

Member Notification

Dear LCH Participant

We would like to inform you that as part of planned changes to the Portal Member and Client Report we are making some changes to the SFTP service that has an impact for you. This change requires your assistance in order to support the change.

For all participants connecting to our sftp service over the internet, you will currently have firewall rules that allow connectivity to our service. We are adding additional IP's to the service and ask that you update your existing firewall rules to allow for a smooth migration. The service will continue to run on TCP Port 21 with no change to the FQDN.

In Test, we will decommission the current IP's on **April 18th**. In Production, we will decommission the current IP's on **May 23rd**. Please ensure that the additional IP's have been **added** in advance of **May 23rd**.

Please note that the Current IP addresses will **not** work from these dates, and **connections will not be made** until the new IP addresses are not added to the existing ones.

We encourage you to whitelist the additional IP's to your firewall as soon as you receive this email.

Summary

Member SFTP Service	Current FQDN	Current IP's	Additional IP's to be added
PRODUCTION	sftp-clearingservices.lchclearnet.com	195.246.229.29 and 212.73.226.178	18.134.19.76 and 18.134.105.181 and 35.178.18.3
TEST	test-sftp-clearingservices.lchclearnet.com	195.246.229.58	18.168.185.101 and 18.169.220.180 and 18.169.223.138

Client SFTP Service	Current FQDN	Current IP's	Additional IP's to be added
PRODUCTION	sftp-client-clearingservices.lch.com	195.246.229.96 and 212.73.226.180	18.134.19.76 and 18.134.105.181 and 35.178.18.3
TEST	test-sftp-client-clearingservices.lch.com	195.246.229.95	18.168.185.101 and 18.169.220.180 and 18.169.223.138

These changes will not impact access to reporting via the LCH Portal, which is now available to Members.
