

OPERATIONS

4 June 2015

**Reminder – AtomX / Flex contracts and additional intraday series cycles  
- UPDATE**

Dear Clearing Members,

Further to our latest communication regarding the launch of the Flex contracts sent on 18 May 2015([click here](#)), LCH.Clearnet SA is pleased to provide you with the attached:

- Updated presentation explaining the new service and the main changes 'Launch of the Flexible Contracts – June 2015'
- Revised and final version of Member report description files

The main additional technical enhancements since last communication concern the **OPEJ files** (specifically the J0 and J1) **and the referential instrument files**:

- **For the J0 file:** the change will impact the EXAS and EAVR records – type E and A
- **For the J1 file:** the change will impact the following records ALLO, EXAS,EAVR – type E and A for both EXAS and EAVR records
- **The referential instrument files** main changes will be on the business rules detailed in the attached document.

All documents can be found under LCH.Clearnet SA web secure area ([click here](#)).

The Operations Department remains at your disposal for any information or assistance.

Best regards.
