusive.

2. (a) Words and expressions defined in the Clearing House's Rulebook shall have the same meanings in these Rules, save that (i) in relation to the provision of clearing services by an FCM Clearing Member, words and expressions defined in the Clearing House's FCM Regulations shall have the same meanings in these Rules and such meanings shall prevail over any other meaning given to the relevant word or expression in the Clearing House's Rulebook and (ii) in relation to the provision of clearing services to Sponsored Members, words and expressions defined in the Clearing House's SC Regulations shall have the same meanings in
(h) the Clearing Member fails to pay any sum due and payable, or is otherwise in default under the terms of any agreement or threatens to suspend payment or to default under the terms of any agreement;

(i) in respect of the Clearing Member, a bankruptcy petition is presented or a bankruptcy order is made or a voluntary arrangement is approved;

(j) in respect of the Clearing Member, a receiver, manager, administrator or administrative receiver is appointed or a composition or scheme of arrangement is approved by the court;

(k) an assignment or composition is made by the Clearing Member for the benefit of creditors or any of them;

(l) a petition is presented for the winding up of the Clearing Member;

(m) an order is made for the winding up of the Clearing Member, or a resolution is passed for the winding up of the Clearing Member (save for the purpose of its amalgamation or reconstruction);

(n) in respect of the Clearing Member, a petition is presented or an order made for the appointment of an administrator;

(o) the Clearing Member, being a partnership, is dissolved, or being a registered company, is dissolved or suffers its name to be struck off the register of companies;

(p) any step analogous to those mentioned in paragraphs (i) and (o) is taken in respect of the Clearing Member in any jurisdiction;

(q) any distress, execution or other process is levied or enforced or served upon or against any property of the Clearing Member; or

(r) in respect of a Clearing Member (that is a Sponsored Member), the Clearing House has declared the default of one or more of its Agent Members and such Agent Member has, as a result, become unable to perform its obligations under Schedule 7 (RepoClear Default Fund Supplement).

6. The steps which may be taken by the Clearing House under Rule 3 in respect of the Defaulter or otherwise are:

(a) to register (i) an original contract, OTC Transaction or an FCM Transaction (as the case may be) in the name of the Defaulter or to decline to register an original contract, OTC Transaction or an FCM Transaction (as the case may be) in the name of the Defaulter or otherwise to exercise the Clearing House's discretion with regard to the Defaulter under (i) Regulation 16(c) (Registration) or (ii), in the case of an FCM Clearing Member, FCM Regulations 46(h) and 49(g) or other applicable provision in the FCM Rulebook, or (iii) in the case of a Sponsored Member, SC Regulation 12 (Registration) or other applicable provision of the SC Regulations;
without prejudice to any other right of the Clearing House under the Regulations, to take such action as the Clearing House may deem necessary for its protection in the name and at the expense of the Defaulter with regard to any open contract standing in its name;

in respect of Contracts standing in the Defaulter's name, to charge to its account the amount (or, if the amount is not finally known, the estimated amount) of any expenses incurred by the Clearing House with regard to or in consequence of the circumstances mentioned in Rule 3 or the steps which are or may be taken under this Rule, the Regulations, the FCM Regulations or the SC Regulations (as the case may be) and any expenses incurred with regard thereto under Rule 13;

to take any other step calculated by the Clearing House to complete the process set out in Rule 8;

if the Defaulter is an Affected ForexClear Option Clearing Member, to take any step under Regulation 101 (ForexClear Option Service - Liquidity Event) or Regulation 102 (ForexClear Option Service - Liquidity Fund Contributions) of the Regulations with respect to the ForexClear Option Contracts, ForexClear Swap Contracts, ForexClear Deliverable Forward Contracts and/or ForexClear Spot Contracts then registered in the name of that Defaulter, and to the extent the Clearing House decides to take any such steps under Regulation 101 (ForexClear Option Service - Liquidity Event) or Regulation 102 (ForexClear Option Service - Liquidity Fund Contributions) in the circumstances described in this paragraph (s), those steps set out in Regulation 101 (ForexClear Option Service - Liquidity Event) or Regulation 102 (ForexClear Option Service - Liquidity Fund Contributions) shall be deemed to form part of these Default Rules as if they were set out in full herein; and

to obtain such advice or assistance, whether legal or otherwise, as the Clearing House may deem necessary and at the expense of the Defaulter for any matter arising out of or in connection with the default,

provided that:

in the case of all Client Clearing Contracts, the Clearing House: (A) shall act in accordance with the provisions of the Client Clearing Annex (which deals, amongst other things, with certain specific arrangements, procedures and steps for the transfer, termination, close-out and re-establishment or the close-out and/or settlement of such Client Clearing Contracts pursuant to this Rule 6); and (B) may also take any of the other steps set out in this Rule 6 to the extent that they do not conflict with the steps set out in the Client Clearing Annex and, provided that, in no circumstances will the Clearing House sell any security deposited as Collateral in a Client Account and forming part of the Clearing Member Current Collateral Balance in respect of such Client Account pursuant to (without limitation) paragraphs (e), (h), (p) or (r) of this Rule 6, the Client Clearing Annex to these Default Rules or otherwise for the duration of the Porting Window applicable to the relevant Clearing Client, other than (1) with the consent, to the selling
Treasury Accounts combined, and (if the Clearing House has elected in accordance with Rule 11(a)) any Proprietary Accounts; and

(xii) with regard to a net sum produced by reference to Contracts registered in SM/AM Account with LCH of the Defaulter, that SM/AM Account.

(d) Notwithstanding any provision of the Rulebook to the contrary, any loss which relates to a Treasury Account may not be treated as a Default Loss, whether or not Collateral has been applied in respect of such loss. Nothing in this Rule 11(d) requires the Clearing House to apply Collateral in respect of any such loss, except that the Clearing House may not apply Collateral in respect of any such loss to the extent that doing so would give rise to an Excess Loss.

12. Without further authorisation, permission or cooperation from the Defaulter (or a related Agent Member), the Clearing House may appoint any person to take or assist it in taking any step under these Rules or to complete or assist it in completing the process set out in Rule 8.

13. The Clearing House may co-operate, by the sharing of information and otherwise, with any Regulatory Body or relevant Exchange, any relevant office-holder acting in relation to the Defaulter or its estate and any other authority or body having responsibility for, or any Clearing Member having an interest in, any matter arising out of or connected with the circumstances mentioned in Rule 3.

14. In addition to such copy report as it supplies under section 162(3) of the Companies Act 1989, the Clearing House shall report to the Defaulter (and, if applicable, its related Agent Members), or any relevant office-holder acting in relation to the Defaulter or its estate, on steps taken in relation to the Defaulter under Rule 6.

Reduction of Losses on Default

15. Subject to: (i) any contrary provision of the Rulebook and/or (ii) any variation or modification in, or clarification of, the application of the resources described below set out in an Annex, where a Defaulter fails to pay any sum payable to the Clearing House, the Clearing House shall reduce or bear its loss in the manner provided by this Rule:

(a) first, to the extent the Clearing House determines appropriate, in applying any Collateral transferred to the Clearing House by or for the account of the Defaulter (including, where the Defaulter is a Sponsored Member, available Agent Buffer transferred to the Clearing House by the Defaulting Sponsored Member’s collateral account as per Regulations 16(c) and (d)), any other sum owed to the Defaulter or its Agent Member (other than (i) any Contribution of the Defaulter or (ii) any ForexClear Option Service Liquidity Fund Contributions of the Defaulter) and any Collateral transferred to the Clearing House by a Custodial Segregated Client in respect of a Custodial Segregated Account of the Defaulter (together, "Margin Cover"), provided that (i) Margin Cover related to a particular type of Business is to be applied first to any loss attributable to that Business until such loss is absorbed; and (ii) save in the case where the relevant Client Accounts are two or more Individual Segregated Accounts and/or Custodial...
Segregated Accounts opened by the Defaulter on behalf of the same Clearing Client (or, in the case of a Defaulter who is an FCM Clearing Member, two or more FCM Client Sub-Accounts held in the name of the same FCM Client, two or more FCM Omnibus Futures Client Accounts with LCH, or two or more FCM Omnibus Foreign Futures Client Accounts with LCH, as applicable), in no circumstances will Margin Cover transferred by or for the account of the Defaulter and/or by a Custodial Segregated Client in respect of obligations arising on a Client Account be applied by the Clearing House pursuant to this stage (a) in respect of any loss attributable to any of the Defaulter's other accounts; and (iii) in the case where the defaulter is a Sponsored Member, that Collateral transferred for Margin Cover directly be applied first before any Agent Buffer used in the context of Regulation 16; second, by (i) recourse to the Defaulter's relevant Contribution made by the Defaulter or for the account of the Defaulter by an Agent Member in respect of the type of Business to which the loss relates, followed by (ii) recourse to any other Contribution made by the Defaulter or for the account of the Defaulter by an Agent Member to the extent not utilised under (i) above. The Clearing House will exercise its rights of recourse under this stage (a) by set-off against the Clearing House's obligation to repay the relevant Contributions to the Defaulter or (B) where the Defaulter is a Sponsored Member, by recourse to the indemnities in respect of all Contributions made by the Defaulter or for the account of the Defaulter by an Agent Member to the defaulter's Contribution given under Rule 19 (i) and (ii) respectively by each Agent Member of the Defaulter and set-off against the Clearing House's obligation to repay contributions to the Agent Members; 

(b) third, where the Defaulter is a Sponsored Member, by recourse to the indemnities in respect of all available Agent Resource Contribution given under SC Regulation 17 (Agent Resource Contribution) and Rule 19 by each Agent Member of the Defaulter in respect of any Agent Resource Contribution posted by such Agent in proportion to the portfolio of the defaulted Sponsored Clearing Member (which shall be satisfied by set-off against the Clearing House's obligation to repay the relevant Agent Resource Contributions to such Agent Members); 

(c) fourth, by payment from the Clearing House's own account of an amount (the "Capped Amount") (i) determined by the Clearing House from time to time in accordance with the requirements relating to the calculation and the setting aside of dedicated own resources under the Own Resources Provision; or (ii) in the case of a subsequent Default occurring before the Clearing House has reinstated the dedicated resources required in accordance with the Own Resources Provision, representing the residual amount of such dedicated own resources.

Where there are amounts due from the Defaulter at this stage in respect of more than one type of Business (each a "Relevant Business" in respect of the Defaulter), a separate Capped Amount determined in accordance with Rule 15(b)(i)-(ii) will be paid from the Clearing House's own account under this stage (b) in respect of such Relevant Business.

(d) fifth, to the extent that any insurance or analogous arrangement is not available to the Clearing House, by recourse to the indemnities given under
Rule 21 by Clearing Members and relevant Agent Members other than the Defaulter (which shall be satisfied by set-off against the Clearing House's obligation to repay the relevant Contributions of such Clearing Members or relevant Agent Members). If the criteria specified in a relevant Supplement for calling any Unfunded Contributions have been satisfied, then references to the Contributions of Clearing Members or relevant Agent Members other than the Defaulter in this Rule 15(d) shall include such Unfunded Contributions;

(e) sixth, by recourse to any insurance cover or analogous arrangement;

(f) seventh, by recourse to the indemnities given under Rule 21 by Clearing Members or relevant Agent Members (as applicable) other than the Defaulter (which shall be satisfied by set-off against the Clearing House's obligation to repay the relevant Contributions to of such Clearing Members or relevant Agent Members (as applicable). If the criteria specified in a relevant Supplement for calling any Unfunded Contributions have been satisfied, then the references to the Contributions of Clearing Members or relevant Agent Members (as applicable) other than the Defaulter in this Rule 15(f) shall include such Unfunded Contributions;

(g) eighth, by recourse to any other indemnities, guarantees, undertakings or monies provided by Clearing Members (excluding the ForexClear Option Service Liquidity Fund Contributions);

(h) ninth, by recourse to the relevant Supplement.

Where a Defaulter is engaged in more than one Relevant Business, the completion of the default management processes in respect of such Relevant Businesses may occur at different times. The Clearing House may be required to make a determination in respect of one Relevant Business (including certification of a Default Loss under Rule 16(b), certification of a net sum payable under Rule 19(i) or the value of an Excess Loss) in order to manage the Default at a time when (a) the determination is contingent on an outcome of the default management process in respect of some other Relevant Business, and (b) that outcome has not yet been reached. In the interests of efficient resolution, the Clearing House may at such point make assumptions about that outcome, and proceed with the relevant process on that basis. Where any such assumptions have been made, the Clearing House shall, on the completion of the default management processes in respect of all Relevant Businesses, make such credits to the default funds relating to the Relevant Businesses and such distributions to former Clearing Members as may be necessary to put the default funds and those firms which had contributed to such Default funds at the time of the relevant default in the position that they would have been in if the correct outcomes had been reached and the relevant assumptions had not been made.

This Rule has effect without prejudice to any rights of the Clearing House or any other person against the Defaulter.
SCHEDULE 3
FOREXCLEAR DMP ANNEX

1. Scope and interpretation

1.1 The Clearing House has established a ForexClear DMP which will apply to ForexClear Contracts following the issuing of a Default Notice relating to a ForexClear Clearing Member and in respect of which, for the avoidance of doubt, the Clearing House will have no recourse to the process of invoicing-back. The fundamental principles of the ForexClear DMP are elaborated to the fullest extent possible in this Annex. Where exhaustive detail cannot be laid out in the provisions of this Annex, the ForexClear DMP will be undertaken on the basis of the principles contained herein.

1.2 The Clearing House has an obligation to ensure the on-going integrity of the ForexClear Service and of the ForexClear Contracts in the interests of the Non-Defaulting FXCCMs. When a ForexClear Clearing Member defaults, Non-Defaulting FXCCMs are required to supply impartial expertise through the ForexClear DMG and to bid for the Auction Portfolios of a Defaulting FXCCM, as laid out in this Annex. In addition, most FXCCMs or their parent companies or subsidiaries or fellow subsidiaries, have direct interests in that integrity, notably as contributors to the various default funds of the Clearing House. Each FXCCM shall take all steps and execute all documents necessary or required by the Clearing House to comply with its obligations as a FXCCM arising out of this ForexClear DMP Annex.

1.3 The initial margining process in respect of ForexClear Contracts will be such so as to ensure that the acceptance of bids for the Auction Portfolio of a Defaulting FXCCM will recognise risk premiums, and that equivalent premiums will be paid by the Clearing House in closing-out large positions in other Contracts traded on exchange or ATS-organised markets.

1.5 Terms used in this Annex which are not defined herein shall have the meanings given to them in the Regulations and in the FCM Regulations.

2. ForexClear Clearing House Business and FCM ForexClear House Business

2.1 Portfolio Splitting

The Clearing House, in consultation with and with the assistance of the ForexClear DMG, shall determine the composition of each Auction Portfolio and shall have the discretion to divide a Portfolio into two or more individual Auction Portfolios with the aim of facilitating the efficiency of, and reducing the risk associated with, the auction process provided for in Rule 2.3 of this Annex. The overriding principle is that the Clearing House will structure Auction Portfolios with the intention of ensuring a ForexClear DMP which best protects the resources of the Clearing House, subject to compliance with applicable provisions of the CEA and the CFTC Regulations regarding segregation of client assets. Therefore, nothing in this Rule 2.1 shall be deemed to imply: (a) that the Clearing House is under any obligation to split a particular Portfolio of a Defaulting FXCCM (regardless of the number of ForexClear Contracts that such Portfolio contains); or (b) any particular requirements as to the composition of an individual Auction Portfolio (including in terms of combining or separating ForexClear Contracts belonging to different ForexClear Contract Categories), except that, subject to overriding risk procedures it is broadly anticipated that the parameters of any Auction Portfolio shall not be materially different to those set out in the Clearing House's fire drill.

2.2 Risk Neutralisation

The Clearing House will, in consultation with and with the assistance of the ForexClear DMG, reduce the market risk and/or settlement risk associated with a
Defaulting FXCCM’s obligations to the Clearing House so far as is reasonably practicable by hedging the Clearing House’s exposure in open ForexClear Contracts to which the Defaulting FXCCM is party. Hedging may be undertaken in a number of sessions, but should be undertaken as quickly as is compatible with efficient execution. All such hedging shall be undertaken by the Clearing House with FXCCMs, on the basis of separate agreements between the Clearing House and each such FXCCM. The aim of Risk Neutralisation is to reduce market exposure to within defined tolerance limits expressed as deltas or other measures of market risk and as established from time to time by the Clearing House in consultation with the ForexClear DMG or as may reasonably be determined by the Clearing House in consultation with the ForexClear DMG once a Default has been declared under the Default Rules. For the avoidance of doubt, Risk Neutralisation may happen prior to, concurrently with and/or subsequently to the splitting of a Portfolio pursuant to Rule 2.1 above.

2.3 Auction

(a) Following the completion of Risk Neutralisation, the Clearing House shall calculate the AIP for each Auction Portfolio under Rule 2.4 and shall auction each Auction Portfolio to Non-Defaulting FXCCMs in order to seek to re-establish the positions it had with the Defaulting FXCCM under the ForexClear Contracts in each Auction Portfolio with Non-Defaulting FXCCMs and to seek to determine the net value of those ForexClear Contracts for the purposes of determining the extent of any losses to the Clearing House which are to be reduced or borne in the manner provided by Rule 15 (Reduction of Losses on Default) of the Default Rules or, as the case may be, the extent of any gains to the Clearing House which the Clearing House must pay to the Defaulting FXCCM. The Clearing House, in consultation with the ForexClear DMG, shall prescribe such procedures (in addition to those set out herein) for the conduct of the auction process as it considers reasonably appropriate from time to time.

(b) The Clearing House shall notify each FXCCM of all details that may be reasonably required in relation to an Auction Portfolio prior to the relevant Auction.

(c) The auction process may take place over a number of days and Auctions of different Auction Portfolios may take place at different times.

(d) FXCCMs will submit bids to the Clearing House representatives on the ForexClear DMG, who will ensure that the identities of the bidders are not revealed to the FXCCM representatives on the ForexClear DMG. For the avoidance of doubt, an FXCCM shall be entitled to submit a bid on behalf of one or more affiliated FXCCMs. The ForexClear DMG will oversee the bidding process in a manner which it considers best protects the resources of the Clearing House and ensures an orderly process.

(e) The Clearing House in consultation with the ForexClear DMG will have full discretion in deciding whether or not to accept a particular bid in an Auction and, in so deciding, will take into account the relevant factors that determine risk premiums, as well as the range of bids received relative to the amount of...
Collateral held in respect of initial margin and, subject to their availability, the Clearing House resources as set out in Rule 15 of the Clearing House's Default Rules. In the event that more than one FXCCM submits a bid of the same value (each an "Equal Bid"), the Clearing House will, subject to its discretion to reject all such Equal Bids, select the bid which was received first in time.

(f) In the case of an Auction in which no bid is accepted or received (as the case may be), one or more further Auctions will be held in relation to the relevant Auction Portfolio. As soon as practicable following an Auction:

(i) in the event that a bid was accepted, the Clearing House will notify those Expected Auction Participants together with any other FXCCMs who participated in the Auction that a bid was accepted and shall notify the FXCCM who submitted the accepted bid that its bid was accepted; or

(ii) in the event that no bid was accepted, the Clearing House will notify all FXCCMs of the details of any further Auction.

(g) The FXCCM agrees to use all reasonable efforts to make a bid in an Auction for an Auction Portfolio in respect of which such FXCCM is an Expected Auction Participant.

2.4 Auction Incentive Pools

(a) Before commencing the auction process, the Clearing House will calculate an auction incentive pool (each an "AIP") for each individual Auction Portfolio for the purposes of providing an initial allocation of the resources potentially available to it to satisfy any loss incurred in the Auction of each such Auction Portfolio. Notwithstanding such initial allocation, any resources utilised by the Clearing House will be allocated in accordance with Rule 2.5 below.

(b) For each AIP, the resources shall be allocated as follows:

(i) the resources of the Defaulting FXCCM (in the form of: (i) that part of the Margin Cover for the ForexClear Contracts of the Defaulting FXCCM pursuant to Rule 15 of the Default Rules and (ii) the ForexClear Contribution made by the Defaulting FXCCM to the ForexClear Default Fund) available pursuant to Rule 15 of the Default Rules at the time of the auction process will be allocated to the AIPs based on the proportion that (a) the risk of the relevant Auction Portfolio bears to (b) the aggregate of the risks (on an absolute basis) for all Auction Portfolios;

(ii) the portion of the Capped Amount applied to the ForexClear Business of the Defaulting FXCCM pursuant to Rule 15 of the Default Rules will be allocated to the AIPs based on the proportion that (a) the risk of the relevant Auction Portfolio bears to (b) the aggregate of the risks (on an absolute basis) for all Auction Portfolios; and
the Non-Defaulters' Contribution of each FXCCM and the total value of the ForexClear Unfunded Contributions which would be callable but have not been called by the Clearing House from the relevant FXCCM in respect of the relevant Default in accordance with Rule F8 of the Default Rules (the "Potential Unfunded Contributions") will, be allocated between the AIPs relating to an Auction Portfolio in respect of which the relevant FXCCM has Resembling Contracts based on the proportion that: (a) the risk of the Resembling Contracts of such FXCCM related to the relevant Auction Portfolio bears to (b) the aggregate of the amounts calculated in (a) for all of the Resembling Contracts of such FXCCM; provided that where there is more than one Auction Portfolio that corresponds to the same Resembling Contracts, the Non-Defaulters’ Contributions and Potential Unfunded Contributions allocated to the AIP related to those Resembling Contracts will be further divided for the purposes of allocation into AIPs relating to the relevant Auction Portfolios based on the proportion that (a) the risk of the ForexClear Contracts in each such Auction Portfolio bears to (b) the aggregate of the amounts calculated in (a) for each of the Auction Portfolios corresponding to the relevant Resembling Contracts.

(c) Where a Portfolio for a particular Currency Pair has been split into two or more Auction Portfolios, the Non-Defaulters' Contributions and Potential Unfunded Contributions allocated to the AIP related to the relevant Portfolio will be further divided for the purposes of allocation into AIPs relating to the relevant Auction Portfolios based on the proportion that (a) the risk of the ForexClear Contracts in each such Auction Portfolio bears to (b) the aggregate of the amounts calculated in (a) for each of the Auction Portfolios in the relevant Currency Pair.

2.5 *Loss Attribution*

(a) Following the completion of all Auctions of all Auction Portfolios of the Defaulting FXCCM, the Clearing House will determine whether losses incurred by it as a result of such Auctions are such that the Non-Defaulters' Contributions must be utilised. Where applicable, such losses will be allocated to Non-Defaulters' Contributions in accordance with the loss attribution process described in Rules 2.5(b) to 2.5(h) below.

(b) For each Auction Portfolio, losses to the Clearing House will be met using the resources as set out in Rule 15 of the Default Rules. In applying those resources, the Clearing House will allocate the losses in respect of each Auction Portfolio (the "Auction Losses") by reference to the resources allocated to the AIPs related to such Auction Portfolios in accordance with Rule 2.4. Where there are no Auction Losses in respect of an Auction Portfolio or the Auction Losses in respect of an Auction Portfolio do not require the full amount of the resources referred to in sub-paragraphs (i) and (ii) of Rule 2.4(b) allocated to the AIP related to the relevant Auction Portfolio (the "Initial Resources") to be fully utilised, the relevant surplus Initial Resources will be allocated pro rata between those AIPs relating to Auction Portfolios in respect of which there are Auction Losses requiring the
utilisation of resources beyond the Initial Resources available in the relevant AIP in accordance with Rules 15(a), 15(b) and 15(c) of the Default Rules until such time as all Initial Resources have been fully utilised.

(c) In the case of each Auction for which there are Auction Losses in respect of which the Non-Defaulters' Contributions must be utilised, those Non-Defaulters' Contributions, not including, for these purposes, any part of such Non-Defaulters' Contributions that reflect any ForexClear Unfunded Contribution deposited with the Clearing House pursuant to the Default in respect of which the relevant Auction was held (the "Original Contributions") and which have been allocated to the AIP relating to the relevant Auction Portfolio (the "Relevant Original Contributions") will be used first in the following order:

(i) the Auction Losses will be attributed to the Relevant Original Contributions of those FXCCMs who are Expected Auction Participants in respect of the relevant Auction Portfolio and who did not bid in the relevant Auction. Auction Losses will be attributed to the Relevant Original Contribution of an individual FXCCM pursuant to this sub-paragraph (i) based upon the proportion that: (a) the value of the Relevant Original Contribution of such FXCCM bears to (b) the total value of the Relevant Original Contributions of all FXCCMs who are Expected Auction Participants in respect of the relevant Auction Portfolio and who did not bid in the relevant Auction;

(ii) if and to the extent that there are Auction Losses outstanding after the attribution process referred to in sub-paragraph (i) above, those Auction Losses will be attributed to the Relevant Original Contributions of the Short Bidders. For the purposes of this sub-paragraph (ii) and sub-paragraph (ii) of Rule 2.5(f), the term "Short Bidder" means any FXCCM who is an Expected Auction Participant and who submitted an unsuccessful bid in the relevant Auction save for any FXCCM who submitted a higher bid in an Auction than the bid accepted by the Clearing House in accordance with Rule 2.3(d) (each such FXCCM, a "Higher Bidder" and each such bid, a "Higher Bid").

Auction Losses will be attributed to an individual Short Bidder pursuant to this sub-paragraph (ii) based upon the proportion that (a) the variance of the bid of such Short Bidder from the winning bid in USD bears to (b) the sum of the variances of the bids of all Short Bidders from the winning bid in USD.

Where the value of the Auction Losses attributed to an individual Short Bidder pursuant to this sub-paragraph (ii) is greater than the value of the Relevant Original Contribution of such Short Bidder, the relevant excess Auction Losses will be attributed to each Short Bidder whose Relevant Original Contribution exceeds the value of the Auction Losses which have been attributed to it pursuant to this sub-paragraph (ii) (each a "Remaining Original Short Bidder") by (a) calculating the amount which is the bid of the relevant Remaining Original Short Bidder divided by the sum of the bids of all Remaining Original Short
Bidders; and (b) multiplying such amount by the value of the relevant excess Auction Losses.

The Clearing House will repeat the loss attribution process described in this sub-paragraph (ii) until the first to occur of (a) the Auction Losses being fully met; and (b) the Relevant Original Contributions of all Short Bidders being fully attributed; and

(iii) if and to the extent that there are Auction Losses outstanding after the attribution process referred to in sub-paragraph (ii) above, those Auction Losses will be attributed to the Relevant Original Contribution of the FXCCM who is an Expected Auction Participant in respect of the relevant Auction Portfolio and who submitted the winning bid, together with, where applicable, the Relevant Original Contribution of any FXCCM who is an Expected Auction Participant in respect of the relevant Auction Portfolio and who submitted a bid which was an Equal Bid or a Higher Bid in relation to that winning bid. The outstanding Auction Losses will be attributed to the Relevant Original Contribution of an individual FXCCM pursuant to this sub-paragraph (iii) based upon the proportion that: (a) the value of the Relevant Original Contribution of such FXCCM bears to (b) the total value of the Relevant Original Contributions of (i) the FXCCM who submitted the winning bid; (ii) any FXCCMs who submitted an Equal Bid to such winning bid; and (iii) any FXCCMs who were Higher Bidders in the relevant Auction.

If, for an Auction Portfolio, there remain Auction Losses outstanding after the attribution process referenced to in sub-paragraph (iii) above, and there are AIPs relating to other Auction Portfolios containing ForexClear Contracts denominated in the same Auction Portfolio Currency Pair and belonging to the same Auction Portfolio Category as the relevant Auction Portfolio in which the Relevant Original Contributions have not been fully utilised, the Clearing House shall attribute the remaining Auction Losses amongst such Remaining Original Contributions through the attribution process set out in sub-paragraphs (i) to (iii) above.

(d) If and to the extent that there are Auction Losses outstanding following the attribution process referred to in Rule 2.5(c) above, those Auction Losses will be attributed to the Original Contributions of those FXCCMs (each a “Losing Original FXCCM”) who have Resembling Contracts (which, for the purposes of this paragraph (d), shall be determined without regard to limb (i) of the definition thereof) in respect of any of the Auction Portfolios in relation to which Auction Losses have arisen (each a “Losing AP Type”) and whose Original Contributions have not yet been fully utilised. Such remaining Auction Losses will be attributed to any remaining Original Contribution of each such FXCCM pursuant to this Rule 2.5(d) based upon the proportion that: (a) the risk of all of the Resembling Contracts of such FXCCM in respect all such Losing AP Types bears to (b) the aggregate risk of the amounts calculated in (a) for all Losing Original FXCCMs. The Clearing House will repeat the loss attribution process described in this Rule 2.5(d) until the first to
occur of (a) the Auction Losses being fully met; and (b) the Original Contributions of all Losing Currency Original FXCCMs being fully attributed.

(e) If and to the extent that there are Auction Losses outstanding following the attribution process referred to in Rule 2.5 above, those remaining Auction Losses will be allocated to the Original Contributions of each FXCCM who is not a Losing Original FXCCM in respect of any of the Losing AP Types based upon the proportion that (a) the value of each such Original Contribution bears to (b) the aggregate of the amounts calculated in (a) for each of such FXCCMs.

(f) If and to the extent that there are Auction Losses outstanding following the attribution process referred to in Rule 2.5(e) above, the ForexClear Unfunded Contributions which have been allocated to the AIP relating to the relevant Auction Portfolio (the "Relevant Unfunded Contributions") will be used first in the following order:

(i) the Auction Losses will be attributed to the Relevant Unfunded Contributions of those FXCCMs who are Expected Auction Participants in respect of the relevant Auction Portfolio and who did not bid in the relevant Auction. Auction Losses will be attributed to the Relevant Unfunded Contributions of an individual FXCCM pursuant to this sub-paragraph (i) based upon the proportion that: (a) the value of the Relevant Unfunded Contribution of such FXCCM bears to (b) the total value of the Relevant Unfunded Contributions of all FXCCMs who are Expected Auction Participants in the Auction Portfolio and who did not bid in the relevant Auction;

(ii) if and to the extent that there are Auction Losses outstanding after the attribution process referred to in sub-paragraph (i) above, those Auction Losses will be attributed to the Relevant Unfunded Contributions of the Short Bidders in the relevant Auction. Auction Losses will be attributed to an individual Short Bidder pursuant to this sub-paragraph (ii) based upon the proportion that (a) the variance of the bid of such Short Bidder from the winning bid in USD bears to (b) the sum of the variances of the bids of all Short Bidders from the winning bid in USD.

Where the value of the Auction Losses attributed to an individual Short Bidder pursuant to this sub-paragraph (ii) is greater than the value of the Relevant Unfunded Contribution of such Short Bidder, the relevant excess Auction Losses will be attributed to each Short Bidder whose Relevant Unfunded Contribution exceeds the value of the Auction Losses which have been attributed to it pursuant to this sub-paragraph (ii) (each a "Remaining Unfunded Short Bidder") by (a) calculating the amount which is the bid of the relevant Remaining Unfunded Short Bidder divided by the sum of the bids of all Remaining Unfunded Short Bidders; and (b) multiplying such amount by the value of the relevant excess Auction Losses.

The Clearing House will repeat the loss attribution process described in this sub-paragraph (ii) until the first to occur of (a) the Auction Losses
being fully met; and (b) the Relevant Unfunded Contributions of all Short Bidders being fully attributed; and

(iii) if and to the extent that there are Auction Losses outstanding after the attribution process referred to in sub-paragraph (ii) above, those Auction Losses will be attributed to the Relevant Unfunded Contribution of the FXCCM who is an Expected Auction Participant in respect of the relevant Auction Portfolio and who submitted the winning bid, together with, where applicable, the Relevant Unfunded Contribution of any FXCCM who is an Expected Auction Participant in respect of the relevant Auction Portfolio and who submitted a bid which was an Equal Bid or a Higher Bid in relation to that winning bid.

The outstanding Auction Losses will be attributed to the Relevant Unfunded Contribution of an individual FXCCM pursuant to this sub-paragraph based upon the proportion that: (a) the value of the Relevant Unfunded Contribution of such FXCCM bears to (b) the total value of the Relevant Unfunded Contributions of (i) the FXCCM who submitted the winning bid; (ii) any FXCCMs who submitted an Equal Bid to such winning bid; and (iii) any FXCCMs who were Higher Bidders, in the relevant Auction.

If, for an Auction Portfolio, there remain Auction Losses outstanding after the attribution process referenced to in sub-paragraph (i) above, and there are AIPs relating to other Auction Portfolios containing ForexClear Contracts denominated in the same Auction Portfolio Currency Pair and belonging to the same Auction Portfolio Category as the relevant Auction Portfolio in which the Relevant Unfunded Contributions have not been fully utilised, the Clearing House shall attribute the remaining Auction Losses amongst such Remaining Unfunded Contributions through the attribution process set out in sub-paragraphs (i) to (iii) above.

(g) If and to the extent that there are Auction Losses outstanding following the attribution process referred to in Rule 2.5(f) above, those Auction Losses will be attributed to the ForexClear Unfunded Contributions of those FXCCMs (each a “Losing Unfunded FXCCM”) who have Resembling Contracts (which, for the purposes of this paragraph (g), shall be determined without regard to limb (i) of the definition thereof) in respect of any of the Losing AP Types and whose ForexClear Unfunded Contributions have not yet been fully utilised. Such remaining Auction Losses will be attributed to any remaining ForexClear Unfunded Contributions of each such FXCCM pursuant to this Rule 2.5(g) based upon the proportion that: (a) the risk of all of the Resembling Contracts of such FXCCM in respect of all such Losing AP Types bears to (b) the aggregate risk of the amounts calculated in (a) for all Losing Unfunded FXCCMs. The Clearing House will repeat the loss attribution process described in this Rule 2.5(g) until the first to occur of (a) the Auction Losses being fully met; and (b) the ForexClear Unfunded Contributions of all Losing Unfunded FXCCMs being fully attributed.
If and to the extent that there are Auction Losses outstanding following the attribution process referred to in Rule 2.5(g) above, those remaining Auction Losses will be allocated to the ForexClear Unfunded Contributions of each FXCCM who is not a Losing Unfunded FXCCM in respect of any of the Losing AP Types based upon the proportion that (a) the value of each such ForexClear Unfunded Contribution bears to (b) the aggregate of the amounts calculated in (a) for each of such FXCCMs.

For the purposes of Rules 2.4 and 2.5 above, all references to the risk associated with (i) the ForexClear Contracts in an Auction Portfolio or (ii) the Resembling Contracts of a Non-Defaulting FXCCM, shall be references to such risk as determined by the Clearing House in its sole discretion for the purpose of calculating initial margin requirements in accordance with the Procedures.

Default Management in respect of FCM ForexClear Client Business and ForexClear Clearing Client Business

The ForexClear DMP in respect of any Contract which is an FCM ForexClear Contract in respect of FCM ForexClear Client Business shall be conducted in accordance with FCM Regulation 13(e) (Transfer). The provisions of Rule 9 of the Default Rules shall also apply.

The ForexClear DMP in respect of any Contract which is a ForexClear Contract in respect of ForexClear Clearing Client Business shall be conducted in accordance with the Client Clearing Annex (which such stages, for the avoidance of doubt, will result in a ForexClear Contract in respect of ForexClear Clearing Client Business being dealt with in accordance with Rule 2 above in the event that it cannot be ported by the Clearing House).

Transfer of Cash Flows / Registration of Positions

Following the disposal of an Auction Portfolio by way of Auction (and notwithstanding that other Auction Portfolios of the Defaulting FXCCM may not yet have been auctioned) the Clearing House, will, with the co-operation of the FXCCMs, transfer to the FXCCM whose bid won that Auction Portfolio the rights and obligations, from the Defaulting FXCCM, arising out of the positions which that FXCCM has successfully bid for under the ForexClear Default Management Process. Such transfer may take place by way of registration of new positions with the Clearing House in the name of the relevant FXCCM, or novation of rights and obligations to the relevant FXCCM. All such registrations shall be made in a way that recognises the amounts of Collateral transferred to or from the Clearing House in respect of variation margin in relation to the ForexClear Contracts of the Defaulting FXCCM representing such new positions.

In order to effect the transfer of positions, the Clearing House shall prescribe such procedures and timetable as it considers reasonably appropriate in the circumstances. FXCCMs will be required to exercise best endeavours to comply with such requirements as may be established by the Clearing House, after consultation with the ForexClear DMG, to effect the transfer of positions, including but not limited to the payment of any sums due as a result of the winning bid and the provision of Collateral in an amount required by the Clearing House in respect of their initial margin and
SCHEDULE 5
FOREXCLEAR DEFAULT FUND SUPPLEMENT

F1. In accordance with and subject to Rule F2, the amount of each ForexClear Clearing Member’s ForexClear Contributions shall be determined by the Clearing House as soon as practicable after each ForexClear Determination Date as appropriate on the basis of information available as at close of business on such ForexClear Determination Date and notified to such FXCCM as soon as practicable after such determination in accordance with the Procedures.

F2. Each FXCCM’s ForexClear Contribution (other than any ForexClear Unfunded Contribution or any Supplementary Contribution) shall be determined by the Clearing House in accordance with the following provisions:

(a) determinations will be made by the Clearing House on the date that an FXCCM joins the ForexClear Service, and at the close of business on the first business day of each subsequent month, and otherwise in accordance with paragraph (i) below (each a “ForexClear Determination Date”) provided, however, that following a Default, any such determinations and any such ForexClear Determination Date which might otherwise have occurred under this Rule F2 shall be suspended for the duration of the period (the “ForexClear Default Period”) commencing on the date of such Default and terminating on the last to occur of the following dates:

(i) the date which is the close of business on the day falling 30 calendar days after the ForexClear Default Management Process Completion Date in relation to such Default (or, if such day is not a business day, the next succeeding business day); and

(ii) where, prior to the end of the period referred to in (i) above (or such period as has already been extended pursuant to this paragraph (ii)), one or more subsequent Defaults (each a “Relevant Default”) occur, the date which is the close of business on the day falling 30 calendar days after the ForexClear Default Management Process Completion Date in relation to a Relevant Default which falls latest in time (or, if such day is not a business day, the next succeeding business day);

(b) On each business day, the Clearing House will determine a "Combined Loss Value" in respect of each of the 30 preceding business days. The Combined Loss Value in respect of a particular day will be the sum of the largest and the second largest stress-testing loss incurred on that day in relation to ForexClear Business (for a given scenario);

(c) the “ForexClear Fund Amount” comprises the "ForexClear NDF Sub-Fund Amount" and the "ForexClear Non-NDF Sub-Fund Amount". The ForexClear NDF Sub-Fund Amount and ForexClear Non-NDF Sub-Fund Amount shall be calculated in United States dollars (“USD”) and, for a given ForexClear Determination Date, shall be (i) in relation to the ForexClear NDF Sub-Fund Amount, the largest of the 30 Combined Loss Values in respect of ForexClear NDF Contracts, and (ii) in relation to the ForexClear Non-NDF Sub-Fund Amount, the largest of the 30 Combined Loss Values in respect of
ForexClear Contracts other than ForexClear NDF Contracts, each as determined under paragraph (b) above plus 10 per cent. Each of the ForexClear NDF Sub-Fund Amount and ForexClear Non-NDF Sub-Fund Amount shall not be less than USD 70 million (the "ForexClear Fund Floor");

(d) the "ForexClear Margin Weight" means the "ForexClear NDF Margin Weight" or the "ForexClear Non-NDF Margin Weight", as applicable. The FXCCM's ForexClear NDF Margin Weight shall be calculated by dividing the average daily initial margin obligation (as calculated under the Procedures or other arrangements applicable) which has applied to the FXCCM during the reference period in paragraph (b) above, in respect of all ForexClear NDF Contracts to which the FXCCM is a party, by the total of such average daily obligations applied to all Non-Defaulting FXCCMs. The FXCCM's ForexClear Non-NDF Margin Weight shall be calculated by dividing the average daily initial margin obligation (as calculated under the Procedures or other arrangements applicable) which has applied to the FXCCM during the reference period in paragraph (b) above, in respect of all ForexClear Contracts other than ForexClear NDF Contracts to which the FXCCM is a party, by the total of such average daily obligations applied to all Non-Defaulting FXCCMs;

(e) each FXCCM’s ForexClear Contribution comprises the "ForexClear NDF Contribution" and the "ForexClear Non-NDF Contribution". The FXCCM's ForexClear NDF Contribution shall be calculated by multiplying the ForexClear NDF Sub-Fund Amount by the FXCCM's ForexClear NDF Margin Weight and shall be no less than the Minimum ForexClear Contribution. The FXCCM's ForexClear Non-NDF Contribution shall be calculated by multiplying the ForexClear Non-NDF Sub-Fund Amount by the FXCCM's ForexClear Non-NDF Margin Weight, and shall be no less than the Minimum ForexClear Contribution; and

(f) subject to a suspension pursuant to paragraph (a) above, the Clearing House may recalculate the ForexClear Fund Amount on any business day if the Combined Loss Value differs by more than 25 per cent. from the figure on which the previous ForexClear Contribution determination was based.

F3. For the purposes of the calculations under Rule F2:

(a) references to "ForexClear Clearing Members” or "FXCCMs" do not include references to Defaulting FXCCMs (apart from any Defaulting FXCCM in respect of which the Clearing House permits the application of Rule F2) or persons which were formerly FXCCMs but are not FXCCMs at the ForexClear Determination Date at which the relevant determination is made;

(b) contributions shall be rounded upwards, if not already such a multiple, to the next integral multiple of one thousand US dollars;

(c) no account shall be taken, in calculating initial margin or ForexClear Margin Weight under Rule F2 of any offsets applied in calculating initial margin obligations imposed on an FXCCM in respect of ForexClear Contracts, which

F9. ForexClear Loss Distribution Process

Where, after a Default, the Clearing House determines that the ForexClear Excess Loss resulting from the Default will exceed the amounts to be applied to it under Rules 15(a) to 15(g) of the Default Rules, the Clearing House may implement the process (the "ForexClear Loss Distribution Process") described in this Rule F9.

(a) For the purposes of this Rule F9 and Rule F11, the following definitions will apply:

"Actual Base Currency Gains, Losses and Realised Cash Flows by Cash Payment" means, in respect of each Cash Payment and any business day, the sum of the Pre Haircut Base Currency Gains, Losses and Realised Cash Flows by Cash Payment and any Cash Gainer Base Currency Adjustment to Cash Payment or Cash Loser Base Currency Adjustment to Cash Payment.

"Auction Portfolio" has the meaning assigned to it in the ForexClear DMP Annex.

"Available Resources" means, in respect of any Loss Distribution Period, the amounts available to the Clearing House for application in meeting any loss suffered or incurred by the Clearing House in accordance with Rules 15(a) to 15(g) of the Default Rules as at the relevant Last Call Prior to Default.

"Cash Gain" means, in respect of any Cash Gainer and any Loss Distribution Day, the amount of positive Cumulative Pre Haircut Base Currency Gains Losses and Realised Cash Flows in respect of such Cash Gainer in respect of such Loss Distribution Day.

"Cash Gainer" means, in respect of any Loss Distribution Day, each Margin Account in respect of which the value of the Cumulative Pre Haircut Base Currency Gains Losses and Realised Cash Flows on such Loss Distribution Day is greater than zero.

"Cash Gainer Payment Currency Adjustment to Cash Payment" has the meaning set out in paragraph (b)(i) of this Rule F9.

"Cash Loser" means, in respect of any Loss Distribution Day, each Margin Account in respect of which the value of the Cumulative Pre Haircut Base Currency Gains Losses and Realised Cash Flows on such Loss Distribution Day is equal to or less than zero.

"Cash Loser Base Currency Adjustment to Cash Payment" has the meaning set out in paragraph (b)(ii) of this Rule F9.

"Cash Loser Payment Currency Adjustment to Cash Payment" has the meaning set out in paragraph (b)(ii) of this Rule F9.

"Cash Payment" means, in respect of any business day, the aggregated amount which would be paid by the Clearing House to a Non-Defaulting FXCCM (expressed as a positive number) or by such FXCCM to the Clearing House.
where

Cash Loser Base Currency Adjustment to Cash Payment(t) = PHG(t) - (CHG(t) - CAG(t - 1))

"PHG" means the Pre Haircut Base Currency Gains, Losses and Realised Cash Flows by Cash Payment;

"CHG" means the Cumulative Pre Haircut Base Currency Gains, Losses and Realised Cash Flows by Cash Payment; and

"CAG" means the Cumulative Actual Base Currency Gains, Losses and Realised Cash Flows by Cash Payment and where "CAG" as at the Last Call Prior to Default shall be zero.

(iii) Application of Payment Currency Adjustment to Cash Payment

On each Loss Distribution Day, the Clearing House shall apply the payment or receipt of any Payment Currency Adjustment to Cash Payment as an offset against any payments denominated in the same Cash Payment Currency as the relevant Payment Currency Adjustment to Cash Payment due from or receivable by the relevant FXCCM.

(c) Application of Cash Gainer Payment Currency Adjustment to Cash Payment

The Clearing House shall apply all payments it receives in respect of Cash Gainer Payment Currency Adjustment to Cash Payments solely for the purposes of meeting any loss incurred by the Clearing House following, and in relation to, each Default, as contemplated in accordance with Rules 15(a) to 15(g) of the Default Rules.

(d) Adjustment to Loss Distribution Trigger Amount and Loss Distribution Cut-Off Date

(i) On each business day following the commencement of the ForexClear Loss Distribution Process (except where the Clearing House is unable to make a determination due to a systems failure or similar event beyond the Clearing House’s control), the Clearing House shall determine if a Loss Distribution Trigger Event has occurred or is likely to occur and, if so, shall notify all FXCCMs accordingly.

If, at any time during a Loss Distribution Period, the Clearing House determines that:

(A) the ForexClear Loss Distribution Process is likely to extend beyond the Loss Distribution Cut-Off Date, the Clearing House may (or, where such determination is made on the Loss Distribution Cut-Off Date, the Clearing House shall on the same business day) propose to the Non-Defaulting FXCCMs an extension of up to 10 business days, from the date of such proposal, to the Loss Distribution Cut-Off Date; and/or
(B) a Loss Distribution Trigger Event is likely to occur, the Clearing House may (or, where a Loss Distribution Trigger Event has occurred, the Clearing House shall on the same business day) propose to the Non-Defaulting FXCCMs an increase in each Non-Defaulting FXCCM’s Loss Distribution Trigger Amount of up to twice the ForexClear Contribution of such Non-Defaulting FXCCM as at the last ForexClear Determination Date prior to the date when the Default occurred or $200 million, whichever is the greater, any proposal under (A) and/or (B) above, a “Revised Loss Distribution Proposal”.

If (x) more than 50% of the Non-Defaulting FXCCMs participate in a vote concerning the Revised Loss Distribution Proposal and (y) the Requisite Non-Defaulting FXCCMs vote in favour of the Revised Loss Distribution Proposal, the Loss Distribution Cut-Off Date shall be extended and/or the Loss Distribution Trigger Amount shall be increased (as applicable) for each Non-Defaulting FXCCM and shall be applicable for the remainder of the relevant Loss Distribution Period or until further adjusted pursuant to this paragraph (d)(i). If more than 50% of Non-Defaulting FXCCMs do not participate in such vote and/or if the Requisite Non-Defaulting FXCCMs do not vote in favour of the Revised Loss Distribution Proposal, the Loss Distribution Period shall not be extended. For the avoidance of doubt, the Loss Distribution Cut-Off Date and Loss Distribution Trigger Amount may be adjusted one or more times in respect of a single Default pursuant to this paragraph (d).

(ii) The Clearing House shall publish the terms of the voting process for the purposes of this paragraph (d) on or before the business day on which such vote is to be held.

(e) **No Rebate**

The payment to the Clearing House by any FXCCM of any Cash Gainer Payment Currency Adjustment to Cash Payment shall be final and shall not give rise to any obligation of the Clearing House to repay any such amount or to pay any interest thereon.

F10. Where, after the Default of one or more FXCCMs, the Clearing House determines in its sole discretion that, notwithstanding the availability of any resources remaining under Rules 15(a) to 15(g) of the Default Rules and the availability of the ForexClear Loss Distribution Process in accordance with the terms of Rule F9, it is clear that the Clearing House does not have sufficient resources to meet its obligations and liabilities arising in respect of those ForexClear Contracts to which it is party with Non-Defaulting FXCCMs, the Clearing House will by notice in writing (a "ForexClear Voluntary Payment Notice"): (i) inform all Non-Defaulting FXCCMs that it has insufficient resources and that it is likely to invoke Rule F11; and (ii) invite each Non-Defaulting FXCCM to make a payment of funds (a "ForexClear Voluntary Payment"), in accordance with Rule 15(g) of the Default Rules, to make up for the relevant shortfall.
ForexClear Voluntary Payments will be made on the following terms:

(a) no FXCCM shall be obliged to make a ForexClear Voluntary Payment;

(b) any ForexClear Voluntary Payment will be made by an FXCCM by the close of business on the business day after receipt of the relevant ForexClear Voluntary Payment Notice;

(c) no ForexClear Voluntary Payment may be withdrawn once made; and

(d) the Clearing House shall have full discretion whether or not to accept a particular ForexClear Voluntary Payment.

Any failure by the Clearing House to deliver a ForexClear Voluntary Payment Notice pursuant to this Rule F10 will not invalidate any action taken by the Clearing House pursuant to Rule F11 nor give rise to any liability whatsoever on the part of the Clearing House.

Any ForexClear Voluntary Payments remaining unused at the time of the expiry of the relevant ForexClear Default Period will be accounted for rateably by the Clearing House as if they were amounts paid in respect of the ForexClear Contributions by those FXCCMs from whom ForexClear Voluntary Payments were accepted.

F11. Where, following the process for inviting ForexClear Voluntary Payments in accordance with Rule F10, the Clearing House makes a determination (an "Insufficient Resources Determination") that it is clear that the Clearing House does not have sufficient resources to meet its obligations and liabilities arising in respect of those ForexClear Contracts to which it is party with Non-Defaulting FXCCMs, the following provisions shall have effect:

(a) All outstanding ForexClear Contracts shall be closed out as of the clearing day following the date the Insufficient Resources Determination was made and any further obligations to make any payments under or in respect of such ForexClear Contracts shall cease. The closing prices used shall be mid prices calculated by the Clearing House in accordance with the methodology used by it to carry out end of day margin runs in respect of the outstanding ForexClear Contracts. Where such data is not available to the Clearing House, the closing price shall be the last price used by the Clearing House to calculate the variation margin or Variation Settlement requirement for the position to be closed out.

(b) On the basis of the close out values established for each outstanding ForexClear Contract, an account shall be taken (as at the time of close out) of what is due in respect of each FXCCM, from that FXCCM to the Clearing House and from the Clearing House to that FXCCM, as well as all other amounts owing under or in respect of ForexClear Contracts and any other amounts that may be due in respect of the ForexClear Service (including for these purposes, a proportionate share of any amounts owed generally to or from the Clearing House), and the sums due from the FXCCM shall be set off against the sums due from the Clearing House and only the balance of the account shall be payable. For the avoidance of doubt, amounts in respect of
ForexClear Contracts shall include, but shall not be limited to, returns of cash Collateral provided in respect of variation margin associated therewith and the repayment of any Net Cash Gainer Payment Currency Adjustment to Cash Payments made in the ForexClear Default Period to which the Insufficient Resources Determination relates (and in respect of which paragraph 5(e) of Rule F9 shall be specifically disapplied), but shall exclude the repayment of any cash Collateral provided to the Clearing House in respect of initial margin or any outstanding ForexClear Contributions.

To the extent that the aggregate of all of the amounts owed to the Clearing House by FXCCMs plus all of those other resources applicable to the ForexClear Business under Rules 15(a) to 15(g) of the Default Rules that have not been applied towards a ForexClear Excess Loss is less than the aggregate of the amounts owed to FXCCMs by the Clearing House, each amount owed to FXCCMs by the Clearing House shall be reduced pro rata the shortfall.

(c) The Clearing House shall determine any amounts due to each FXCCM in respect of the repayment of cash Collateral provided in respect of initial margin obligations and outstanding ForexClear Contributions to be repaid. The claim of each such FXCCM in respect to the foregoing shall be reduced in proportion to an amount by which (i) the value of the assets available to the Clearing House to meet the return obligations referred to in (b) above bears to (ii) the value of what would be due from the Clearing House to each Clearing Member in aggregate in respect of the return of cash Collateral received from each such Clearing Member in respect of its initial margin obligations and outstanding Contributions.

(d) For each FXCCM, the amount due to it or due from it as determined pursuant to (b) above shall be aggregated with its claim determined pursuant to (c) above and only the net sum shall be payable. Where the result of such calculations is that an FXCCM owes an amount to the Clearing House, that FXCCM shall pay that amount to the Clearing House immediately. Where the result of such calculations is that an FXCCM is owed an amount by the Clearing House, the Clearing House shall pay that amount to the FXCCM immediately, subject to (f) below.

(e) The payment of such amount to an FXCCM, pursuant to (d) above subject to any re-calculations performed pursuant to (f), shall constitute the full and final payment in respect of the ForexClear Service and such FXCCM shall not be permitted to make any further claims on the Clearing House in respect of amounts relating to the ForexClear Service, nor shall it be permitted to notify the Clearing House of a Termination Date pursuant to Regulation 45 (Netting) for a failure to pay any amounts in relation to the ForexClear Service.

(f) The Clearing House may make the payments due under(c) above in one or more instalments to the FXCCMs in proportion to the value of their claims on the Clearing House under (b) above if some but not all of the amounts due under (c) above or Rules 15(a) to 15(g) of the Default Rules have not yet been received. The Clearing House shall take reasonable steps to recover such amounts and may deduct therefrom reasonable administration costs for such recovery. CLEARING HOUSE SETTLEMENT FINALITY REGULATIONS

Introduction

The SF Directive seeks to reduce the risks associated with participation in payment and securities settlement systems by minimizing the disruption caused by insolvency proceedings brought against a participant in such a system. The protection provided by the SF Regulations is given to any system which has been designated as a "designated system" by the Financial Conduct Authority or the Bank of England as the "designating authority".

In order to obtain such designation the Clearing House is required to satisfy the relevant designating authority that the requirements of the Schedule to the SF Regulations, and certain other matters, are satisfied in respect of the Clearing House.

These Settlement Finality Regulations (which form part of these Regulations) have been promulgated by the Clearing House in order to meet such of those requirements as are not addressed elsewhere in these Regulations.

An application for the status of special Clearing Member ("Special Clearing Member") must be initiated by a written request to the Clearing House. The nature of the application procedure and the documents and information required from the applicant will be determined by the Clearing House by reference to the nature of the application and will be notified by the Clearing House to the applicant upon receipt of such written request.

Applicants approved by the Clearing House for Clearing Member or Dealer status, ("Approved Applicants") must, within six months of notification of their approval, fulfill all conditions attached to their approval. If an Approved Applicant does not fulfill all such conditions within these six months, the Clearing House may, at its sole discretion, consider the grant of approval to have lapsed and may notify the prospective Clearing Member or Dealer accordingly that they will be required to provide further information, following which the application will be submitted for re-approval.

Clearing Members have the right to apply for approval to clear one or more of the markets cleared by the Clearing House, subject to meeting the requirements of the Clearing House in respect of each such market. Please note that Clearing Member status does not provide membership of the company LCH.Clearnet Limited or any right to a shareholding therein, nor does it provide the right to any shareholding in LCH.Clearnet Group Limited or any entitlement or right to participate in any way in LCH.Clearnet SA or the clearing services it offers. LCH.Clearnet SA has its own arrangements and admission criteria for Clearing Member status – see the LCH.Clearnet SA Sections of the LCH.Clearnet website for further details.

Applicants approved as Dealers for ForexClear, RepoClear and/or SwapClear will be admitted to the Register of ForexClear Dealers, Register of RepoClear Dealers, and/or the Register of SwapClear Dealers ("the OTC Registers"), as appropriate. Successful admission to one OTC Register does not confer automatic admission to any other OTC Register.

1.1 **Users of the ForexClear Service**

The ForexClear Service is an interface that processes and stores all ForexClear Transactions. FXCCMs are clearing members who have applied and have been accepted by the Clearing House to clear in the ForexClear Service. FXDs are not FXCCMs, but have met the criteria for registration as a FXD and have entered into a ForexClear Dealer Clearing Agreement with an FXCCM and the Clearing House. FXCCMs, FXDs and ForexClear Clearing Clients are collectively known as ForexClear Participants ("FXPs"). For membership procedures, please see Section 1 (Clearing Member and Dealer Status) of the Procedures.

For identification purposes each FXCCM is assigned a unique three-character mnemonic.

1.1.1 **Termination of FXCCM Status**: Clearing Members should contact the Clearing House Onboarding Department (+44 (0)207 426 7891/7627/7063; onboarding@lch.com) for details of how to resign from the ForexClear Service.

1.1.2 **Termination of FXD Status**: The ForexClear Dealer Agreement and Regulation 8 (Dealer Status) set out how the FXD relationship may be terminated.
1.2 Service Scope

1.2.1 Eligibility: ForexClear Transactions may be submitted for clearing through the ForexClear Service. To be eligible to be registered as a ForexClear Contract, a trade must meet the applicable ForexClear Eligibility Criteria (as set out in the Product Specific Contract Terms and Eligibility Criteria Manual as published on the Clearing House's website from time to time).

1.2.2 Service Operating Hours

(a) Opening Days: The ForexClear Service will be open each day, except weekends, Christmas Day and New Year's Day.

(b) Opening Hours: The ForexClear Service will be open between 20:00 local London time Sunday night and 01:00 local London time Saturday morning ("Opening Hours"). The ForexClear Service will not accept ForexClear Transactions outside of these hours.

1.2.3 Accounts

(a) Proprietary Accounts and Client Accounts

(i) Proprietary Accounts

A FXCCM may request that the Clearing House opens one or more Proprietary Accounts in respect of its House Clearing Business.

Each Proprietary Account will map to two sub-accounts

(A) a position account; and

(B) a collateral account

(ii) Client Accounts

(A) Types of Client Account

Subject to Regulation 11 (Client Clearing Business) and Section 1.12 (ForexClear Client Clearing) below, a FXCCM may request that the Clearing House opens, in respect of its Client Clearing Business, one or more:

(1) Individual Segregated Accounts;

(2) Indirect Gross Accounts;

(3) Non-Identified Client Omnibus Net Segregated Accounts;
In the case of Indirect Gross Accounts, the relevant segregated sub-accounts of the client "C" position-keeping account will be further segregated into position-keeping sub-accounts for each Indirect Gross Sub-Account (relating to each Indirect Clearing Client).

(c) The ForexClear Service also provides for a separate account for each FXCCM's ForexClear Default Fund Contribution with the account code "F".

(d) Only the "H" and "F" accounts are obligatory. The "C" account will be used in respect of any FXCCM which engages in ForexClear Client Clearing Business.

1.2.4 Branches

(a) Submission of a static data form to LCH's Onboarding department by an FXCCM will also allow an FXCCM to be provided with one or more sub-accounts for any branch of that FXCCM (for position-keeping purposes) within that FXCCM's "H" position-keeping account.

(b) Because the single account reflects the consolidated balances and liabilities of the FXCCM, the balances and liabilities associated with ForexClear Transactions submitted by FXDs and/or per branch will be provided as an estimate (if applicable).

(c) Where a ForexClear Transaction is presented for clearing by a branch of an FXCCM, it is deemed to have been presented by, and in the name of, the relevant FXCCM.

1.2.5 Novation and Registration

(a) A ForexClear Transaction must satisfy the applicable ForexClear Eligibility Criteria (set out in the Product Specific Contract Terms and Eligibility Criteria Manual as published on the Clearing House's website from time to time) at the Registration Time. Upon a ForexClear Transaction being submitted to the Clearing House for registration, the Clearing House will determine whether to accept or reject the ForexClear Transaction within the required timeframe under all Applicable Law. Where the Clearing House determines to accept the ForexClear Transaction, registration shall occur immediately and the ForexClear Transaction shall be automatically replaced with two separate ForexClear Contracts.

(b) If any FXCCM has not transferred sufficient Collateral in respect of its Liabilities or estimated Liabilities to the Clearing House (taking into account any MER Buffer and MCE provided by the Clearing House, if any) at the time of the relevant Incremental Risk Check (as defined herein), then any submitted and unregistered ForexClear Transaction that the FXCCM has been nominated to clear and that is subject to such Incremental Risk Check will be rejected.
Once the ForexClear Transaction has passed the Validation Checks (as defined in paragraph (a) of Section 1.3.3 (Trade Validation and Registration)) and the Clearing House has determined to accept the ForexClear Transaction for registration, the Clearing House will send a message confirming the registration of the ForexClear Transaction as two ForexClear Contracts and including a datestamp of the relevant registration time to the entities specified in paragraph (a)(iii) of Section 1.3.3 (Trade Validation and Registration). For the purpose of the ForexClear Regulations, the time of dispatch of such message shall be the "Registration Time" of such ForexClear Contracts.

The definitive report of a registered ForexClear Contract will be shown on the "All Open Contracts" report issued by ForexClear Reporting.

If an FXCCM is declared a Defaulter, the Clearing House will not register any ForexClear Contract in the name of such Defaulter (except pursuant to the Default Rules). ForexClear Transactions in respect of non-defaulting FXCCMs will continue to be registered in accordance with, and subject to, the Rulebook.

1.3 Trade Management

1.3.1 Trade Capture: After the execution of a ForexClear Transaction (a "trade"), each FXP who is a party to the trade will submit individual instructions to the ForexClear Approved Trade Source System for matching and clearing of the trade. FXPs are not required to submit a confirmation of any trade presented to the Clearing House for registration. Presentation of the matched trade terms through the ForexClear Approved Trade Source System will ensure that the agreed terms of the trade are recorded.

Once the ForexClear Approved Trade Source System receives the trade instructions from the FXPs who are parties to the trade, the ForexClear Approved Trade Source System matches both instructions. The ForexClear Approved Trade Source System validates the trade using the applicable ForexClear Eligibility Criteria and will, if appropriate, present a single message containing the names of the FXPs who are parties to the trade and the terms of the trade to the Clearing House for registration and clearing, such matched trade being known as a "ForexClear Transaction".1.3.3

The Clearing House will determine whether to accept or reject the ForexClear Transaction within the required timeframe under all Applicable Law. In respect of a ForexClear Transaction which is:

(a) a Trading Venue Transaction, the Clearing House will notify the ForexClear Clearing Members, Trading Venue and (if the originating ForexClear Approved Trade Source System is different to the Trading Venue) the originating ForexClear Approved Trade Source System of registration or rejection of the ForexClear Transaction (as applicable); and
the ForexClear Contract is subsequently cancelled in accordance with Regulation 92 (Cancellation of ForexClear Contracts).

1.3.3 Trade Validation and Registration

(a) Process Flow Description

(i) The Clearing House performs a validation check on each trade submitted by FXPs to ensure that each such trade meets the applicable ForexClear Eligibility Criteria and the Counterparty Technical Validation Check (as defined below), Incremental Risk Checks (as defined below) required for ForexClear Transactions and, with respect to each ForexClear Option Transaction, ForexClear Spot Transaction, ForexClear Swap Transaction and ForexClear Deliverable Forward Transaction, a Settlement Exposure Limit Check (as described herein) (together, the "Validation Checks").

(ii) The Clearing House will create two trade records for a ForexClear Transaction which passes the Validation Checks and is accepted for clearing by the Clearing House: one for the ForexClear Contract between the Clearing House and the relevant FXCCM and the other for the ForexClear Contract between the Clearing House and the same or another relevant FXCCM.

(iii) In respect of a ForexClear Transaction which is:

(A) a Trading Venue Transaction, the Clearing House will notify the ForexClear Clearing Members, Trading Venue and (if the originating ForexClear Approved Trade Source System is different to the Trading Venue) the originating ForexClear Approved Trade Source System of registration or rejection of the ForexClear Transaction (as applicable); and

(B) not a Trading Venue Transaction, the Clearing House will notify the ForexClear Clearing Members (via the originating ForexClear Approved Trade Source System or ClearLink API) of registration or rejection of the ForexClear Transaction (as applicable),

in each case within the required timeframe under all Applicable Law.

(iv) As provided in paragraph 1.2.5(c) (Novation and Registration), in respect of messages confirming registration, the time of dispatch of such message shall be the Registration Time of that ForexClear Contract.
(v) The internal sub-account (i.e. FXCCM, branch, or FXD) into which each trade record is booked is derived from the BIC code within the message from the ForexClear Approved Trade Source System. The BIC links to the FXCCM reference data.

(vi) Both new trade records arising out of the ForexClear Transaction have the same unique ForexClear ID (the "ForexClear ID"). Any further events or actions are applied on the basis of this ForexClear ID, to ensure consistency.

(b) "Counterparty Technical Validation Check" The counterparties to each trade (a) are both parties submitted trade particulars FXPs, (b) are each a Non-Defaulting FXCCM and (c) are approved by the Clearing House to clear the relevant trade type.

(i) Valuation Date and Settlement Date: in respect of a ForexClear NDF Transaction, (A) the Valuation Date and Settlement Date for the ForexClear Transaction must fall on a valid Business Day for the Currency Pair to which the ForexClear Transaction relates; and (B) the Settlement Date must fall on a Business Day after the Valuation Date. FXCCMs should refer to the Relevant EMTA Template for further details of the relevant Business Days for determining the Valuation Date and the Settlement Date.  

Risk and Settlement Limit Checks

(ii) The Clearing House will apply an "Incremental Risk Check" to each individual ForexClear Transaction which is not a Sub-Block Trading Venue Transaction. The Incremental Risk Check uses a suitable approximation methodology to estimate an FXCCM's Liabilities (including the new ForexClear Transaction) against available Collateral (taking into account any MER Buffer and MCE made available by the Clearing House, if any). However, any ForexClear Transaction submitted by that FXCCM that is risk reducing (i.e. results in a reduction of that FXCCM's Liabilities) will always pass the Incremental Risk Check, even if the FXCCM has not transferred sufficient Collateral in respect of its Liabilities to the Clearing House. The Clearing House will apply an additional "Settlement Exposure Limit Check" on a per currency basis to each individual ForexClear Spot Transaction, ForexClear Deliverable Forward Transaction, ForexClear Option Transaction and ForexClear Swap Transaction, as the case may be. The Settlement Exposure Limit Check uses an approximation methodology to assess an FXCCM's Settlement Exposure Amount for each Settlement Exposure Date against a pre-determined Settlement Exposure Limit.

1 As amended from time to time as per relevant EMTA Template.
(iii) In the case of a ForexClear Settlement Event, the Clearing House will apply additional checks to each ForexClear Spot Transaction by reference to its impact on the Settlement Position Amount of the Impacted ForexClear Option Clearing Member.

(iv) Both FXCCMs to the ForexClear Transaction must pass the Incremental Risk Check and Settlement Exposure Limit Check in order for the Clearing House to register two ForexClear Contracts in those FXCCM's names.

(v) If either (or both) FXCCM(s) to a ForexClear Transaction fail(s) the Incremental Risk Check(s) and/or Settlement Exposure Limit Check(s), then the ForexClear Transaction will be rejected immediately and a notification sent in accordance with Section 1.3.3(a)(iii).

(c) Necessary Consent

(i) In the case of an FXCCM which has been nominated to register a ForexClear Transaction on behalf of a third party Executing Party other than an FXD, the Clearing House will (only where such ForexClear Transaction is not a Trading Venue Transaction) provide notification to such FXCCM of the relevant ForexClear Transaction and that it has been so nominated, via member reports, the ClearLink API or otherwise ("Notification"). Where an FXCCM is nominated to clear both ForexClear Contracts arising from the registration of a ForexClear Transaction in the capacities described in this paragraph, such FXCCM will receive two separate Notifications from the Clearing House in relation to such ForexClear Transaction. All Notifications shall be provided within the required timeframe under all Applicable Law. In all other cases, no Notification will be provided to any FXCCM.

(ii) In respect of a ForexClear Transaction that is not a Trading Venue Transaction, following receipt of a Notification, an FXCCM may choose to grant or refuse consent to register the ForexClear Transaction. It is a condition for registration of such a ForexClear Transaction that an FXCCM grants a separate consent (each, a "Necessary Consent") in respect of each Notification received by it in relation to the registration of such ForexClear Transaction. The Clearing House has an automated system which it operates on each business day for the purposes of rejecting ForexClear Transactions which have been presented for clearing but in respect of which any Necessary Consent has not been notified to the Clearing House prior to the LCH Cut-off Time. The "LCH Cut-off Time" in respect of a ForexClear Transaction will be the expiry of the timeframe determined by the Clearing House. If an FXCCM has not notified the Clearing House of a Necessary Consent by the
If a trade is presented to the Clearing House for registration and rejected, it may be re-presented for registration in the form of a new trade but with the same economic terms in accordance with, and subject to, the Rulebook and all Applicable Law, and such trade will, for the purposes of the Rulebook and upon such re-presentation, constitute a new trade.

1.3.5 Package Transactions

Subject to Clearing House availability, a ForexClear Clearing Member may, via an Approved Trade Source System, present to the Clearing House, in a single submission, a group of two or more ForexClear Transactions for simultaneous registration (such group of ForexClear Transactions being a “Package Transaction”). A Package Transaction must be identified to the Clearing House at the time of its presentation in the format prescribed by the Clearing House. Where the Package Transaction is not presented in the prescribed format, each constituent ForexClear Transaction within the Package Transaction will be rejected.

Where the Clearing House receives a Package Transaction for registration it shall treat each ForexClear Transaction that forms part of the Package Transaction as a new ForexClear Transaction in accordance with the Rulebook and, where each constituent ForexClear Transaction within the Package Transaction meets the registration requirements as set out in the Rulebook (including the provision of Collateral, where applicable), the Clearing House will simultaneously register all of the ForexClear Transactions within that Package Transaction. Where one or more of the constituent ForexClear Transactions does not meet the Clearing House’s registration requirements then all of the constituent ForexClear Transactions of the Package Transaction shall be rejected.

Where a constituent ForexClear Transaction of a Package Transaction is a US Trading Venue Transaction, it is a condition of registration that all of the constituent ForexClear Transactions be US Trading Venue Transactions; where such condition is not met, all constituent ForexClear Transactions of the Package Transaction will be rejected. In respect of a Package Transaction comprising ForexClear Transactions that are not executed on any US Trading Venue, the Clearing House will send a Notification to the relevant ForexClear Clearing Member(s) for the acceptance of each such constituent ForexClear Transaction.

In respect of a Package Transaction submitted in a ForexClear Clearing Member’s name, such ForexClear Clearing member’s Margin requirement will be assessed based on the net Margin call for all of the constituent ForexClear Transactions of such Package Transaction.

The Clearing House may limit the number of ForexClear Transactions that may be included in a Package Transaction by way of member circular.

1.3.6 Manual Trade Rejection, Novation and Cancellation (Exceptional Event)
From time to time, as an exceptional event, it may be necessary for the Clearing House to: (i) reject a trade presented for registration; (ii) register a ForexClear Transaction; or (iii) accept or reject a cancellation request for a ForexClear Contract or a ForexClear Transaction, in each case, manually prior to a Margin Run (e.g. in the case of a Default, when a ForexClear Transaction needs to be registered immediately to expedite the hedging and auction process or to reject a ForexClear Transaction received from an FXCCM which is a Defaulter).

The Clearing House acknowledges the action:

(i) in respect of trades being manually rejected or manually registered, by notifying the entities specified in Section 1.3.3(a)(iii) of such rejection or registration (as applicable); and

in respect of a ForexClear Contract or a ForexClear Transaction being manually cancelled, by sending a message to the ForexClear Approved Trade Source System that it is “CANCELLED”.

1.3.7 Trade Cancellation

(a) The Clearing House accepts cancellation messages from FXPs against both non-novated trades (ForexClear Transactions) and novated trades (ForexClear Contracts).

(b) Cancellation messages may be submitted via the ForexClear Approved Trade Source System (i), with respect to any ForexClear NDF Contract, until such ForexClear Contract is "fixed" – i.e. when its Settlement Rate has been determined on the relevant Valuation Date, (ii) with respect to any ForexClear Option Contract, until the end of day on the Business Day preceding the relevant Expiration Date and (iii) with respect to any ForexClear Spot Contract, ForexClear Swap Contract or ForexClear Deliverable Forward Contract, until the end of day two Business Days immediately preceding the Settlement Date.

(c) A successful cancellation message results in a "CANCELLED" status message if the ForexClear Transaction or the ForexClear Contract (as the case may be) is cancelled during the Opening Hours. The status messages are sent from the Clearing House to the FXCCM via the ForexClear Approved Trade Source System.

(d) There is no ForexClear Contract or ForexClear Transaction amendment functionality.

(e) Process Flow Description

(i) The Clearing House accepts trade cancellation instructions from the ForexClear Approved Trade Source System for ForexClear Transactions or ForexClear Contracts (as the case may be) that have previously been submitted to the ForexClear...
Service. Cancellation instructions must include the ForexClear ID.

(ii) The Clearing House checks that the cancellation instruction contains a valid ForexClear ID which relates to: (a) a ForexClear Transaction or ForexClear Contract (as the case may be) that has not been previously cancelled; and (b) in the case of a ForexClear NDF Contract only, a ForexClear Contract with respect to which the relevant Valuation Date has not yet occurred.

(iii) Where a trade has already been rejected (e.g. as a result of having failed a Counterparty Technical Validation Check), the ForexClear Service sends a "CANCEL REJECTED" message to the ForexClear Approved Trade Source System for the relevant FXPs.

(iv) All trade cancellation instructions must pass the Incremental Risk Check and Settlement Exposure Limit Check, where applicable. If any FXCCM has not transferred sufficient Collateral in respect of its Liabilities or estimated Liabilities to the Clearing House (taking into account any MER Buffer and MCE provided by the Clearing House, if any) at the time of the relevant Incremental Risk Check or Settlement Exposure Limit Check, as applicable, then any ForexClear trade cancellation instruction to which it is a party will be rejected immediately. However, any ForexClear trade cancellation instruction that is risk reducing (i.e. results in a reduction of that FXCCM's Liabilities) will always pass the Incremental Risk Check, even if the FXCCM has not transferred sufficient Collateral in respect of its Liabilities to the Clearing House.

1.3.8 Valuation Date Event Management: The Clearing House is the Calculation Agent and will store and apply the Settlement Rate Option and the Valuation Date for each ForexClear NDF Contract.

On the Valuation Date with respect to each ForexClear NDF Contract, the Settlement Rate will be retrieved as set forth in paragraph (a) below. The Market Data provider for Settlement Rates is Reuters.

ForexClear applies the relevant Settlement Rate to ForexClear NDF Contracts using the following criteria:

(a) Settlement Rate Option source; and

(b) Valuation Date.

The Clearing House applies the Settlement Rate to all relevant ForexClear NDF Contracts at a predefined time following its publication.
The Clearing House calculates the Settlement Currency Amount in the Settlement Currency per ForexClear NDF Contract. FXCCMs can retrieve the Settlement Rate and Settlement Currency Amount in the Settlement Currency via ForexClear Reporting (as defined in Section 1.7 (ForexClear Reporting)) on the ForexClear Service Portal and on MemWeb, which are internet services onto which information is loaded and can be accessed by FXCCMs.

(c) Process Flow Description

(i) After the Registration Time for a ForexClear NDF Contract, the ForexClear Service links a Settlement Rate Option to it in accordance with the Relevant EMTA Template or given LCH G10 NDF Contract Template, as applicable.

(ii) On the Valuation Date, the Clearing House uses the Settlement Rate for the Currency Pair for the ForexClear NDF Contract when it is published by Reuters, and calculates the Settlement Currency Amount for each ForexClear NDF Contract in the Settlement Currency by applying the relevant Settlement Rate Option as referenced in the Relevant EMTA Template or given LCH G10 NDF Contract Template, as applicable.

1.3.9 If the Settlement Rate Option set out in the Relevant EMTA Template or given LCH G10 NDF Contract Template, as applicable, is unavailable at the relevant time, Disruption Fallback alternatives for the determination of the Settlement Rate will apply as set out in the Relevant EMTA Template or given LCH G10 NDF Contract Template, as applicable. Notwithstanding the foregoing, in the event the Clearing House determines (in its sole discretion) that a Settlement Rate Option is unavailable, the Clearing House will determine an alternative Settlement Rate Option.

1.3.10 Settlement: With respect to each ForexClear NDF Contract, the Settlement Currency Amount is calculated by the application of the Settlement Rate to the Notional Amount in accordance with the ForexClear NDF Contract Terms.

From (and including) the Registration Time to (and including) the Business Day immediately preceding the Settlement Date, changes in the daily value of open ForexClear NDF Contracts will have resulted in variation margin credits and debits between the parties (as set out at Section 1.5.2 (Variation Margin)). With respect to each ForexClear NDF Contract, on the Business Day immediately preceding the Settlement Date, the Clearing House nets the Settlement Currency Amount against the aggregate net variation margin which has been paid/received through the term of the ForexClear NDF Contract, the result of which is a Net Settlement Amount ("NSA"), which will be reflected in the FXCCMs' cash accounts with the Clearing House on the Settlement Date. As such, with respect to each ForexClear NDF Contract, the transfer to the Clearing House of all the Collateral in respect of the variation margin required during the term of such ForexClear NDF Contract shall satisfy the relevant party's obligation to pay the Settlement Currency Amount on the Settlement Date of such ForexClear NDF Contract. For the purpose of providing Nostro reconciliations, to the relevant parties, the Clearing House...
will provide Reporting (as defined in Section 1.7 (ForexClear Reporting)) which will reflect an entry for the "Settlement Currency Amount" and a separate entry for the reversal of the aggregate net variation margin which has been paid/received through the term of the ForexClear NDF Contract. This paragraph applies even if the Settlement Date has been adjusted in accordance with the ForexClear NDF Contract Terms.

1.3.11 Portfolio Management: The Clearing House allows portfolios of ForexClear Contracts to be transferred between FXCCMs (e.g., in the event of merger, or where agreed between the relevant FXP).

The portfolio transfer capability allows the transfer of:

(a) A single ForexClear Contract.

(b) Part of an FXCCM’s portfolio (which includes the ability to transfer ForexClear Contracts to various other FXCCMs, e.g. Bank A to Bank B for USD/RUB, Bank A to Bank C for USD/KRW and Bank A to Bank D for USD/BRL).

(c) Portfolio transfer (i.e. the transfer of all or just one of the portfolios belonging to an FXCCM).

(d) Multiple portfolio transfers (i.e. the transfer of several portfolios of an FXCCM).

The Clearing House will carry out the portfolio transfer. For transfers under (b), (c) and (d), this can be on either (i) a ForexClear Contract by ForexClear Contract basis, or (ii) in respect of ForexClear NDF Contracts, on a Currency Pair basis.

Before the completion of a portfolio transfer, the Clearing House will perform a margin impact analysis of the transfer to the source and destination portfolios. The Clearing House will advise the relevant FXCCM regarding any additional Collateral that may be required in order to complete the portfolio transfer.

(e) Legal Documentation: The transfer of ForexClear Contracts will be documented in accordance with the standard legal documentation for the transfer of ForexClear Contracts provided by the Clearing House to FXP. Any such transfer must be authorised by all relevant parties and executed by individuals with appropriate signing authority.

1.3.12 Reference Data

(a) Holiday Event Calendar:

The ForexClear Service uses the SwapsMonitor Financial Calendar (as published by Swaps Monitor Publications, INC.) (“SwapsMonitor Financial Calendar”) in order to determine holidays. This requires all ForexClear Participants to be licensees of the SwapsMonitor Financial Calendar.
If a change is declared that affects the SwapsMonitor Financial Calendar that is referenced on ForexClear, then a corresponding calendar adjustment will be made to the ForexClear system, unless the Clearing House informs FXCCMs by notice on its website (at www.lchclearnet.com/asset-classes/foreign-exchange/products, or such other web page as the Clearing House determines) that the relevant change will not apply to ForexClear Contracts. A corresponding calendar adjustment will be made to the ForexClear system. The Clearing House may temporarily close the ForexClear Service to process a calendar adjustment in its clearing system. FXCCMs will be notified in advance of the date, time and expected duration of such closure.

(b) Date Adjustment:

As a result of the calendar adjustment process, (i) the Valuation Date and/or the Settlement Date of any affected ForexClear NDF Contracts will automatically be date adjusted in accordance with the provisions of the Relevant EMTA Template or given LCH G10 NDF Contract Template, as applicable and (ii) the Settlement Date of any affected ForexClear Spot Contract, ForexClear Swap Contract, ForexClear Deliverable Forward Contract, or ForexClear Option Contract and the Premium Payment Date of any affected ForexClear Option Contract will automatically be date adjusted in accordance with the Following Business Day Convention, as detailed in the ISDA definitions.

The Clearing House will notify the FXCCMs via file download from the Clearing Member Reporting as to any ForexClear NDF Contract, ForexClear Spot Contract, ForexClear Swap Contract, ForexClear Deliverable Forward Contract, or ForexClear Option Contract affected and the date adjustments made.

1.4 Market Data

1.4.1 Sources used by ForexClear Service: With respect to each ForexClear Contract, the ForexClear Service collates instrument quotes for the following from multiple market sources (as detailed in Section 1.4.2 (Market Data Sources and Frequencies)) in relation to each Currency Pair or ForexClear Currency Pair:

(a) FX spot rates ("FX Spot Rates");

(b) FX swap points ("FX Swap Points");

(c) FX implied volatility points ("FX Volatility Points");

(d) FX NDF Settlement Rate Option;

(e) Interest rate swap curves and Overnight index swap curves ("Interest Rate Curves");
(f) PAI rates ("PAI Rates");

(g) Country credit spreads ("Country Credit Spreads"); and

(h) FX spot reference prices ("FX Spot Reference Prices").

together, "Market Data".

FX Spot Rates, FX Swap Points and FX Volatility are received by the Clearing House via a live link from all eligible FXCCMs during the Opening Hours (as defined in paragraph (b) of Section 1.2.2 (Service Operating Hours)).

1.4.2 Market Data Sources and Frequencies: The Clearing House receives the following updated raw prices:

(a) FX Spot Rates:

   (ii) Frequency - every time updated by contributing FXCCMs up to a maximum rate of once every five minutes.

(b) FX Swap Points:

1.4.3 **Market Data Provision to FXCCMs:** Market Data used in a Margin Run is made available to FXCCMs via ForexClear Reporting (as defined in Section 1.7 (ForexClear Reporting)).

1.4.4 **Curve Building in ForexClear**

(a) **FX Curve (Zero Coupon/Market Rate Curve):** The Clearing House builds for each Currency Pair an FX curve (zero coupon/market rate curve) using the FX Spot Rates, FX Swap Points and the USD LIBOR Curve. The currency zero coupon curves are implied from the FX curve and the USD LIBOR Curve; the FX curve is used for capitalisation of forward cash flows. Cross rates spot and forward curves will be triangulated from the non cross currency pairs (i.e., the currency pairs where USD is one of the currencies). Linear interpolation is applied on zero coupon curves.

(b) **Implied Volatility Surface:** The Clearing House builds for each Currency Pair or ForexClear Currency Pair an FX Implied Volatility Surface using the FX Volatility Points. Implied volatility interpolation is performed along both the delta and tenor axes. Interpolation is firstly applied on the delta axis of the two neighbouring implied volatility smiles, and then tenor axis interpolation is applied. To prevent arbitrages on the input volatility surfaces impacting on margining calculations, a de-arbitraging methodology is applied where an arbitrage exists on any reference volatility surfaces.
(c) **Interest Rate Curve:** The Clearing House applies standard bootstrap method to build the Interest Rate Curve. Linear interpolation is applied on zero coupon curves.

(d) **Curve Use:** End of day is defined as 22.00 local London time ("EOD"). The following EOD data is used in the calculation of risk analytics for an EOD Margin Run (as defined in paragraph (b) of Section 1.6.1 (**Types of Margin Runs**)):

(i) **FX Spot Rates;**

(ii) **FX Swap Points;** and

(iii) **FX Volatility Points.**

1.4.5 **Country Credit Spreads:** The Clearing House takes country credit spreads (in relation to Brazil, Russia, India, China, Chile, South Korea, Colombia, Indonesia, Malaysia, Philippines and Taiwan) from Bloomberg for use in risk multiplier calculations.

1.5 **Valuation and Margin**

1.5.1 **Product Valuation**

(a) **ForexClear NDF Contract:** From (and including) the Registration Time to the EOD Margin Run on the business day preceding the Valuation Date, each ForexClear NDF Contract is valued in USD using the current market rates and discounted from the future Settlement Date to its present value (being valued using the data submitted by FXCCMs, in accordance with Section 1.4.2 (**Market Data Sources and Frequencies**)).

At EOD on the Valuation Date, the Settlement Rate is used to value the ForexClear NDF Contract.

If Valuation Postponement applies, the ForexClear NDF Contract is valued using the current forward price (based on the data submitted by FXCCMs, in accordance with Section 1.4.2 (**Market Data Sources and Frequencies**)) to (and including) the date on which the Settlement Rate is determined in accordance with the ForexClear NDF Contract Terms.

In the event a Settlement Rate or market rate is unavailable, as determined by the Clearing House in its sole discretion, the Clearing House will determine an alternative Settlement Rate or market rate.

(b) **ForexClear Spot Contracts, ForexClear Deliverable Forward Contracts and ForexClear Swap Contracts:** From (and including) the Registration Time to the EOD Margin Run on the business day preceding the Settlement Date, each ForexClear Spot Contract, ForexClear Deliverable Forward Contract and ForexClear Swap Contract is valued in either USD or EUR using the current market rates...
and discounted from the future Settlement Date to its present value (using the data submitted by FXCCMs, in accordance with Section 1.5.2 (Market Data Sources and Frequencies)).

(c) **ForexClear Option Contracts:** From (and including) the Registration Time to the Expiration Date, each ForexClear Option Contract is valued in USD or EUR using the Garman-Kohlhagen option pricing model (using the data submitted by FXCCMs, in accordance with Section 1.5.2 (Market Data Sources and Frequencies)).

1.5.2 **Variation Margin:** Separate variation margin calculations are performed for a FXCCM's Proprietary Account, each Client Account (other than an Indirect Gross Account) and each Indirect Gross Sub-Account within an Indirect Gross Account. No offset between the Proprietary Accounts and Client Accounts accounts is allowed (except pursuant to Rule 8(d) of the Default Rules or any Insufficient Resources Determination Rule) and no offset between any Client Accounts is allowed (except pursuant to Rule 15(a)(ii) of the Default Rules, a Cross-ISA Client Excess Deduction or any Insufficient Resources Determination Rule).

The variation margin requirement in respect of each ForexClear Contract is calculated at EOD as the change from the preceding business day in its NPV. The net sum of the variation margin requirements with respect to all of the open ForexClear Contracts is credited or debited (separately for the Proprietary Account and each Client Account of the relevant FXCCM) once a day, following the EOD Margin Run.

Collateral in respect of variation margin (adjusted by PAI, as set out below) will be transferred each business day by or to each FXCCM in respect of all of its open ForexClear Contracts. The variation margin will be calculated in, and must be paid in, USD or such other currency as specified by the Clearing House from time to time.

For the avoidance of doubt, any transfers of cash Collateral by an FXCCM to the Clearing House in respect of the FXCCM's variation margin obligations or by the Clearing House to an FXCCM in respect of the Clearing House's variation margin obligations shall be for the purposes of collateralisation and not settlement of obligations under the relevant contracts.

With respect to each ForexClear Contract, the variation margin requirement is calculated every business day from (and including) the Registration Time to (and including) the EOD on the business day immediately preceding the Settlement Date.

For the avoidance of doubt, “variation margin” as used herein shall include trade variation margin and Option Premium variation margin.

1.5.3 **Reporting Breakdown:** ForexClear margin reports show the portfolio of open ForexClear NDF Contracts of each FXCCM and of each FXD by Currency Pairs and in the Settlement Currency (i.e., USD). ForexClear margin reports also show the portfolio of open ForexClear Option Contracts, ForexClear Spot
Contracts and ForexClear Deliverable Forward Contracts of each FXCCM and of each FXD by ForexClear Currency Pair.

1.5.4 Price Alignment Interest ("PAI"): The effect of daily transfers of cash Collateral in respect of variation margin results in the need for PAI. Without this adjustment, the pricing of ForexClear Contracts would differ from identical uncleared trades, as cash earned from favourable daily price moves would be priced into the product.

(a) PAI Calculation Methodology: PAI is calculated at EOD on each business day from (and including) the first business day after the Trade Date to (and including) the business day immediately preceding the Settlement Date, and the currency in which the PAI payment is denominated for a given ForexClear Contract (other than a ForexClear NDF Contract) shall be determined in accordance with the table set out in 1.6.2 above.

In this Section 1.5.4 (Price Alignment Interest), "T" means any given business day; "T-1" means the business day immediately preceding T; "T+1" means the business day immediately following T; and "MTM" means the total value (expressed in the relevant currency) of an FXCCM's portfolio open of ForexClear Contracts after valuation in accordance with Section 1.5.2 (Valuation Margin) at close of business on any business day. The Clearing House calculates PAI in USD once a day at EOD.

(i) Principles:

(A) MTM is calculated at EOD on T-1.

(B) Change in MTM (net variation margin obligations in respect of an FXCCM's portfolio of open ForexClear Contracts) is paid/ received on the morning of T.

(C) PAI Rate for T to be applied is known at EOD T.

(D) PAI is calculated on the night of T, for MTM of T-1 for ForexClear Contracts up to the business day before their Settlement Date.

(E) PAI is paid / received on morning of T+1 via PPS.

(ii) Components:

(A) PAI Rate (annualised interest applied to an FXCCM's MTM).

(B) MTM.

(C) Accrual Factor (factor used to convert the PAI Rate from an annual rate to a daily rate, on a basis of a year of 360 days).
(iii) So:

(A) \[ \text{PAI T} = \text{PAIT Rate} \times \text{MTMT-1} \times \text{Accrual Factor} \]

The Clearing House uses the PAI Rate from the relevant EOD overnight index swap curves, which is sourced from the Clearing House.

(b) \textit{Variation Margin/PAI Adjustment:} With respect to each FXCCM, the Clearing House makes the following adjustment to the EOD variation margin:

(i) if, with respect to its portfolio of open ForexClear Contracts, such FXCCM has (but excluding the relevant EOD) paid an amount of Collateral in respect of variation margin greater than the amount of Collateral in respect of variation margin it has received, such FXCCM will receive PAI, and

(ii) if, with respect to its portfolio of open ForexClear Contracts, such FXCCM has (but excluding the relevant EOD) received an amount of Collateral in respect of variation margin greater than the amount of Collateral in respect of variation margin it has provided, such FXCCM will pay PAI.

1.5.5 \textit{Initial Margin:} The Clearing House will require FXCCMs to transfer Collateral to the Clearing House in respect of initial margin. Each FXCCM’s initial margin obligation will comprise the aggregate of the initial margin obligations separately calculated in relation to (i) the ForexClear NDF Service and (ii) the ForexClear Option Service.

(a) \textit{Calculation of Initial Margin:} Separate initial margin calculations are performed for a FXCCM’s Proprietary Account, each Client Account (other than an Indirect Gross Account) and each Indirect Gross Sub-Account within an Indirect Gross Account. No offset between the Proprietary Accounts and the Client Accounts is allowed (except pursuant to Rule 8(d) of the Default Rules or any Insufficient Resources Determination Rule) and no offset between any Client Accounts is allowed (except pursuant to Rule 15(a)(ii) of the Default Rules, a Cross-ISA Client Excess Deduction or any Insufficient Resources Determination Rule).

The initial margin obligation is calculated on a real-time (or near real-time) basis throughout each day. With respect to each FXCCM, it is calculated for the portfolio of open ForexClear Contracts and ForexClear Transactions using ForexClear’s Portfolio Analysis and Risk (“FxPAR”) margining model. FxPAR is based on a modified historical simulation \textit{expected shortfall} methodology. All open ForexClear Contracts and ForexClear Transactions in each Currency Pair are re-valued under a series of \textit{FX rate} and yield curve scenarios to estimate the potential portfolio profit and loss and therefore the initial margin requirement.
The adequacy of the initial margin calculation is reviewed daily. ForexClear members will usually be notified by the Clearing House of alterations to margin parameters no later than the day before calls are made based on the new parameters. Further details of this method are available upon request from the ForexClear Risk team.

FxPAR uses the market data submitted by FXCCMs pursuant to paragraph 1.5.1(a) (Product Valuation).

**Initial Margin Add-ons:** Credit risk, liquidity risk and sovereign risk margin add-ons are measured and applied to FXCCMs as part of the initial margin requirement calculation.

(b) **Credit Risk Margin ("CRiM"):** CRiM reflects the additional risk related to the FXCCM’s credit quality. The CRiM calculation considers the FXCCM’s credit worthiness, initial margin obligation level and/or stress testing exposures in accordance with LCH.Clearnet Credit Risk Policy.

(c) **Liquidity Risk Margin ("LRM"):** LRM reflects the additional risk due to the FXCCM having concentrated risk exposures above set thresholds in a particular Currency Pair or ForexClear Currency Pair or tenor of ForexClear Contracts. The LRM is calculated in accordance with parameters set by the ForexClear Default Management Group (the "FXDMG").

(d) **Sovereign Risk Margin ("SRM"):** SRM reflects the additional risk related to a potential country default or a change in a country's currency regime which would impact ForexClear Contracts transacted in certain Reference Currencies. The SRM calculation considers the probability of sovereign default occurring and the depreciation or appreciation risk of the Reference Currencies. The SRM sovereign default probability is calculated by assessing the three month probability of default for the different sovereign countries, based on the country's 5-year credit default swap (CDS) spread.

(e) **Settlement Management Margin ("SMM"):** SMM reflects the additional risk associated with a potential settlement failure. The SMM calculation considers the FXCCM’s future settlement obligations in each of the relevant currencies and the potential cost of utilising and replenishing liquidity provisions, where required, to fulfill those settlement obligations.

(f) **Additional Margin:** The Clearing House may require an FXCCM to transfer additional Collateral to the Clearing House (in addition to amounts of Collateral already transferred to the Clearing House in respect of initial margin and variation margin obligations) as security for the performance by an FXCCM of its obligations to the Clearing House in respect of ForexClear Contracts to which such FXCCM is a party in accordance with Regulation 20 (Margin and Collateral). This may be required from time to time where, in the opinion of the
Clearing House, the risk inherent in ForexClear Contracts to which such FXCCM is a party not adequately covered by the Collateral transferred in respect of the initial margin or variation margin obligations. This may cover instances where stress testing losses under various scenarios provided in the ForexClear Default Rules have increased.

(g) **Minimum Excess Requirement Buffer ("MER Buffer")**: To facilitate the intraday registration of ForexClear Contracts, at each EOD Margin Run, the Clearing House will call from each FXCCM an amount of Collateral in respect of the initial margin obligation referred to as "Minimum Excess Requirement Buffer" ("MER Buffer") in respect of that FXCCM's potential intraday Liabilities (as defined below at Section 1.6.2 (Margin Run Process)) for the following day.

The required amount of MER Buffer for an FXCCM is expressed as a percentage of the FXCCM's start-of-day portfolio initial margin, and is calibrated daily based on recent member activity such that higher levels of intraday trade volumes lead to a proportionally higher MER Buffer requirement and vice versa. The MER Buffer percentage is calculated as a given percentile of intraday peak relative initial margin changes over a given number of historical business days.

The parameters of the MER model are: MER percentile, MER lookback period, relative MER cap and absolute MER floor. The values of these parameters are calibrated based on the quantitative analysis of the FXCCMs' initial margin history across the ForexClear Service.

As ForexClear Contracts are registered in an FXCCM's name, the Clearing House will, in accordance with the Margin Run process, calculate an FXCCM's intraday Liabilities (or, in the case of an Incremental Risk Check, the FXCCM's estimated Liabilities), taking into account any MER Buffer.

At each EOD Margin Run, the Clearing House will recalculate and call the FXCCM's MER Buffer for the following day.

1.5.6 **Mutualised Credit Extension ("MCE")**: If an FXCCM has insufficient Collateral to enable the registration of further ForexClear Contracts in its name, then the Clearing House may make available to an FXCCM intraday credit by way of a Mutualised Credit Extension ("MCE") to enable the FXCCM to register further ForexClear Contracts. An FXCCM may utilise MCE intraday on a one-to-one basis to the value of the Collateral in respect of initial margin that would have been required to cover that FXCCM's Liabilities (or, in the case of Incremental Risk Checks, the FXCCM's estimated Liabilities). The amount of the MCE made available to an FXCCM in aggregate during any one day must not exceed an amount that is the lesser of: (a) 50% of the ForexClear MCE Default Fund Buffer; or (b) the sum of the FXCCM's Collateral in respect of initial margin and ForexClear Contribution. The amount of the "ForexClear MCE Default Fund Buffer" is currently...
zero and therefore the Clearing House will not provide MCE to any FXCCM until further notice.

For the avoidance of doubt, MCE is provided in the form of intraday initial margin forbearance and an FXCCM's utilisation of MCE does not give rise to any payment or transfer of collateral by the Clearing House nor does it result in any use of the ForexClear Fund Amount (except in events of default).

All MCE credit extended on any given day shall be revoked at the close of business on such day (unless revoked earlier in accordance with the following paragraph). As part of each EOD Margin Run, the Clearing House will call Collateral in respect of initial margin obligations from each FXCCM to replace any utilised MCE and that FXCCM's MCE will be reset for the following day (assuming such FXCCM has satisfied any margin calls). Any failure of an FXCCM to satisfy an initial margin call relating to the replacement of MCE constitutes a default by such FXCCM – just as any failure by an FXCCM to satisfy any other type of initial margin call constitutes a default.

The MCE is made available at the Clearing House's sole discretion. In particular (but without limitation), the Clearing House may refuse to extend MCE to any or all FXCCMs on risk management grounds, and may at any time require an FXCCM to provide Collateral in respect of initial margin in place of any utilised MCE.

1.5.7 Initial Margin Management Events Service ("IMMES"): IMMES aims to find risk and initial margin reducing ForexClear Contracts amongst participating FXCCMs. IMMES can be run on all Currency Pairs that are cleared through the ForexClear Service, although the primary focus will be on those Currency Pairs that contribute to the largest Collateral requirement.

FXCCMs who wish to obtain further information about, or to participate in, IMMES should contact ForexClear Risk on 0207 426 7527. To be eligible to participate in IMMES, an FXCCM must enter into an IMMES Agreement with the Clearing House (the 'IMMES Agreement').

1.6 General Margining Process

A "Margin Run" is the process by which the Clearing House calculates an FXCCM's initial margin requirement (if any) and, during an EOD Margin Run, its variation margin requirement and PAI adjustment (if required) (together its "Margin Requirements") and applies that FXCCM's Collateral to satisfy the Margin Requirements for that FXCCM in respect of the ForexClear Contracts within that FXCCM's portfolio.

1.6.1 Types of Margin Runs: There are three types of Margin Run:

(a) ITD/Ad Hoc - Day Margin Run

(i) ITD/Ad-hoc London daytime Margin Runs are initiated as and when dictated by the schedule published by the Clearing House
and notified to FXCCMs from time to time (the "Schedule") or as necessary, and are performed in the time period during which a PPS call can be made (the "ITD/Ad-hoc Day Margin Run"). PPS times are published on the Clearing House's website at: http://www.lch.com/en/risk-collateral-management/collateral-management/protected-payments-system/pps-concentration-activities.

(ii) ITD/Ad-hoc Margin Runs are calls in respect of the initial margin obligation only. The variation margin obligation and PAI are not included in ITD/Ad-hoc Margin Runs.

(b) **EOD Margin Run**

(i) The EOD Margin Run is the final ITD/Ad-hoc Day Margin Run that completes by 24:00 local London time on that business day (the "EOD Margin Run").

(ii) EOD Margin Runs are calls in respect of initial margin as well as variation margin obligations and PAI.

(c) **ITD / Ad Hoc - Night Margin Run**

(i) ITD/Ad-hoc London overnight Margin Runs are initiated as and when dictated by the Schedule or as necessary, and are performed in the time period during which a PPS call cannot be made (the "ITD/Ad-hoc Night Margin Run").

(ii) ITD/Ad-hoc Night Margin Runs are calls in respect of the initial margin obligation only. The variation margin obligation and PAI are not included in ITD/Ad-hoc Night Margin Runs.

1.6.2 **Margin Run Process**

(a) Margin Runs cover all registered ForexClear Contracts with the status "NOVATED".

(b) Margin runs will be carried out for each ForexClear Contract and ForexClear Transaction (as the case maybe) until (and including) the later of:

(i) EOD Margin Run on the Settlement Date; or

(ii) EOD Margin Run after the Settlement Rate is published.

(c) During every Margin Run the Clearing House calculates the Collateral required in respect of the initial margin obligations and (where applicable) the Collateral required in respect of the variation margin obligations and PAI required to cover each FXCCM's relevant open ForexClear Contracts and ForexClear Transactions (each a "Liability" and together the "Liabilities"). For these purposes, liabilities in respect of the open ForexClear Contracts and ForexClear Transactions are...
Market Data and Settlement Rate used in the valuation of ForexClear Contracts and reports of Market Data shifts for each historic scenario used in the initial margin requirement calculations.

1.7.3 Trade Reports: Reports are provided that enable FXCCMs to monitor their firms’ trading events and positions in respect of ForexClear. Reports on open ForexClear Contracts and on cancelled ForexClear Transactions and ForexClear Contracts are generated at EOD and reports on transferred ForexClear Contracts are made on an ad hoc basis.

1.7.4 Trade Fixing and Settlement Reports: Reports are published on each business day detailing the ForexClear Contracts to which the Settlement Rate has been applied on that business day (the "FX Transaction Fixings" report), ForexClear Contracts that have been settled during that current business day (the "Settlements Today" report) and ForexClear Contracts that will settle the next business day (the "FX Transactions Fixed with Settlement Tomorrow" report).

1.7.5 Fees Reports: Reports on trading volumes on a daily and monthly basis are provided to FXCCMs. Monthly reports are provided on the last business day of each month. They include the full trading volumes on which the monthly transaction fees will be charged to those FXCCMs choosing to have tariffs levied per transaction.

1.7.6 Banking Reports: Follow this link for a full list of banking reports.

1.7.7 Real-time Reporting: A near real-time view of member liabilities, collateral pledged, collateral and credit utilisation will be available from the ForexClear Service Portal (referred to in paragraph (e) of Section 1.6.2 (Margin Run Process)).

1.7.8 Settlement Limit Reports: As further described in 1.19 (Settlement Limits for ForexClear Option Contracts, ForexClear Deliverable Forward Contract and ForexClear Spot Contracts).

1.8 Treasury Operations & Collateral Management

1.8.1 Cover Distribution: The Clearing House nets each FXCCM's Liabilities (i.e. margins and multipliers) and then the total of cash Collateral and non-cash Collateral are applied to offset those net Liabilities. This process is known as collateral distribution ("Collateral Distribution"). FXCCMs can choose whether cash or non-cash Collateral should be applied first. At the end of this process, if an FXCCM has a shortfall, a PPS (as defined in Section 1.8.2 (Protected Payment System) below) call for additional Collateral is made.

1.15 Compression

1.15.1 A ForexClear Clearing Member may compress existing ForexClear Contracts (other than ForexClear Contracts that are ForexClear Option Contracts, ForexClear Swap Contracts, ForexClear Spot Contracts and ForexClear Deliverable Forward Contracts) in accordance with Regulation 95. There are two options available to a ForexClear Clearing Member that wishes to compress such ForexClear Contracts:

(a) a ForexClear Clearing Member can request that all such ForexClear Contracts entered into (i) on behalf of a designated ForexClear Clearing Client and in respect of a particular Client Account (or, where relevant, in respect of an Indirect Gross Sub-Account), or (ii) on such ForexClear Clearing Member’s own behalf, be considered for compression by the Clearing House. Such a request shall be reconsidered by the Clearing House automatically each day (and the results notified to the ForexClear Clearing Member after the applicable scheduled compression run) until the ForexClear Clearing Member notifies the Clearing House to discontinue such compression of such ForexClear Contracts. ForexClear Clearing Members should contact the Clearing House’s Membership Department to request such a compression of such ForexClear Contracts; or

(b) a ForexClear Clearing Member may notify the Clearing House directly through the ClearLink API specifying which such ForexClear Contracts and/or Resulting ForexClear Contracts should be compressed. The ForexClear Clearing Member will be notified after the applicable scheduled compression run whether compression has occurred and the Clearing House will not automatically reconsider such compression request on subsequent days regardless of whether compression has occurred.

1.15.2 In order to compress such a ForexClear Contract, a ForexClear Clearing Member must follow the process for compression as set out above and must, at the time of compression, have in its applicable Client Account or Proprietary Account ForexClear Contracts with the same compression identifier (being an identifier applied by the Clearing House which indicates that such ForexClear Contracts are eligible for compression).

1.15.3 In respect of each compression, the Clearing House will notify ForexClear Clearing Members of the cut-off time by which the Clearing House must be notified of the relevant ForexClear Contracts and/or Resulting ForexClear Contracts to be compressed in order for such ForexClear Contracts and/or Resulting ForexClear Contracts to be included in the relevant compression run. The Clearing House shall process the compression of all ForexClear Contracts and Resulting ForexClear Contracts notified to it prior to such cut-off time and shall notify the applicable ForexClear Clearing Member after the applicable compression run of the result of such compression procedure. A notification...
Clearing House Procedures

1.15.4 Following the compression process described above and as further set out in Regulation 95, the applicable ForexClear Clearing Member shall promptly notify the Clearing House if it believes that any errors have occurred in the compression process or if its books and records do not reconcile with those of the Clearing House in respect of the compressed ForexClear Contracts as notified to the ForexClear Clearing Member by the Clearing House.

1.16 Exercise and Expiry Agent

1.16.1 ForexClear Clearing Members may facilitate or communicate the exercise of (or intent to exercise) ForexClear Option Contracts to the Clearing House via an exercise and expiry agent. The Clearing House may determine, in its sole discretion, the form and manner of any instruction pursuant to this Section 1.16.

1.16.2 In the event that an exercise and expiry agent is not able to facilitate or communicate the exercise of (or intent to exercise) a ForexClear Option Contract for any reason whatsoever, and the Clearing House becomes aware of such failure to facilitate or communicate, the Clearing House will notify the relevant ForexClear Clearing Members of such failure and may provide details of one or more alternative exercise methods.

1.16.3 Exercise and expiry agents may be designated by the Clearing House from time to time and such agents shall be published on the Clearing House’s website.

1.16.4 Neither the Clearing House nor any other member of the LCH Group shall have any liability whatsoever to any ForexClear Clearing Member or any other person, including any Clearing Client, in contract, tort (including negligence), trust, as a fiduciary or under any other cause of action in respect of any liabilities, damages, losses, costs or expenses of whatsoever nature suffered or incurred by a ForexClear Clearing Member or any other person, including any Clearing Client, as a result of (a) any failure by the Clearing House to provide notice pursuant to Section 1.16.2 or (b) any failure of an exercise and expiry agent to communicate the exercise of (or intent to exercise) a ForexClear Option Contract to the Clearing House.

1.17 Automatic Exercise of ForexClear Option Contracts

1.17.1 In relation to a ForexClear Option Contract, if, at the Expiration Time on the Expiration Date of that ForexClear Option Contract, the ForexClear Option Contract has not been exercised by the relevant ForexClear Clearing Member or the Clearing House, as the case may be, then it will be deemed exercised as of that time if the In-the-Money Amount of that ForexClear Option Contract at the Expiration Time equals or exceeds the product of:
Clearing House Procedures

1.17.2 For the purposes of Section 1.17.1, the Clearing House may change the number of basis point applicable to any ForexClear Currency Pair by giving three Business Days’ prior notice to the ForexClear Clearing Members via the Clearing House’s website or published through a circular.

1.17.3 If the Clearing House receives an instruction from a ForexClear Clearing Member, including via any third party intent agent or middleware provider, before the applicable Expiration Time on the Expiration Date such instruction will in all circumstances be acted upon notwithstanding any administrative, systems or processing delays that may affect the Clearing House immediately taking the action required upon receipt of such instruction. If the Clearing House receives an instruction from a ForexClear Option Clearing Member at or after the applicable Expiration Time on the Expiration Date then Section 1.17.1 shall in all circumstances apply and the Clearing House shall have no regard to such instruction.

1.17.4 The "In-the Money Amount" in relation to a ForexClear Option Contract shall, in respect of the Exercise Date, be equal to:

(a) in the case of a Call, the excess of the FX Spot Reference over the Strike Price, multiplied by the Call Currency Amount, where both the Strike Price and the Settlement Rate are quoted in terms of the amount of Put Currency to be paid per one unit of Call Currency; and

(b) in the case of a Put, the excess of the Strike Price over the FX Spot Reference, multiplied by the Put Currency Amount, where both the Strike Price and the Settlement Rate are quoted in terms of the amount of Call Currency to be paid per one unit of Put Currency.

1.17.5 Capitalised terms used in this Section 1.17 and not otherwise defined shall have the meanings specified for such terms in (i) the ForexClear Option Contract Terms applicable to that ForexClear Option Contract, and, if note defined therein, (ii) the 1998 FX and Currency Options Definitions (including Annex A thereto) as published by the International Swaps and Derivatives Association, Inc., the Emerging Markets Trade Association and The Foreign Exchange Committee.

1.18 CLS Payment Procedures

1.18.1 In connection with ForexClear Spot Contracts, ForexClear Deliverable Forward Contracts, ForexClear Option Contracts and ForexClear Swap Contracts, where applicable, FXCCMs are required to meet the following requirements with respect to CLS:

THE FOREXCLEAR REGULATIONS

PART A
FOREXCLEAR NDF CONTRACT TERMS; FOREXCLEAR CONTRACTS ARISING FROM FOREXCLEAR NDF TRANSACTIONS

Where a ForexClear NDF Contract arises between the Clearing House and a ForexClear Clearing Member pursuant to the Regulations and the terms of any agreement entered into between them, the terms of such registered ForexClear NDF Contract shall include these ForexClear NDF Contract Terms, which shall comprise:

1. Interpretation;
2. Economic Terms; and
3. Standard Terms, being both the:
   A. Specific Standard Terms; and
   B. General Standard Terms

In the event of any inconsistency between the Economic Terms and the Standard Terms, the Standard Terms will prevail.

Subject to the Regulations and the Procedures, the Clearing House will use the ForexClear NDF Contract Terms applicable to a ForexClear NDF Contract to calculate the amounts due under the ForexClear NDF Contract to, or from, the Clearing House in accordance with the Procedures.

1. Interpretation ("Interpretation")

1.1 "ISDA Definitions" means the 1998 FX and Currency Options Definitions (including Annex A thereto) as published by ISDA, EMTA and FXC and the same are incorporated by reference herein.

1.2 "FXC" means the Foreign Exchange Committee or any successor entity.

1.3 "ISDA" means International Swaps and Derivatives Association, Inc. Or any successor entity.

1.4 Words and expressions used in these ForexClear NDF Contract Terms which are not defined herein shall have the meanings given to them in the Regulations and the Procedures, unless expressly provided otherwise. Words and expressions used in these ForexClear Contract Terms which are not defined in the Regulations and the Procedures but which are defined in the ISDA Definitions shall have the meanings given to them in the ISDA Definitions, unless expressly provided otherwise.

1.5 In the event of an inconsistency, the Regulations and Procedures will prevail over the ISDA Definitions.
1.6 References in the ISDA Definitions to an "FX Transaction" shall be deemed to be references to a "ForexClear NDF Transaction" for the purposes of these ForexClear NDF Contract Terms.

1.7 Except where expressly stated otherwise, all reference to "Sections" means Sections in the ISDA Definitions.

1.8 In relation to any amendment to the ISDA Definitions published from time to time by ISDA, EMTA and FXC, the Clearing House may from time to time, by notice delivered to the ForexClear Clearing Members, give directions as to whether such amendment shall apply to ForexClear NDF Contracts with immediate effect or with such deferred effect as the Clearing House shall determine (provided that in any event any such amendment shall only apply in relation to ForexClear NDF Contracts that have a Trade Date that falls on or after the effective date of such amendment).

1.9 Any such notice may provide that despite the application of any such amendment to the ISDA Definitions to ForexClear NDF Contracts going forward, these ForexClear NDF Contracts shall continue, for the purpose of margining, valuation, set-off or otherwise, to be regarded as fully fungible with ForexClear NDF Contracts registered in a ForexClear Clearing Member's name prior to the time such amendment comes into effect.

1.10 The accidental omission to give notice under this provision to, or the non-receipt of notice under paragraphs 1.8 or 1.9 above by any ForexClear Clearing Member shall not invalidate the amendment with which the notice is concerned.

2. Economic Terms

2.1 The Economic Terms of a ForexClear NDF Contract shall be derived from the information presented to the Clearing House by the parties to the corresponding ForexClear NDF Transaction.

2.2 The particulars of a ForexClear NDF Transaction presented to the Clearing House must include matched information in respect of the following Economic Terms which are not predetermined in the EMTA Templates or LCH G10 NDF Contract Templates, where applicable:

(a) Trade Date (Section 1.25)
(b) Forward Rate (Section 2.1(a))
(c) Reference Currency Notional Amount (Section 1.21) or Notional Amount (Section 1.17(b)) in USD
(d) Reference Currency Buyer (Section 1.20)
(e) Reference Currency Seller (Section 1.22)
(f) scheduled Settlement Date (Section 1.24) (where applicable, without prejudice to the adjustments set out in the relevant EMTA Template or LCH G10 NDF Contract Template)
(g) scheduled Valuation Date (Section 1.16(f)) (where applicable, without prejudice to the adjustments set out in the relevant EMTA Template or LCH G10 NDF Contract Template).

2.3 However, as set out more particularly in Regulation 90, where the ForexClear NDF Transaction specifies a ForexClear Clearing Member as the Reference Currency Seller, with the other ForexClear Member as the Reference Currency Buyer, the Clearing House, in respect of each ForexClear NDF Contract to which it is party pursuant to the corresponding ForexClear NDF Transaction, shall be (i) the Reference Currency Buyer; and (ii) the Reference Currency Seller under such ForexClear NDF Contract, respectively.

3. Specific Standard Terms ("Specific Standard Terms")

The following terms are designated as Specific Standard Terms of a registered ForexClear NDF Contract:

3.1 The EMTA Template or LCH G10 NDF Contract Template, appropriate to the particular Currency Pair is incorporated by reference into these ForexClear Contract Terms, as amended herein, and governs the terms of a ForexClear NDF Contract relating to a given Currency Pair together with, and subject to, the Economic Terms set out in Part 2 above, the Specific Standard Terms set out in this Part 3, the General Standard Terms set out in Part 4 or Part 5 below, as applicable. For the avoidance of doubt, each EMTA Template shall be deemed to exclude the EMTA Template Terms for Non-Deliverable Cross-Currency FX Transactions published by EMTA on 31 May 2011.

3.2 In the format "Reference Currency – Settlement Currency", the Currency Pairs are

(a) BRL-USD
(b) CLP-USD
(c) CNY-USD
(d) INR-USD
(e) KRW-USD
(f) RUB-USD
(g) COP-USD
(h) IDR-USD
(i) MYR-USD
(j) PHP-USD
(k) TWD-USD
(l) PEN-USD
(m) EUR-USD
3.3 Where applicable, certain Specific Standard Terms of each ForexClear NDF Contract are not provided in the EMTA Templates, but the parties to the corresponding ForexClear NDF Transaction will be required to accept the Specific Standard Terms set out below in each ForexClear NDF Contract:

(a) Date of Annex A (Section 4.2):

Annex A to the ISDA Definitions is incorporated as amended as at the Trade Date.

(b) Reference Currency (Section 1.19):

To be determined by using the EMTA Template or LCH G10 NDF Contract Template appropriate to the particular Currency Pair.

(c) Calculation Agent (Section 1.3):

The Clearing House is the Calculation Agent.

3.4 If the terms of an EMTA Template conflict with these ForexClear NDF Contract Terms, these ForexClear NDF Contract Terms shall prevail. If the terms of an EMTA Template conflict with the ISDA Definitions, the terms of the EMTA Template shall prevail.

4. General Standard Terms ("General Standard Terms")

The following terms are designated as General Standard Terms of a registered ForexClear NDF Contract:

4.1 Business Days

For the purposes of determining the Settlement Date and the Valuation Date only, in addition to the Business Days for the Principal Financial Centers for the Currency Pair specified in the relevant Economic Terms, the Business Days specified in the Swaps Monitor Financial Calendar as published by Swaps Monitor Publications, Inc. (as further detailed in the Procedures) from time to time, will apply to a ForexClear NDF Contract, except where the Clearing House notifies FXCCMs otherwise in accordance with section 1.3.9 (Reference Data) of Section 2I (ForexClear Clearing Service) of the Procedures.

4.2 Withholding Tax Provisions

(a) All payments due under a ForexClear NDF Contract shall be made by the ForexClear Clearing Member free and clear and without deduction or withholding for or on account of any tax. Payments in respect of which such deduction or withholding is required to be made, by the ForexClear Clearing Member, shall be increased to the extent necessary to ensure that, after the making of the required
deduction or withholding, the Clearing House receives and retains (free from any liability in respect of such deduction or withholding) a net sum equal to the sum which it would have received and so retained had no such deduction or withholding been made or required to be made.

(b) All payments due under a ForexClear NDF Contract shall be made by the Clearing House free and clear and without deduction or withholding for or on account of any tax. Payments in respect of which such deduction or withholding is required to be made, by the Clearing House, shall be increased to the extent necessary to ensure that, after the making of the required deduction or withholding, the ForexClear Clearing Member receives and retains (free from any liability in respect of such deduction or withholding) a net sum equal to the sum which it would have received and so retained had no such deduction or withholding been made or required to be made.

4.3 Payment of Stamp Tax

Each ForexClear Clearing Member will pay any Stamp Tax or duty levied or imposed upon it in respect of any ForexClear NDF Contract to which it is a party by a jurisdiction in which it is incorporated, organised, managed and controlled, or considered to have its seat, or in which a branch or office through which it is acting is located ("Stamp Tax Jurisdiction") or by any other jurisdiction, and will indemnify the Clearing House against any Stamp Tax or duty levied or imposed upon the Clearing House by any such Stamp Tax Jurisdiction or by any other jurisdiction in respect of any ForexClear NDF Contract registered by the Clearing House and to which that ForexClear Clearing Member is a party.

4.4 Discontinuation of a Settlement Rate Option

If:

(a) the administrator of a benchmark that is a Settlement Rate Option has publicly announced that it will discontinue publication of the benchmark ("Discontinued Rate"); and

(b) ISDA has published a “Multilateral Amendment Agreement” to amend certain transactions to use an alternative benchmark ("Substitute Rate") in the lieu of the Discontinued Rate on and from a specified date ("Effective Date"),

then, in respect of a ForexClear NDF Contract in respect of which a Settlement Rate has not been determined as at the Effective Date and which references the Discontinued Rate ("Affected ForexClear NDF Contract"), the Clearing House may, by written notice to all ForexClear Clearing Members, amend the Settlement Rate Option of each Affected ForexClear NDF Contract to reference the Substitute Rate with effect on and from the Effective Date and specify such incidental amendments to the Affected ForexClear NDF Contract as may be required.

The terms “ISDA”, “Settlement Rate Option” and “Valuation Date” have the meanings given to them by the ForexClear NDF Contract Terms.
The accidental omission to give notice under this provision to, or the non-receipt of notice by, any ForexClear Clearing Member shall not invalidate the amendment with which the notice is concerned.

5. **General Standard Terms – G10 Currencies ("General Standard Terms – G10 Currencies")**

The following terms are designated as General Standard Terms – G10 Currencies of a registered ForexClear NDF Contract – G10 Currencies:

5.1 **Valuation Postponement for Price Source Disruption**

“Valuation Postponement” means, for purposes of obtaining a Settlement Rate, that the Settlement Rate will be determined on the Business Day first succeeding the day on which the Price Source Disruption ceases to exist, unless the Price Source Disruption continues to exist (measured from the date, that, but for the occurrence of the Price Source Disruption, would have been the Valuation Date) for a consecutive number of calendar days equal to the Maximum Days of Postponement. In such event, the Settlement Rate will be determined on the next Business Day after the Maximum Days of Postponement as being the applicable Fallback Reference Price.

5.2 **Fallback Reference Price**

“Fallback Reference Price” means the Clearing House calculated end of day spot price for the applicable Currency Pair from the previous end of day margin run.

5.3 **WM/Reuters Closing Spot Rate**

“WM/Reuters Closing Spot Rate” means, for the relevant Currency Pair, the exchange rate at the relevant time at which such rate is to determined for foreign exchange transactions for value on the relevant Settlement Date, as calculated and published by the WM Company and Thomson Reuters, which appears on the respective Thomson Reuters screen, as follows:

(a) Reference Currency: AUD; Settlement Currency: USD; Thomson Reuters Screen: USDAUDFIXM=WM

(b) Reference Currency: GBP; Settlement Currency: USD; Thomson Reuters Screen: USDGBPFIXM=WM

(c) Reference Currency: EUR; Settlement Currency: USD; Thomson Reuters Screen: USDEURFIXM=WM

(d) Reference Currency: CHF; Settlement Currency: USD; Thomson Reuters Screen: USDCHFFIXM=WM

6. **Payments under a ForexClear NDF Contract**

Payments under, and in respect of, a ForexClear NDF Contract shall be calculated by the Clearing House and shall be made by, or to, the ForexClear Clearing Member in accordance with the provisions of the Procedures.

7. **Regulations**

A ForexClear NDF Contract shall be subject to the Regulations and the Procedures, which shall form a part of its terms. In the event of any inconsistency between these ForexClear NDF Contract Terms and the Regulations and the Procedures, the Regulations and the Procedures will prevail.

8. **Governing Law**

Each ForexClear NDF Contract, and any non-contractual obligations arising out of or in connection with it, shall be governed by and construed in accordance with the laws of England and Wales and the parties irrevocably agree for the benefit of the Clearing House that the courts of England and Wales shall have exclusive jurisdiction to hear and determine any action or dispute which may arise here from. The ForexClear Clearing Member party hereto irrevocably submits to such jurisdiction and agrees to waive any objection it might otherwise have to such jurisdiction, save that this submission to the jurisdiction of the courts of England and Wales shall not (and shall not be construed so as to) limit the right of the Clearing House to take proceedings in any other court of competent jurisdiction, nor shall the taking of action in one or more jurisdictions preclude the Clearing House from taking action in any other jurisdiction, whether concurrently or not.

9. **Third Party Rights**

A person who is not a party to this ForexClear NDF Contract shall have no rights under or in respect of it. Rights of third parties to enforce any terms of this ForexClear NDF Contract pursuant to the Contracts (Rights of Third Parties) Act 1999 are expressly excluded.

PART D

FOREXCLEAR SPOT CONTRACT TERMS: FOREXCLEAR CONTRACTS ARISING FROM FOREXCLEAR SPOT TRANSACTIONS

Where a ForexClear Spot Contract arises between the Clearing House and a ForexClear Clearing Member pursuant to the Regulations and the terms of any agreement entered into between them, the terms of such registered ForexClear Spot Contract shall include these ForexClear Spot Contract Terms, which shall comprise:

(1) Interpretation;

(2) Economic Terms; and

(3) Standard Terms.

In the event of any inconsistency between the Economic Terms and the Standard Terms, the Standard Terms will prevail.

Subject to the Regulations and the Procedures, the Clearing House will use the ForexClear Spot Contract Terms applicable to a ForexClear Spot Contract to calculate the amounts due under the ForexClear Spot Contract to, or from, the Clearing House in accordance with the Procedures.

1. Interpretation ("Interpretation")

1.1 "ISDA Definitions" means the 1998 FX and Currency Options Definitions (including Annex A thereto) as published by the International Swaps and Derivatives Association, Inc. ("ISDA"), the Emerging Markets Trade Association ("EMTA") and The Foreign Exchange Committee ("FXC") and the same are incorporated by reference herein.

1.2 Words and expressions used in these ForexClear Spot Contract Terms which are not defined in the Regulations and the Procedures but which are defined in the ISDA Definitions shall bear the same meaning herein as in the ISDA Definitions, unless expressly provided otherwise.

1.3 In the event of an inconsistency, the Regulations and Procedures will prevail over the ISDA Definitions.

1.4 References in the ISDA Definitions to an "FX Transaction" shall be deemed to be references to a "ForexClear Spot Transaction" for the purposes of these ForexClear Spot Contract Terms.

1.5 Except where expressly stated otherwise, all reference to "Sections" means Sections in the ISDA Definitions.

1.6 In relation to any amendment to the ISDA Definitions published from time to time by ISDA, EMTA and FXC, the Clearing House may from time to time, by notice delivered to the ForexClear Clearing Members, give directions as to whether such
amendment shall apply to ForexClear Spot Contracts with immediate effect or with such deferred effect as the Clearing House shall determine (provided that in any event any such amendment shall only apply in relation to ForexClear Spot Contracts that have a Trade Date that falls on or after the effective date of such amendment).

1.7 Any such notice may provide that despite the application of any such amendment to the ISDA Definitions to ForexClear Spot Contracts going forward, these ForexClear Spot Contracts shall continue, for the purpose of margining, valuation, set-off or otherwise, to be regarded as fully fungible with ForexClear Spot Contracts registered in a ForexClear Clearing Member's name prior to the time such amendment comes into effect.

1.8 The accidental omission to give notice under this provision to, or the non-receipt of notice under 1.6 or 1.7 above by, any ForexClear Clearing Member shall not invalidate the amendment with which the notice is concerned.

2. Economic Terms

2.1 The Economic Terms of a ForexClear Spot Contract shall be derived from the information presented to the Clearing House by the parties to the corresponding ForexClear Spot Transaction.

2.2 The particulars of a ForexClear Spot Transaction presented to the Clearing House must include matched information in respect of the following Economic Terms:

(a) Trade Date (Section 1.25)

(b) Amount and currency payable by the ForexClear Clearing Member that is Party A

(c) Amount and currency payable by the ForexClear Clearing Member that is Party B

(d) Settlement Date (Section 1.24)

2.3 However, as set out more particularly in Regulation 16, where the ForexClear Spot Transaction specifies a ForexClear Clearing Member as the First Clearing Member with the other ForexClear Clearing Member as the Second Clearing Member, the Clearing House, in respect of each ForexClear Spot Contract to which it is a party pursuant to the corresponding ForexClear Spot Transaction, shall be (i) Party B, and (ii) Party A under such ForexClear Spot Contract, respectively.

3. Standard Terms

The following terms are designated as Standard Terms of a registered ForexClear Spot Contract:

3.1 Deliverable Transaction

The ForexClear Spot Transaction evidenced by these ForexClear Spot Contract Terms shall be an FX Transaction that is a Deliverable Transaction for the purposes of the ISDA Definitions.
3.2 **Annex A (Section 4.2)**

Annex A to the ISDA Definitions is incorporated as amended as at the Trade Date.

3.3 **Calculation Agent (Section 1.3)**

The Calculation Agent is the Clearing House.

3.4 **Business Days**

For the purposes of determining the Settlement Date only, in addition to the Business Days for the Principal Financial Centers specified in Annex A, the Business Days specified in the Swaps Monitor Financial Calendar as published by Swaps Monitor Publications, Inc. (as further detailed in the Procedures) from time to time, will apply to a ForexClear Spot Contract.

3.5 **Withholding Tax Provisions**

(a) All payments due under a ForexClear Spot Contract shall be made by the ForexClear Clearing Member free and clear and without deduction or withholding for or on account of any tax. Payments in respect of which such deduction or withholding is required to be made, by the ForexClear Clearing Member, shall be increased to the extent necessary to ensure that, after the making of the required deduction or withholding, the Clearing House receives and retains (free from any liability in respect of such deduction or withholding) a net sum equal to the sum which it would have received and so retained had no such deduction or withholding been made or required to be made.

(b) All payments due under a ForexClear Spot Contract shall be made by the Clearing House free and clear and without deduction or withholding for or on account of any tax. Payments in respect of which such deduction or withholding is required to be made, by the Clearing House, shall be increased to the extent necessary to ensure that, after the making of the required deduction or withholding, the ForexClear Clearing Member receives and retains (free from any liability in respect of such deduction or withholding) a net sum equal to the sum which it would have received and so retained had no such deduction or withholding been made or required to be made.

3.6 **Payment of Stamp Tax**

Each ForexClear Clearing Member will pay any Stamp Tax or duty levied or imposed upon it in respect of any ForexClear Spot Contract to which it is a party by a jurisdiction in which it is incorporated, organised, managed and controlled, or considered to have its seat, or in which a branch or office through which it is acting is located ("Stamp Tax Jurisdiction") or by any other jurisdiction, and will indemnify the Clearing House against any Stamp Tax or duty levied or imposed upon the Clearing House by any such Stamp Tax Jurisdiction or by any other jurisdiction in respect of any ForexClear Spot Contract registered by the Clearing House and to which that ForexClear Clearing Member is a party.

3.7 **Payments under a ForexClear Spot Contract**

3.9 Governing Law

Each ForexClear Spot Contract, and any non-contractual obligations arising out of or in connection with it, shall be governed by and construed in accordance with the laws of England and Wales and the parties irrevocably agree for the benefit of the Clearing House that the courts of England and Wales shall have exclusive jurisdiction to hear and determine any action or dispute which may arise herefrom. The ForexClear Clearing Member party hereto irrevocably submits to such jurisdiction and agrees to waive any objection it might otherwise have to such jurisdiction, save that this submission to the jurisdiction of the courts of England and Wales shall not (and shall not be construed so as to) limit the right of the Clearing House to take proceedings in any other court of competent jurisdiction, nor shall the taking of action in one or more jurisdictions preclude the Clearing House from taking action in any other jurisdiction, whether concurrently or not.

3.10 Third Party Rights

A person who is not a party to this ForexClear Spot Contract shall have no rights under or in respect of it. Rights of third parties to enforce any terms of this ForexClear Spot Contract pursuant to the Contracts (Rights of Third Parties) Act 1999 are expressly excluded.
