SA Business Continuity - LCH SA Disaster recovery test on Saturday 22 April 2017

22 March 2017

Dear SA Repoclear Members

LCH SA is pleased to announce that its annual disaster recovery test will be held on Saturday 22 April 2017.

The objective of this test is to validate the effectiveness of LCH SA Business Continuity Management and demonstrate its ability to recover all critical clearing activities by switching over from the primary Data Center (DC) to the secondary DC with no negative effects (no data loss) within the targeted time frame of 2 hours. Completeness of this test includes involvement of clearing members and other market participants.

Repoclear Members are strongly advised to take part in this test and are asked to register before **10 April 2017**.

Main features:

- Markets: SA Repoclear & €GCPlus
- Environment: Production
- Scenario: LCH SA will simulate a crash on the primary Data Center after the opening of the real time session
- Business Date: cleared trades on business activity from Friday 21 April 2014
- Communication to Members: during the test, members will be informed on the progress made on a regular basis.

Participants' role:

- Participation of member during the crash simulation from approximately 10:00AM to 4:00PM CET on Saturday 22 April 2017.
- Trade reception and positions management (before the crash and after the recovery)
- Confirm access to Production and Disaster Recovery following the DR activation.

A more detailed scenario will be provided to all registered participants in a timely manner.

Registration:

Should you confirm your interest in participating to the test or to require additional information, please email or contact your account manager.

Kind Regards,
