LCH SA: Finnish T-bills to become eligible for clearing at RepoClear SA

22 March 2021

Dear RepoClear Member,

In 2021, LCH SA is committed to continue to grow its deep and diverse liquidity pool through best-in-class selection of bonds eligible to clearing.

In this context, LCH SA is pleased to inform its members that **Finnish Treasury bills will become eligible to RepoClear SA clearing services from Monday 29 March 2021**.

This will complement **Finnish government bonds** already eligible for clearing at LCH SA since January 2019. As a reminder, Finnish T-bills are already accepted in our RepoClear SA's General Collateral basket offering: €GCPlus.

Your LCH SA Relationship Manager remains at your disposal to accompany you in this clearing extension. Please contact us should you wish to receive the list of eligible ISINs or further guidance on testing possibilities.

Kind Regards,
SA Client Service team
