LCH Limited (the "Company") is a wholly owned subsidiary of LCH Group Holdings Limited and is a member of the LCH group of companies. The Company's ultimate parent is London Stock Exchange Group plc ("LSEG" or "the Group").

LCH LIMITED STRATEGIC REPORT

BUSINESS MODEL

The Company's principal activity during the year continued to be the provision of central counterparty ("CCP") and related services to clearing members as a part of the LCH group.

The Company is a leading multinational clearing house. The Company provides services to mitigate counterparty risk across multiple asset classes for clearing members and their clients, operating through an open access model that clears for major exchanges and platforms as well as a range of over-the-counter ("OTC") markets.

As a CCP, the Company sits in the middle of trades as the buyer to every seller and the seller to every buyer. If either party defaults on the trade, the Company owns the defaulter's risk and becomes accountable for its liabilities. Fundamental to the Company's risk processes is its collection of quality collateral from clearing members and clients as insurance to recover or replace defaulted risk. During the life of a trade, or that of a portfolio of trades, the Company processes all cashflows and marks the trade or book to market, calling variation and initial margin in relation to the prevailing risk of the overall portfolio.

The Company earns its revenue in the OTC derivatives markets by charging members either an annual fee for all clearing or a lower annual fee with variable fees based on volume. Additional fees are levied for services such as compression. Clients pay a fee based on OTC volumes or values cleared. In non-OTC markets, all users pay a fee based on volumes cleared. Net treasury income is earned on cash held for margin and default funds.

The Company continues to satisfy the requirements of the Bank of England as a Recognised Clearing House in the United Kingdom; details of all other regulatory bodies to whose rules it is subject, can be found in note 25. It provides CCP clearing services in respect of a broad range of cash and derivative products traded on or through various exchanges and trading platforms in the UK, Europe, Asia, and the US as well as those traded in the OTC markets.

STRATEGIC OBJECTIVES

The Company's strategic objectives are to:

- provide market leading risk management and clearing solutions;
- manage our members' and clients' risk by providing effective and efficient clearing services; and
- promote a safe and stable financial market foremost in all that we do.

The Company's Board annually sets detailed Corporate Strategic Objectives ("CSOs") and uses these as a mechanism for monitoring and achieving the Company's objectives. The CSOs focus on the Company continuing to offer our proven risk management capabilities across a range of asset classes with a commitment to partner with our members to develop the services that make markets more efficient, resilient, and safe.

STRATEGIC REPORT

KEY PERFORMANCE INDICATORS

Financial and non-financial key performance indicators ("KPIs") utilised by the directors to measure progress are as follows:

	2022	2021	Variance
SwapClear			
IRS Notional cleared (US\$ trillion)	1,091	921	+18%
SwapClear members	124	123	+1%
Client trades ('000)	2,684	2,180	+26%
Client average 10-year notional equivalent (US\$ trillion)	3.7	4.2	-12%
ForexClear			
Notional cleared (US\$ trillion)	24.7	21.7	+13%
RepoClear			
Nominal cleared (€ trillion)	55	43	+28%
EquityClear			
Trades cleared (million)	1,609	1,389	+16%
Non-cash collateral			
Average non-cash collateral (€ billion)	138	133	+4%
Net Treasury Income			
Average cash collateral (€ billion)	107	81	32%

Discussion of KPIs is included in the development and performance section below.

DEVELOPMENT AND PERFORMANCE

Total income was up 15% to €818.2 million (2021: €712.1 million) with good revenue performance from client clearing fees & net treasury income. Client clearing fees were up 16% due to higher volumes on market activity and net treasury income was €216.6 million (2021: €171.1 million) and up 27% due to higher average cash collateral balances.

OTC derivatives clearing revenue was up 8% to €402.4 million (2021: €340.1 million). Non-OTC clearing revenue was €41.6 million (2021: €42.1 million), with a good clearing performance in RepoClear offset by lower fail fees in EquityClear.

Other fee revenue, which includes compression services, fees for managing non-cash collateral and pass-through cost, decreased by 2% to €134.3 million (2021: €137.7 million)

Operating expenses were up 1% to €196.3 million (2021: €193.8 million) on an underlying basis, reflecting good cost management and balanced investment.

SWAPCLEAR

SwapClear is the global market leader for OTC Interest Rate Swap ("IRS") clearing, offering access to a deep pool of liquidity across 27 currencies.

STRATEGIC REPORT

SWAPCLEAR (cont)

In 2022, SwapClear continued to support the markets without interruption through significant ongoing market volatility and high trading volumes. Total notional cleared was US\$1.1 quadrillion (2021: US\$0.9 quadrillion) rising 18% year-on-year, with clearing of inflation swaps reaching a record notional high of \$9.3 trillion in 2022. Client trades increased by 23% to 2,684,000 (2021: 2,180,000). In 2022, US\$794 trillion (2021: US\$608 trillion) in notional, and 6.6 million (2021: 4.9 million) trades were compressed over the period, enabling members and their clients to benefit from capital and operational efficiencies. As testament to the progress made in the transition to risk-free rates (RFRs), cleared swap liquidity has grown considerably over the last 12 months – with over 80% of all new USD swap risk cleared at SwapClear now SOFR-based versus less than 10% in Q2 2021. SwapClear has also supported the move to RFRs in the Nordics by extending clearing eligibility to SWESTR (Swedish krona short-term rate) overnight index swaps (OIS) and is the first to launch the clearing of DESTR (Denmark short-term rate) OIS. Over the year, SwapClear continued to grow across Asia, registering a nearly 30% year-on-year increase in notional cleared in APAC currencies, and welcoming DBS Bank as its first direct member in Singapore.

FOREXCLEAR

ForexClear continued to demonstrate growth in 2022, with US\$25 trillion cleared across the service, up from US\$22 trillion in 2021. US\$1 trillion in deliverable options notional was cleared through ForexClear for the first time in a single calendar year, up 59% from US\$0.6 trillion in 2021. Growth is expected to continue with the service having launched clearing for USD/JPY and EUR/JPY FX Options. US\$514 billion was cleared by clients in 2022, up 112% from US\$243 billion in 2021. In May 2022, ForexClear and its divisional partners within LSEG, announced plans to launch the non-deliverable forwards ("NDF") matching platform in Singapore. The integration of clearing into the design of the NDF matching platform creates a trading platform where market participants can decide on a pre-trade basis to clear their NDFs. The platform is due for launch in H2 2023. ForexClear also processed its first client trades through FXall and FX Connect TradeNeXus. More than 50 clients are now live, including Schroders, the first European asset manager to clear with ForexClear.

REPOCLEAR

In 2022, RepoClear saw a year-on-year volume increase of 29% with €55 trillion of UK Gilt nominal cleared (2021: €43 trillion) across 1.4 million trade sides, an increase of 20% on prior year. There are now 31 Sponsored Members (2021: 27) for clearing of UK Gilts in RepoClear, with peak open outstanding volume growing over 25% in 2022.

EQUITYCLEAR

EquityClear demonstrates our commitment to an open access approach, clearing for more than 16 venues across 20 CSDs (central securities depositories). The number of trades cleared (excluding interoperability trades) in 2022 increased by 15% to 1.6 billion (2021: 1.4 billion). EquityClear services of LCH Ltd (including interoperable trades) has cleared a record 2.2 billion trade sides in 2022, also up 15% on prior year.

NET TREASURY INCOME

The increase in net treasury income in 2022 was largely driven by the increase in average cash collateral held, which rose by 32% to €107 billion (2021: €81 billion), which in turn is primarily driven by volumes cleared and market volatility during the year.

LCH LIMITED STRATEGIC REPORT

SECTION 172(1) STATEMENT

Section 172 of the Companies Act 2006 requires a director of a company to act in the way he or she considers, in good faith, would most likely promote the success of the company for the benefit of its members as a whole. In doing this, section 172 requires a director to have regard, amongst other matters, to the:

- likely consequences of any decisions in the long-term;
- interests of the company's employees;
- need to foster the company's business relationships with suppliers, customers and others;
- impact of the company's operations on the community and environment;
- desirability of the company maintaining a reputation for high standards of business conduct, and
- need to act fairly as between members of the company.

In discharging our section 172 duties we have regard to the factors set out above and give consideration to those factors when discharging those duties. We also have regard to other factors which we consider relevant to our decisions. Those factors, for example, include the interests and views of other key stakeholder groups, including our employees, members of our pension scheme, customers, suppliers and regulators. We acknowledge that every decision we make will not necessarily result in a positive outcome for all of our stakeholders, however, we do aim to make sure that our decisions are considered, informed and appropriate in the circumstances. The Board recognises that building strong relationships with our stakeholders will help deliver the Company's strategy in line with our long-term values and operate the business in a sustainable way.

The Company's key stakeholders are its workforce, customers and regulators. Our suppliers are also important stakeholders of the Company. The views of and the impact of the Company's activities on those stakeholders are important considerations for the directors when making relevant decisions. While there are cases where the Board itself judges that it should engage directly with certain stakeholder groups, as a majority-owned subsidiary of London Stock Exchange Group plc ("LSEG"), it also benefits from certain engagement practices that take place at the LSEG level. For details of the engagement that takes place with stakeholders at the LSEG level, please refer to the London Stock Exchange Group plc Annual Report for the financial period ended 31 December 2022.

As is normal for large companies, the Board delegates authority for day-to-day management of the Company to the executives and then engages management in setting, approving and overseeing execution of the business strategy and related policies. During the period we received information to help us understand the interests and views of the Company's key stakeholders and other relevant factors when making decisions. Financial and operational performance, customer-related matters and legal and regulatory compliance are reviewed by the Board at each meeting, and during the course of the financial year other matters including the Company's business strategy, key risks (including risks relating to the Russia/Ukraine crises and subsequent sanctions, reference rate reform, equivalence, cyber risk and the Company's risk appetite), operational resilience and workforce matters (including culture, wellbeing, diversity and pensions) were considered and discussed at the Board level based on reports and presentations submitted to the Board or through one of its sub-committees. As a result of this we have had an overview of engagement with stakeholders and other relevant factors which allows us to understand the nature of stakeholders' concerns and to comply with our section 172 duty to promote the success of the Company.

In each Board pack, directors are provided with a memorandum reminding them of, and providing guidance in connection with, their duties and responsibilities, including those set out in section 172 (1)(a)-(f). We set out below some examples of how we have had regard to the matters set out in section 172(1)(a)-(f) when discharging our section 172 duty and the effect of that on decisions taken by us.

STRATEGIC REPORT

SECTION 172(1) STATEMENT (cont)

CUSTOMERS

The Board received updates on engagement exercises conducted with customers and clients to understand their concerns and priorities, including EU equivalence for UK CCPs and benchmark reform, including preparation for USD Libor conversion in 2023. The Board also received the results of a LCH brand engagement survey that highlighted areas where further engagement and support by the Company would be welcomed by its customers and clients.

In addition, representatives of clearing members, and shareholders of LCH group sit on the Company's Board, providing them with a channel to provide feedback directly to the directors. Representatives of clearing members and clients sit on the Board's Risk Committee, which acts as a forum for consultation on recommendations to be made to the Board on risk matters

The Board received regular updates on Russian sanctions to ensure the Company was applying heightened scrutiny and regular dialogue with customers, especially who had significant Russian exposure. The Board also received updates on engagement with stakeholders via dedicated industry working groups.

REGULATORS

During the year, members of the Board engaged with the Company's regulators to further foster relationships with them and to better understand their expectations on matters that are critical to our business. Topics included the Company's response to the sustained volatility in the market arising from the macro environment including the Russia/Ukraine conflict, rising inflation, energy costs and growing recession risks, operational resilience and EU equivalence for UK CCPs. Representatives from the Bank of England attended the Company's November 2022 Board meeting to present the conclusions of its annual risk review of the Company and to set out its supervisory workplan for the next twelve months.

WORKFORCE

Engagement with our workforce includes formal and informal meetings, an annual engagement survey and town hall meetings to keep the workforce up-to-date on business developments and financial and economic factors affecting the Company's performance. Many of these interactions provide a forum in which employees can ask and management can answer questions.

During the year, the Board received an update on the actions being taken to ensure the wellbeing of staff whilst they worked in a new hybrid model. The Board also received the results of the LSEG Engage survey in which the Company's employees were invited to participate. The survey sought employees' views on support, growth, feedback, strategy, mobility, leadership and action taking. Directors have also had opportunities to directly engage with management and other colleagues through their attendance at Board and committee meetings, where employee matters are aired and feedback from employee representatives is considered. During the course of 2022, a new initiative was put in place whereby a Graduate or High Potential Talent were invited to attend and observe a Board meeting.

Workforce engagement and activity is also supported by LSEG-led mechanisms, including the opportunity to participate in a share option scheme, details of which can be found in the London Stock Exchange Group plc Annual Report for the financial year ended 31 December 2022. This report also includes details on some of the engagement that takes place with the Company's workforce at a group level.

SUPPLIERS

The Board received regular updates during 2022 on its critical suppliers and outsourced services via reports to the Operational Resilience Committee from the Head of Outsourcing and Critical Supplier Oversight There was

STRATEGIC REPORT

no reported disruption to services provided to the Company, with all critical suppliers operating either fully or in part through remote or hybrid working practices.

SECTION 172(1) STATEMENT (cont)

DIVIDEND, CAPITAL ALLOCATION AND REGULATORY CAPITAL

Each year the Board makes an assessment of the strength of the Company's balance sheet and future prospects relative to uncertainties in the external environment. In doing so it has regard to the views of regulators as well as its shareholder. In 2022, the Board recommended and paid a final ordinary dividend of €247m to its shareholder LCH Group Holdings Limited. On 23 February 2023, the Board of directors proposed a dividend of €0.9328 per ordinary share (€292 million), pending regulatory review.

In making this decision the Board considered a range of factors including: the Dividend Policy; the long-term viability of the Company; its expected cash flow and financing requirements; regulatory capital requirements; commitments to the Company's pension scheme; the ongoing need for strategic investment in the business and our workforce; and the expectations of our shareholder and regulators. The Board monitors the Company's regulatory capital position as required under EMIR and carries out stress tests against its Medium Term Financial Plan to ensure that it remains sufficiently capitalised under those rules.

ANNUAL REVIEW OF THE COMPANY'S BUDGET AND BUSINESS PLAN

The Board carries out a review of the Company's budget on an annual basis. This includes approving the business plan for the following three years. In 2022, the Board's review included a review of progress against 2022 strategic priorities and the Company's long-term strategic goals. The review also focused on investment decisions around Technology and Staff to drive business growth and maintain the Company's resilience and regulatory priorities as well as commercial initiatives.

This review is carried out in parallel to LSEG's divisional budget process. All financials are aligned to the numbers presented to the LSEG Board annually in December.

In making its decision to approve the business plan and future strategy of the Company, the Board also considered amongst other things, its impact on the long-term position of the Company as well as feedback from engagement exercises with the workforce and dialogue with customers and regulators.

RISK GOVERNANCE FRAMEWORK MANAGEMENT

As described in the Corporate Governance Report, the Company has a adopted a Risk Governance Framework (RGF) which the Board reviews on an annual basis. In 2022 the Board approved a number of enhancements, building on those approved in 2021 including; a full review and expansion of the risk taxonomy, refreshed risk definitions and appetite statements, enhanced explanation of reporting of risk appetite using Risk Indicators and Risk Assessment grid.

In making its decisions the board considered, amongst other things, observations and feedback from its regulators and concluded the changes were in the best interests of its Customers and Shareholders, ensuring the Company maintains a robust and prudent risk management framework to provide Clearing Members with a central counterparty of the highest quality and to safeguard the interests of the company's shareholders and contributors to its Default Funds.

OPERATIONAL RESILIENCE FRAMEWORK ATTESTATION

In March 2022, the Board approved its first annual self-assessment attestation of the Company's Operational Resilience Framework, in accordance with the requirements of the Bank of England's Operational Resilience Policy Statement issued in March 2021. In making its decisions, the Board considered amongst other things, observations and feedback from its regulators on the Company's approach to Operational Resilience, as well as

SECTION 172(1) STATEMENT (cont)

wider industry best practice. In addition, the Board considered whether the range of extreme but plausible disruption scenarios for testing its important business services against impact tolerances were sufficiently robust and focused on providing continuity of service to the Company's Clearing Members and Clients, thereby avoiding intolerable harm to its stakeholders.

PAYMENT PRACTICES

The Company is required to report its supplier payment performance and policies as part of the Small Business, Enterprise and Employment Act 2015. On a half yearly basis, the Board approves the required information which includes: the average time to pay (days), percentage of invoices paid within 30 and 60 days (respectively), invoices paid later than 60 days and invoices not paid within agreed terms. This information is published on a government portal every six months and allows current and prospective suppliers to see the Company's payment policy, practice and performance, which could help reduce the administrative and financial burden companies face when not paid on time. The Board continue to encourage Management to make sure suppliers are paid promptly.

PRINCIPAL RISKS AND UNCERTAINTIES

The Company's activities expose it to a number of risks, principally market risk (financial market volatility, interest rate risk, foreign exchange risk), sovereign risk, credit risk, liquidity risk, operational risk, regulatory risk, and capital risk. The Company manages these risks through various control mechanisms and its approach to risk management is to be prudent yet responsive to changes in the risk environment.

Note 2 provides descriptions of these risks and details the means by which the Company mitigates them.

Details of the Company's capital management processes are provided in note 25.

By order of the Board:

C. P. Aday

Laurence Philip Adams Chairman

28 February 2023

DIRECTORS' REPORT

The directors of LCH Limited, registered in England and Wales with company number 00025932, present their report to the shareholder, together with the audited financial statements for the year ended 31 December 2022.

DIRECTORS

The current directors and changes made during the year ended 31 December 2022 and subsequently are detailed on page 1.

DIRECTORS' LIABILITIES

Directors are entitled to be indemnified by the Company against all costs, charges, losses, and liabilities incurred by them in the proper exercise of their duties. Directors who have resigned during the year may also benefit from the same indemnity arrangement.

STATEMENT OF DIRECTORS' RESPONSIBILITIES

The directors are responsible for preparing the strategic report, directors' report, and financial statements in accordance with applicable United Kingdom law and UK adopted International Accounting Standards (IAS).

Under company law the directors must not approve the financial statements unless they are satisfied that they present fairly the financial position, financial performance and cashflows of the Company for that period. In preparing the financial statements the directors are required to:

- select suitable accounting policies in accordance with IAS 8, Accounting Policies, Changes in Accounting Estimates and Errors, and then apply them consistently;
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable, and understandable information;
- provide additional disclosures when compliance with specific requirements in IAS is insufficient to
 enable users to understand the impact of particular transactions, other events and conditions on the
 Company's financial position and financial performance;
- state that the Company has complied with IAS, subject to any material departures disclosed and explained in the financial statements; and
- make judgements and estimates that are reasonable and prudent.

The directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

TRANSACTIONS WITH DIRECTORS AND RELATED PARTIES

Details of transactions with related parties are set out in note 26. There were no transactions, other than those disclosed in note 19, with directors during the year.

DIRECTORS' REPORT

STAFF

It is the policy of the Company as a whole to ensure that no staff members or job applicants face discrimination on the grounds of ethnic origin, colour, religion, gender, sexual orientation, age, or disability. The Company encourages and assists employees with a disability with training, career development and promotion opportunities, and where existing employees become disabled, our policy is to provide continuing employment and training wherever possible. Staff involvement is encouraged through regular meetings and information is shared with staff through web-based communication. The Company recognises its responsibilities to provide a safe working environment for its staff and measures are in place to ensure that the appropriate health and safety at work regulations are strictly observed in all workplaces.

EMPLOYEE AND STAKEHOLDER ENGAGEMENT

For details of the Company's employee and stakeholder engagement, please see the section 172(1) statement in the strategic report on page 5.

CORPORATE RESPONSIBILITY

The Company, as a subsidiary of LSEG, has a zero-tolerance approach to modern slavery. A 'Slavery and Human trafficking statement' is published on LSEG's website (https://www.lseg.com/about-london-stock-exchange-group/corporate-responsibility/modern-slavery-act-statement) that describes the action plan and future steps to be taken to improve supply chain management and procurement processes and procedures.

Other policies relating to the Company's corporate responsibility are also published on the website.

DIVIDENDS

On 23 June 2022, the Board of directors paid a final dividend of €0.7890 per ordinary share (€247 million).

On 23 February 2023, the Board of directors proposed a dividend of €0.9328 per ordinary share (€292 million), pending regulatory review.

FINANCIAL INSTRUMENTS

Details of the Company's financial instruments are provided in note 20.

GOING CONCERN AND LIQUIDITY RISK

The directors have made an assessment of the Company's ability to continue as a going concern and to meet current and future regulatory capital. This has been done using the Company's Budget and Medium Term Financial Plan ("MTFP"), sensitivity analysis and stress and reverse testing possible scenarios. The impact of the current inflationary market conditions and increased interest rate volatility has been considered as part of this assessment. The Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for 12 months from the date when these financial statements are authorised for issue. Contracts for the majority of the exchanges for which the Company clears have a notice period of at least 1 year. The Company has a large number of clearing members and is not unduly reliant on any single clearing member or group of clearing members.

On 8 February 2022, the European Commission published in the Official Journal an Implementing Decision (EU) 2022/174 determining that, for a limited period of time, the UK framework applicable to CCPs is equivalent to the EU framework. This equivalence decision extends the current equivalence until 30 June 2025. On this basis, on 25 March 2022, ESMA announced the recognition of LCH Limited as a Tier 2 CCP under the EMIR 2.2 supervisory framework, in line with the temporary equivalence decision. As such LCH Limited will continue to be directly subject to the requirements of EMIR and to ESMA supervision.

LCH LIMITED DIRECTORS' REPORT

GOING CONCERN AND LIQUIDITY RISK (cont)

From a customer perspective, this means no change either in standards or day-to-day operations. All processes and services remain unchanged.

The directors have further considered the impact of continued developments in Europe and the impact of existing and new sanctions that could be placed on Russian businesses in the markets the Company operates in. The directors do not expect these to have a material impact on the Company's going concern assessment and will continue to monitor the situation closely. From an operational perspective, the Company has processes in place to ensure compliance with such sanctions.

Furthermore, the directors are not currently aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis.

EVENTS AFTER THE REPORTING PERIOD

There were no significant events after the reporting period.

CORPORATE GOVERANCE CODE

LCH Limited is committed to high standards of corporate governance. As a recognised CCP, it is required to comply with regulatory requirements in the UK and in other relevant jurisdictions. These regulatory requirements include compliance with UK EMIR, and EMIR 2.2 which prescribe, amongst other things, minimum standards for governance arrangements. As such, the Company did not formally adopt a specific corporate governance code during the financial year.

In accordance with UK EMIR and EMIR 2.2 the key components of the governance arrangements of a CCP include the following:

- the composition, role and responsibilities of the Board and any Board committees;
- the roles and responsibilities of management;
- the senior management structure;
- the reporting lines between senior management and the Board;
- the procedures for the appointment of Board members and senior management;
- the design of the risk management, compliance and internal control functions;
- the processes for ensuring accountability to stakeholders.

BOARD COMPOSITION, ROLES, RESPONSIBILITIES AND APPOINTMENTS

The Board comprises 12 directors including: a Chair who is independent on appointment, two executive directors (the CEO and the LCH Group CEO), four independent non-executive directors in addition to the Chair (who meet the independence criteria defined by UK EMIR and EMIR 2.2) (the 'INEDs'), five non-executive directors (four of which represent shareholder of LCH Group Holdings Limited). As at 31 December 2022 there was one vacancy in the process of being filled for a non-executive director representing a shareholder of LCH Group Holdings Limited.

EMIR and EMIR 2.2, one third of the Board is required to be independent. Names of the directors who served during the financial year are listed on page 1. Biographies for each of the current directors are available on the LCH website.

All non-executive director appointments to the Board are overseen by the Company's Nomination Committee. The Nomination Committee ensures that recommended candidates are respected for their competence and are of good standing in their respective fields of business. The Nomination Committee also takes into account diversity, including age, gender, ethnicity, geographic provenance, education and professional background

DIRECTORS' REPORT

CORPORATE GOVERANCE CODE (cont)

when recommending candidates for appointments. Collectively the Board members have appropriate skills, ranging from, but not limited to, accounting, operations, technology and risk management.

All INED appointments are made subject to the non-objection of the Bank of England and INED appointees are limited to serving a maximum of three three-year terms.

All new directors receive an induction, tailored to their experience and knowledge. Additional training and deep dive sessions are also provided during the course of the year or at the Board's request.

The Board is responsible for the Company's overall management and the establishment of clear objectives and strategies, and tracks progress throughout the year. The Company's current objectives are:

- to provide market leading risk management and clearing solutions;
- · to manage our members' and clients' risk by providing effective and efficient clearing services; and
- to promote a safe and stable financial market foremost in all that we do.

The strategy for achieving these objectives is to continue to offer the Company's proven risk management capabilities across a range of asset classes with a commitment to partner with our members to develop the services that make markets safe and more efficient.

The Board assesses the Company's performance against its objectives through regular business and risk management reviews, with a programme of five scheduled Board meetings every year. Additional ad-hoc meetings are scheduled as required. Each year the Board approves the Company's Corporate Strategic Objectives and monitors progress throughout the year.

In addition to the Nomination Committee, the Board has an Audit Committee and a Remuneration Committee, as well as an advisory Risk Committee and an Operational Resilience Committee (OR Committee). All subcommittees are chaired by an INED. With the exception of the Risk Committee, the majority of each Board subcommittee is composed of INEDs. The composition of the Risk Committee is governed by UK EMIR and EMIR 2.2 and includes representatives of Clearing Members and Clients, with no one constituent of the Risk Committee having a majority. The roles and responsibilities of each of the Board's sub-committees is set out in their respective terms of reference. Any changes to the terms of reference of any of the committees are approved by the Board. The terms of reference and composition of each Board sub-committee is available on the LCH website.

The Board has approved a Schedule of Reserved Matters that clearly sets out its role and responsibilities in supporting the achievement of the Company's objectives. A copy of the Schedule of Reserved Matters is available on the LCH website.

The Board regularly undertakes assessments of its own performance, including from time to time externally facilitated Board Effectiveness Reviews. These reviews include consideration of the performance of Board members, the Chair, and the Board's behaviours and culture. The Board has a statement of behaviours which includes upholding the highest standards of integrity and probity and instilling appropriate culture, values and behaviours in the boardroom and throughout the Company.

The Company's Articles of Association set out the obligations on LCH Limited's directors to disclose any potential conflicts of interest to the other directors, as well as the actions which may be taken to mitigate such conflicts as they arise. The Board makes an annual declaration of potential or actual conflicts of interest.

MANAGEMENT ROLES, RESPONSIBILITIES AND STRUCTURE

The Board has delegated responsibility for the day-to-day management of the Company to the LCH Limited CEO as set out in the LCH Limited Executive Delegation. The CEO has established a Management Team, as an advisory

LCH LIMITED DIRECTORS' REPORT

CORPORATE GOVERANCE CODE (cont)

forum to provide advice and recommendations in order to discharge such responsibility. The CEO has the power to delegate such authority to such LCH Limited employees as appropriate and necessary.

In addition to the Management Team, other executive committees have been established including an Operating Committee, Rule Change Committee, Executive Risk Committee and Executive Risk Resilience Committee.

The Company's senior management is responsible, in general, for ensuring consistency of LCH's activities with the LCH Limited Board's objectives and strategy, as well as LSEG's values. Senior management establish appropriate internal controls, which are subjected to regular review and testing, and ensure sufficient resources are devoted to risk management and compliance.

The Company's management team is made up of experienced professionals, taking responsibility for distinct areas of the operation, risk management and control of the CCP. In separating responsibilities, LCH Limited has management in place with the necessary expertise for each area and maintains the mix of skills required for the operation and risk management of the CCP.

LCH Limited ensures that its management has the necessary expertise by following a vetting policy and framework which sets rigorous pre-employment screening for all prospective LCH Limited employees; the vetting process is carried out in line with industry benchmarks and according to the roles that the employees perform. The range of vetting required varies based on factors such as the risk level and grade level of the role that the individual is being offered. Additional vetting is performed for senior management roles to ensure that candidates are of sufficiently good repute and have sufficient experience to ensure sound and prudent judgement within their roles.

The Board is responsible for the oversight of the Company's Chief Compliance Officer, Internal Audit function and Chief Risk Officer all of whom report directly to the Board. The LCH Limited Head of Internal Audit reports directly to the Chair of the LCH Limited Audit Committee.

LCH Limited has four branches/representative offices in the following locations; US, Australia, Japan, and Singapore.

Risk Management

The LCH Limited Board has adopted a Risk Governance Framework, setting out the risks facing the Company, its tolerance for these risks, the personnel with responsibility for each risk, and has defined reporting requirements for each risk. The Risk Governance Framework requires that a comprehensive risk policy framework is maintained which identifies how each risk is managed to the Board's standards and tolerance levels. The framework comprises a suite of risk policies, each of which is annually reviewed by the LCH Risk Committee and, where appropriate, the Operational Resilience Committee, before being submitted for approval to the LCH Limited Board.

The risk management function is responsible for putting the Risk Governance Framework into practice and making reports to the Board, the Risk Committee, the Audit Committee and where appropriate, the Operational Resilience Committee.

Accountability to stakeholders

LCH Limited provides accountability to owners, participants and other relevant stakeholders by including users, customers, clearing members and client representatives in governance forums. LCH's clearing services run Product Advisory Groups and Risk Working Groups where participants are able to comment on proposed changes to markets, products and services, risk policies, models and frameworks. In addition, clearing members and clients of clearing members are represented on the LCH Limited Board Risk Committee, where all risk policies, and material new business proposals and service changes are reviewed prior to their submission to the

DIRECTORS' REPORT

CORPORATE GOVERANCE CODE (cont)

Board for approval and where all risk decisions made by the Executive under delegated authority of the Board are notified.

Management and members of the Board meet with the Company's regulators during the course of the year and proactively engage to facilitate strong relationships and understand their expectations that are critical to our business.

Remuneration

The Remuneration Committee works with the LSEG Remuneration Committee ("LSEG RemCo") to oversee the Company's remuneration policies.

In determining its remuneration policies, the Company monitors developments in the wider marketplace and consults and work with key stakeholders (including, but not limited to its regulators and the LSEG RemCo) on any key decisions taken.

The Company undertakes to reward all employees fairly, regardless of job function, race, religion, colour, national or ethnic origin, sex, sexual orientation, marital status, pregnancy, maternity, disability or age.

It is the Company's policy to operate competitive remuneration policies so as to attract, retain and motivate an appropriate workforce for its ongoing success. The Company is also committed to ensuring that its remuneration practices are aligned to performance, promote sound and effective risk management and do not create incentives to relax risk standards. In all cases, remuneration will be in line with the corporate strategy, objectives, corporate competencies and long-term interests of the Company and LSEG.

It is the policy of LCH Limited to comply with any and all regulatory frameworks which apply to the remuneration of any of its employees.

The Company's remuneration policy aims to encourage responsible business conduct and ensures that employees are not remunerated in a way that conflicts with their duty to act in the best interests of clients, members or participants.

DIRECTORS' STATEMENT AS TO DISCLOSURE OF INFORMATION TO AUDITORS

In the case of each of the persons who are directors of the Company at the date when this report was approved:

- so far as each of the directors is aware, there is no relevant audit information of which the Company's auditors are unaware; and
- each of the directors has taken all the steps that they ought to have taken as a director to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

DIRECTORS' REPORT

AUDITORS

Ernst & Young LLP have expressed their willingness to continue in office as auditors. They are deemed to be reappointed under section 487(2) of the Companies Act 2006.

By order of the Board:

Laurence Philip Adams

C. P. Aday.

Chairman

28 February 2023

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LCH LIMITED

OPINION

We have audited the financial statements of LCH Limited (the "Company") for the year ended 31 December 2022 which comprise the Income Statement, the Statement of Comprehensive Income, the Statement of Financial Position, the Statement of Cash Flows, the Statement of Changes in Equity and the related notes 1 to 27, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and UK adopted international accounting standards.

In our opinion, the financial statements:

- give a true and fair view of the Company's affairs as at 31 December 2022 and of its profit for the year then ended;
- have been properly prepared in accordance with UK adopted International Accounting Standards; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

BASIS FOR OPINION

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

CONCLUSIONS RELATING TO GOING CONCERN

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the directors' assessment of the Company's ability to continue to adopt the going concern basis of accounting included:

- Obtaining an understanding of management's basis for use of the going concern basis of accounting through reviewing the going concern assessment and underlying forecasts and assumptions, and through inquiries of management and those charged with governance.
- Assessing the appropriateness of key assumptions made by management in the Company's business
 plan by comparing them to historical performance and challenging the achievability of budgeted
 growth. In assessing the reasonableness of management's key assumptions, we considered the trading
 environment, including the current state of the macro-economic environment, principal risks,
 uncertainties, and appropriate mitigating factors.
- Testing the clerical accuracy of management's going concern model including the relevant data used in stress testing scenarios.
- Evaluating the reasonableness of management's adverse forecasts by benchmarking the stress testing scenario assumptions against external data and evaluated the plausibility of management actions available to mitigate the impact.
- Evaluating the level of liquidity of the Company to support ongoing requirements.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LCH LIMITED

• Assessing the appropriateness of the going concern disclosures and their compliance with UK adopted international accounting standards.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's ability to continue as a going concern for a period until at least 31 March 2024, being no less than twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Company's ability to continue as a going concern.

OTHER INFORMATION

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

OPINIONS ON OTHER MATTERS PRESCRIBED BY THE COMPANIES ACT 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and directors' report have been prepared in accordance with applicable legal requirements.

MATTERS ON WHICH WE ARE REQUIRED TO REPORT BY EXCEPTION

In light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LCH LIMITED

RESPONSIBILITIES OF DIRECTORS

As explained more fully in the directors' responsibilities statement set out on page 9, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the entity and management.

Our approach was as follows:

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the Company and determined that the most significant are the Companies Act 2006, Financial Services and Markets Act 2000, European Markets Infrastructure Regulations and tax legislation (governed by HM Revenue and Customs).
- We understood how the Company is complying with those frameworks by making enquiries of senior management, including the Chief Financial Officer, the General Counsel, the Chief Risk Officer, the Head of Compliance, the Head of Internal Audit, and those charged with governance. We also reviewed significant correspondence between the Company and regulatory bodies, reviewed minutes of the Board, Risk Committee and gained an understanding of the Company's approach to governance, demonstrated by the Board's approval of the Company's governance framework and the Board's review of the Company's risk management framework and internal control processes.
- We assessed the susceptibility of the Company's financial statements to material misstatement, including how fraud might occur by considering the risk of management override to be a fraud risk. We considered the controls that the Company has established to address risks identified by the Company, or that otherwise seek to prevent, deter or detect fraud. We also considered performance and incentive plan targets and their potential to influence management to manage earnings or influence the perceptions of key stakeholders.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF LCH LIMITED

- Based on this understanding we designed our audit procedures to identify non-compliance with such laws and regulations. Our procedures involved journal entry testing and inquiries of senior management, internal audit, and those responsible for legal, risk and compliance at the Company. We then corroborated our enquiries through review of board and committee minutes, whistleblowing log, company policies and correspondence with relevant regulatory authorities.
- The Company is a recognised UK central clearing counterparty (CCP) regulated by the Bank of England. As such, the Senior Statutory Auditor reviewed the experience and expertise of the engagement team to ensure that the team had the appropriate competence and capabilities, which included the use of experts where appropriate.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

USE OF OUR REPORT

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Stephen Littler (Senior statutory auditor)

for and on behalf of Ernst & Young LLP, Statutory Auditor

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

1. BASIS OF PREPARATION AND ACCOUNTING POLICIES

BASIS OF PREPARATION

These financial statements have been prepared in accordance with UK adopted International Accounting Standards (IAS).

No standards have been early adopted during the year.

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

The financial statements are prepared under the historical cost convention as modified by the revaluation of assets and liabilities held at fair value and on the basis of the Company's accounting policies.

The Company uses a columnar format for the presentation of its income statement. This provides the reader with supplemental data relating to the financial condition and results of operations. The Company presents profit for the year before any non-underlying items as this gives an indication of its ongoing sustainable performance. Some items of income and expense that are material by their size and/or nature are not considered to be incurred in the normal course of business and are classified as non-underlying items on the face of the income statement within their relevant category. Underlying profit is reconciled to profit before taxation on the face of the income statement.

The Company is a private limited company, limited by shares incorporated and domiciled in England and Wales.

Going concern

The directors have made an assessment of the Company's ability to continue as a going concern and to meet current and future regulatory capital. This has been done using the Company's Medium Term Financial Plan ("MTFP"), sensitivity analysis and stress testing possible scenarios. The directors are satisfied that it has the resources to continue in business for the foreseeable future until at least 31 March 2024, being no less than twelve months from when the financial statements are authorised for issue. Contracts for the majority of the exchanges for which the Company clears have a notice period of at least 1 year. It has a large number of clearing members and is not unduly reliant on any single clearing member or group of clearing members.

On 8 February 2022, the European Commission published in the Official Journal an Implementing Decision (EU) 2022/174 determining that, for a limited period of time, the UK framework applicable to CCPs is equivalent to the EU framework. The equivalence decision extends the current equivalence until 30 June 2025. On this basis, on 25 March 2022, ESMA announced the recognition of LCH Limited as a Tier 2 CCP under the EMIR 2.2 supervisory framework, in line with the temporary equivalence decision. As such LCH Limited will continue to be directly subject to the requirements of EMIR and to ESMA supervision. From a customer perspective, this means no change either in standards or day-to-day operations. All processes and services remain unchanged.

The directors have further considered the impact of recent developments in Europe and the impact of sanctions that could be placed on Russian businesses in the markets the Company operates in. The directors do not expect these to have a material impact on the Company's going concern assessment and will continue to monitor the situation closely. From an operational perspective, the Company has processes in place to ensure compliance with such sanctions.

Furthermore, the directors are not currently aware of any material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis

NOTES TO THE FINANCIAL STATEMENTS

The Company's financial statements are presented in Euros, which is the functional and presentation currency of the Company.

Judgements and estimates

Judgements and estimates are regularly evaluated based on historical experience, current circumstances and expectations of future events.

Estimates:

For the year ended 31 December 2022, the following areas require the use of estimates. These are areas identified as having estimation uncertainty that have a significant risk of causing material adjustments to the carrying amounts of assets and liabilities within the next financial year:

- The measurement of defined benefit pension obligations: measurement of defined benefit pension obligations requires estimation of inflation as well as mortality rates, the expected return on assets and the choice of a suitable discount rate (see note 19).
- The measurement of the clearing member balances. The Company nets significant balances where there is a legal right of offset and an intention to settle net and discloses the net balances in the statement of financial position. However, as the Company acts as principal in these trades and has an equal liability for every asset, there is no material risk to the net asset position of the Company, should these estimates prove to be inaccurate (see note 20).
- The measurement of intangible assets: The recoverable amounts of relevant assets and cash generating units are based on value in use calculations using management's best estimates of future performance and estimates of the return required by investors to determine an appropriate discount rate (see note 10).

Judgements:

In preparing the financial statements for the year ended 31 December 2022, the following judgements have been made:

- The Company uses its judgement to carry out the offsetting within clearing member balances. The carrying values of the balances are offset at what the Company considers an appropriate level to arrive at the net balances reported in the statement of financial position. The Company has aligned the basis of estimation for its CCP subsidiaries to ensure the principles are applied using a consistent methodology across similar assets and liabilities. The basis will be reviewed from time to time to ensure the approach used is the most appropriate.
- The Company uses its judgement and, where appropriate, engages third party experts to assess any obligations it may have as a result of uncertain tax positions with relevant tax authorities.
- The Company has recognised a pension asset on the LCH section of the UK LSEG pension fund. The Trust Deed provides the Company with an unconditional right to a refund of surplus plan assets on a winding up of the scheme and the Company believes this amount to be recoverable in current circumstances. Should the asset be derecognised, there would be no impact to the income statement, with all movements recognised in the statement of other comprehensive income. The recognition of the asset will be kept under review.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

RECENT ACCOUNTING DEVELOPMENTS

During the year, the following amendments to standards became effective. These do not have a material impact on the Company's financial statements:

- Amendments to IFRS 3 Business Combinations: reference to the Conceptual Framework
- Amendments to IAS 16 Property, Plant and Equipment: proceeds before intended use
- Amendments to IAS 37 Provisions, Contingent Liabilities and Contingent Assets: onerous contracts cost of fulfilling a contract
- Annual Improvements to IFRS 2018-2020

Standards, interpretations and amendments to published standards which are not yet effective

New and amended standards that are issued, but not yet effective, up to the date of the Company's financial statements are disclosed below. The Company intends to adopt these, if applicable, when these become effective. The Company is currently assessing the impact, but these are not expected to have a material impact on the Company's financial statements:

UK adopted International accounting standards and interpretations	Effective date
IFRS 17 Insurance Contracts, including amendments to IFRS 17 (and initial application of IFRS 17 and IFRS 9 Financial Instruments – comparative information)	1 January 2023
Amendments to IAS 1 Presentation of Financial Statements: classification of liabilities as current or non-current	1 January 2024
Amendments to IAS 1 and IFRS Practice Statement 2: disclosure of accounting policies	1 January 2023
Amendments to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors: definition of accounting estimate	1 January 2023
Amendments to IAS 12 Income Taxes: deferred tax related to assets and liabilities arising from a single transaction	1 January 2023
Amendments to IFRS 16: lease liability in a sale and leaseback	1 January 2024
Amendments to IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures: sale or contribution of assets between an investor and its associate or joint venture	Deferred indefinitely

ACCOUNTING POLICIES

Income Statement

Foreign currencies

Monetary assets and liabilities denominated in currencies other than the functional currency are translated into the functional currency of the entity at the rates of exchange ruling on the statement of financial position date and the resulting exchange differences are recorded in the income statement, except for differences arising on the pension assets or liabilities which are recognised in other comprehensive income.

Transactions in foreign currencies are recorded at the prevailing foreign exchange rates on the date of the transaction in the income statement and are not revalued.

Revenue recognition

Revenue is generated from clearing, settlement and other post trade services.

Clearing fee revenue is generated from transactions or contracts cleared and settled, reporting, as well
as risk and financial resources management services. Revenue is recognised when the service is
rendered on a per transaction basis, or in cases where there is a fixed annual fee, monthly in arrears,
in accordance with the Company's fee scales net of all applicable sales taxes.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

ACCOUNTING POLICIES (CONT)

• Other fee revenue comprises fees charged for compression services, non-cash collateral and other post trade services, which is recognised as revenue on a straight-line basis over the service period as this reflects the continuous transfer of services.

Revenue is shown net of discounts, sales taxes, pass-through costs, and certain revenue share arrangements. Presented within revenue on the face of the income statement are net settlement fees which are considered part of the core business trading operations.

Customer contracts across the Company that contain a single performance obligation at a fixed price do not require variable consideration to be constrained or allocated to multiple performance obligations. However, the Company also provides services to customers under a tiered and tariff pricing structure that generates a degree of variability in the revenue streams from the contract. Where the future revenue from a contract varies due to factors that are outside of the Company's control, the Company limits the total transaction price at contract inception and recognises the minimum expected revenue guaranteed by the terms of the contract. Any variable element is subsequently recognised in the period in which the variable factor occurs.

Fee income accrued, but not yet invoiced at the balance sheet date is shown as fees receivable within trade and other receivables.

Other income relates to recharges of services to other group companies.

Net Treasury Income

Total income recognised in the CCP clearing businesses includes net treasury income earned on cash assets lodged with the CCP as margin and default funds as part of the risk management process.

Net treasury income is the result of interest paid to members at an overnight benchmark rate minus a spread and investment beyond the benchmark rate.

Net treasury income is shown separately from revenue on the face of the income statement to distinguish it from revenues arising from other activities and provide a greater understanding of the operating activities of the Company.

Where negative interest rates apply, the Company recognises interest paid on cash assets as a treasury expense and interest received on clearing members' margin as treasury income.

Cost of sales

Items of expense that are directly attributable to creating a product or provide a service that directly generates revenue or has the ability to generate revenue are classified as cost of sales.

Revenue sharing arrangements - cost of sales

Revenue share costs relate to revenue share arrangements with clearing members where the revenue share is not limited to the amount of revenues receivable from the specific clearing members. As such these have been classified within cost of sales, as they arise, rather than as a deduction from revenue.

Where a liability has been created following the recognition of assets used to generate a revenue share, it will be recognised in the income statement on a systematic basis over the useful life of those assets and offset against the related revenue share costs.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

ACCOUNTING POLICIES (CONT)

Employee benefits

The Company operates defined benefit and defined contribution pension schemes for its employees.

The cost of providing benefits under the defined benefit plans is determined using the projected unit method. Under this method each participant's benefits under the schemes are estimated based on the total pension to which each participant is expected to become entitled at retirement. The liability is the total present value of the individuals' attributed benefits at the measurement date and is based on actuarial advice.

Past service costs are recognised in the income statement on a straight-line basis over the vesting period or immediately if the benefits have vested. When a settlement or a curtailment occurs, the change in the present value of the scheme liabilities and the fair value of the plan assets reflects the gain or loss which is recognised in the income statement.

The net interest amount charged to the income statement is calculated using actuarial assumptions fixed at the start of the annual reporting period and the defined benefit liability and asset value at the start of the annual reporting period adjusted for the actual contributions and benefit payments made during the period.

Actuarial gains and losses are recognised in full in the statement of comprehensive income in the period in which they occur. The defined benefit pension liability in the statement of financial position comprises the total for each plan of the present value of the defined benefit obligation (using a discount rate based on high quality corporate bonds that have been rated at AA or equivalent status), less the fair value of plan assets out of which the obligations are to be settled directly. Fair value is based on market price information, and in the case of quoted securities is the published bid market price.

Where the currency of the benefits will be recognised in a different currency from the functional currency of the employing company, any exchange differences arising on the asset or liability will be recognised in the statement of comprehensive income.

The contribution payable to a defined contribution plan is in proportion to the services rendered by the employees and is recorded as an expense in the income statement within employee benefits as incurred.

Share-based compensation

The Company operates share-based compensation plans for employees, settled in shares of the ultimate parent company, London Stock Exchange Group plc. The charge to the income statement is determined by the fair value of the options granted or shares awarded at the date of grant as an indirect measure of the value of employee services received by the Company and recognised over the relevant vesting period.

The share-based compensation plans are accounted for as equity settled. The Company does record a cost for these transactions, representative of the fact that the Company has received a capital contribution from LSEG which has been spent on share-based compensation, with the corresponding credit recorded in equity. A debit will then also be recorded in equity and an intercompany payable recorded reflecting the Company's investment.

Taxation

Income tax relating to items recognised directly in other comprehensive income is charged or credited as appropriate to other comprehensive income and there is no effect on profit for the year.

Current tax

Current tax assets and liabilities for current and prior periods are measured at the amount expected to be recovered from or paid to relevant taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the statement of financial position date.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

ACCOUNTING POLICIES (CONT)

Deferred tax

Deferred tax is provided using the liability method on temporary differences at the statement of financial position date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes using tax rates and laws enacted or substantively enacted by the statement of financial position date.

Deferred tax liabilities are recognised for all temporary differences. Deferred tax assets are recognised for all deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary differences can be utilised and it is not probable that the temporary differences will reverse in the foreseeable future.

Non-underlying items

Items of income and expense that are material by size and/or nature and are not considered to be incurred in the normal course of business are classified as non-underlying items on the face of the income statement within their relevant category. The separate reporting of these items together with any impairment of purchased intangible assets helps give an indication of the sustainable performance of the Company.

Statement of Financial Position

Intangible assets other than goodwill

Intangible assets other than goodwill are initially recognised at cost and are capitalised on the statement of financial position. Where assets are acquired as a result of a business acquisition or the negotiation of an operating agreement, fair values are attributed to the assets acquired. Following initial recognition, the assets are amortised at rates calculated to write off their cost on a straight-line basis over their estimated useful lives.

An internally generated intangible asset arising from the Company's business development is created if the asset can be identified, its cost measured reliably and it is probable that it will generate future economic benefits. Amortisation is charged from the date the developed product, service, process, or system is available for use. Self-developed software is generally amortised on a straight-line basis over periods between 3 and 5 years, occasionally it will be longer if applicable. Licenses for software acquired are amortised over 7 years.

Property, plant, and equipment

Property, plant, and equipment is initially recognised at cost, capitalised in the statement of financial position and is stated at cost less accumulated depreciation and accumulated impairment losses. Depreciation is provided on all property, plant and equipment at rates calculated to write off the cost, less estimated residual value based on current prices, of each asset over its expected useful life as follows:

- computer equipment and purchased software over 3 to 5 years
- office equipment and other fixed assets over 3 to 5 years

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in the income statement in the year the item is derecognised.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

ACCOUNTING POLICIES (CONT)

Impairment of intangible assets, and property, plant, and equipment

Intangible assets in the course of development are subject to an annual impairment review or a more frequent review if there are events or changes in circumstances that indicate that the carrying amount of the asset may not be fully recoverable. Other intangible assets and property, plant and equipment are subject to an impairment review if there are events or changes in circumstances that indicate that the carrying amount of the asset may not be fully recoverable.

For the purpose of impairment testing assets are allocated to cash generating units monitored by management. The impairment review involves a comparison of the carrying amount of the other asset allocated to the related cash generating units, with its recoverable amount, which is the higher of fair value less costs to sell and value in use. Fair value less costs to sell is calculated by reference to the amount at which the asset could be disposed of less the costs associated with the sale.

Value in use is calculated by discounting the expected future cash flows obtainable as a result of the assets continued use, including those resulting from its ultimate disposal, at a market based discount rate on a pre-tax basis. The carrying values of intangible assets or property, plant and equipment are written down by the amount of any impairment and this loss is recognised in the income statement in the year in which it occurs.

Financial instruments

Financial assets and liabilities are initially recognised at fair value on the date of recognition. The Company classifies its financial instruments as fair value through profit or loss (FVPL), fair value through other comprehensive income (FVOCI) or amortised cost. The classification depends on the Company's business model for managing its financial instruments and whether the cash flows generated are 'solely payments of principal and interest' (SPPI).

- a) Financial assets at amortised cost are financial assets that are held in order to collect the contractual cash flows and the contractual terms give rise to cash flows that are solely payments of principal and interest. This includes cash and cash equivalents, trade and other receivables, clearing member trading balances relating to certain collateralised transactions, and other receivables from clearing members of the CCP businesses.
 - After initial recognition these assets are measured at amortised cost using the effective interest rate method. Interest income from these financial assets is included in finance income. Any gain or loss arising on derecognition is recognised directly in the income statement and presented in other income or operating expenses together with foreign exchange gains and losses.
- b) Financial assets at fair value through other comprehensive income (FVOCI) debt instruments, are assets where the objective is achieved by both collecting the contractual cash flows or selling the asset. The contractual cash flows received are solely payments of principal and interest. This category includes quoted debt instruments (predominantly government bonds) held by the CCP businesses of the Company, which are used under the business model to both collect the contractual cash flows and to sell. Interest received from these assets is recognised in the income statement as finance income. Where negative interest rates apply, the interest is recognised in finance expense. Any accumulated profit or loss previously recognised in other comprehensive income is recycled to the income statement on derecognition of the asset.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

ACCOUNTING POLICIES (CONT)

- c) Financial assets at fair value through other comprehensive income equity instruments. The Company has irrevocably elected to recognise investments in equity instruments as FVOCI. All changes in fair value are recognised in other comprehensive income.
 - Dividends received from these investments are recognised in the income statement within other income when the right of receipt has been established. Accumulated gains or losses on equity instruments remain in equity on derecognition and are not recycled through the income statement.
- d) Financial assets at fair value through profit or loss (FVPL) include all other financial assets not classified as amortised cost or FVOCI. This category includes CCP businesses' clearing member trading balances comprising derivatives and equity and debt instruments that are marked to market on a daily basis. All gains and losses are recognised in the income statement within other income or expense.
- e) Financial liabilities at fair value through profit or loss (FVPL) are liabilities that must be held at fair value. This includes the CCP businesses' clearing member trading balances, comprising derivatives and equity and debt instruments, which are marked to market on a daily basis.
- f) Financial liabilities at amortised cost are all financial liabilities that are not included within financial liabilities at FVPL. This comprises the Company's trade and other payables, borrowings and other payables.

Impairment

The Company adopts a forward-looking approach to estimating impairment losses on financial assets. An expected credit loss (ECL) is calculated based on the difference between the contractual cash flows due and the expected cash flows. The difference is discounted at the asset's original effective interest rate and recognised as an allowance against the original value of the asset.

- a) Financial assets at amortised cost the ECL for trade receivables, contract assets and cash and cash equivalents is calculated using IFRS 9's simplified approach using lifetime ECL. The allowance is based on the Company's historic experience of collection rates, adjusted for forward looking factors specific to each counterparty and the economic environment at large to create an expected loss matrix.
 - The ECL on other financial assets held at amortised cost is measured using the general approach. The Company calculates an allowance based on the 12-month ECL at each reporting date until there is a significant increase in the financial instrument's credit risk, at which point the Company will calculate a loss allowance based on the lifetime ECL, as described below for FVOCI debt instruments. Impairment losses are recognised in the income statement within operating expenses.
- b) Financial assets at fair value through other comprehensive income debt instruments: the Company's financial assets held at FVOCI consist of [high-quality government bonds that have a low credit risk.] The Company's policy is to calculate a 12-month ECL on these assets. If there is a significant increase in credit risk, then a lifetime ECL will be calculated. A significant increase in credit risk is considered to have occurred when contractual payments are more than 30 days past due.
- c) Financial assets at fair value through other comprehensive income Equity instruments are revalued to fair value on a regular basis and no further impairment analysis is required.
- d) Financial assets at fair value through profit or loss (FVPL) no ECL is calculated for assets held at FVPL as any expected loss is already recognised in the fair value.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

ACCOUNTING POLICIES (CONT)

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

Cash and cash equivalents

Cash and cash equivalents comprise cash at bank, short-term deposits, and other instruments and structures that are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. These amounts relate to funds generated in relation to the operating activities of the Company and can be deposited with banks, including central banks, or invested securely in overnight reverse repurchase contracts (reverse repos).

Clearing business cash and cash equivalents represents amounts received from the clearing members to cover initial and variation margins and default fund contributions that are not invested in bonds. These amounts are deposited with banks, including central banks, or invested securely in overnight reverse repurchase contracts (reverse repos).

Default fund and margin deposits

Clearing members contribute to default funds managed by the CCP to guarantee the integrity of the markets in the event of multiple defaults in extreme market circumstances. Default fund contributions are paid by clearing members in cash and are recognised at fair value. Clearing members may elect to use cash or securities to cover initial margin requirements; realised variation margin may only be covered in cash. Members may pledge securities directly using a bilateral delivery mechanism. Cash initial margin, variation margin and default fund deposits are reflected in the statement of financial position as assets and liabilities.

The amount of margin deposits on hand will fluctuate over time as a result of, among other things, the extent of open positions held at any point in time by market participants in contracts and the margin rates then in effect for such contract.

Non-cash initial margin is not reflected in the statement of financial position. These non-cash assets are held in safekeeping, and the Company does not take legal ownership of the assets as the risks and rewards remain with the clearing member, unless and until such time as the clearing member defaults on its obligations to the Company.

Derecognition of financial assets and financial liabilities

A financial asset or liability is generally derecognised when the contract that gives rise to it is settled, sold, cancelled, or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, such that the difference in the respective carrying amounts together with any costs or fees incurred are recognised in the income statement.

Provisions

Provisions are recognised for current obligations arising as consequences of past events where it is probable that a transfer of economic benefits will be necessary to settle the obligation and it can be reliably estimated. All provisions, except for those arising under pension liabilities, are undiscounted where the effect of discounting would be immaterial.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

ACCOUNTING POLICIES (CONT)

Fair value measurement

The Company measures financial instruments such as derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in an arm's length transaction at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability or in the absence of a principal market, in the most advantageous market for the asset or liability. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described in note 20.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of fair value hierarchy as explained above.

Equity and related items

Share capital

Ordinary share capital comprises ordinary shares. Other capital reserves are described in note 23. Other instruments are classified as liabilities if there is an obligation to transfer economic benefits and if not, they are included in shareholder's funds. The finance cost recognised in the income statement in respect of capital instruments other than equity shares is allocated to periods over the term of the instrument at a constant rate on the carrying amount.

The share premium comprises the difference between the issue proceeds of shares and their nominal value.

Dividend distributions

Dividend distributions to the Company's equity holders are recognised as a liability in the financial statements in the period in which the dividends are approved by the Company's shareholders. The Company maintains a sustainable progressive dividend policy.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

2. RISK MANAGEMENT

The Company's activities expose it to a number of financial risks, principally market risk (financial market volatility, interest rate risk, foreign exchange risk), sovereign risk, credit risk, and liquidity risk. In addition to the financial risks, the Company is also exposed to other risks such as operational, legal, compliance and reputational risk. The Company manages these risks through various control mechanisms and its approach to risk management is to be prudent yet responsive to changes in the risk environment.

Overall responsibility for risk management rests with the Company Board. Day-to-day responsibility is delegated to the Company Chief Risk Officer who ensures effective delegation to the relevant executives on the basis of risk policies which are calibrated to the Board's risk appetite and are discussed and agreed by the Company's risk committees and Board. The application of these policies is undertaken by the business functions as the 1st line of defence and by the Company risk management team forming the 2nd line of defence, who control and manage the exposures arising from the various clearing activities. The continued appropriateness of risk policies and key risk data are regularly reviewed by the Company Board and the Board risk sub-committees, and audits of processes within risk management are undertaken periodically.

Enterprise Risk Management Framework

Each of the risks identified in this section are governed by the risk governance framework, issued, and refreshed at least annually by the Board. The framework describes the overall risk appetite of the Company, defines each risk type, and specifies ownership and the tolerance levels. The framework also requires that all risks are measured, monitored, and reported periodically via an enterprise risk management framework coordinated by the Chief Risk Officer.

For each of the principal risk types, a description and outline of the risk management approach is provided below.

Financial market volatility (latent market risk)

Risk description

Volatility within the financial markets in which the Company operates can adversely affect its earnings and its ability to meet its business objectives. The Company runs a balanced position in all cleared contracts and run no significant market risk unless a clearing member defaults. In such an event the Company is exposed to the market risk in the defaulter's portfolio as it closes out the contracts.

Risk management approach

The market and credit risk management policies of the Company are reviewed and approved by its risk committees and Board at least annually. A range of measurement methodologies, including both empirical and analytical margin models and stress testing, are used daily to quantify and assess the levels of credit and market risk to which the Company may be exposed, and hence the amount of resources that should be held to cover such risks.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

2. Risk Management (cont)

Potential market risk is reduced by collecting variation margin on marked to market positions and by establishing initial margin requirements which are the Company's estimate of market risk. Initial margins for all clearing services are calibrated and back-tested to a 99.7% confidence level.

Initial margin add-ons are calculated, where required, for clearing member specific concentration, liquidity and credit risk. Both variation and initial margin are collected daily and replenished intraday subject to credit related thresholds.

The Company accepts both cash in major currencies and high quality liquid non-cash collateral to cover margin requirements.

The list of acceptable non-cash collateral issuers is restricted and haircuts are set for each security type taking into account market, credit, foreign exchange, country, and liquidity risks and are calibrated to a 99.7% confidence level. All non-cash collateral is revalued daily.

	2022	2021
Total collateral held	€m	€m
Margin received in cash	105,177.6	82,756.1
Margin received in non-cash securities	140,909.0	137,031.1
Total margin liability	246,086.6	219,787.2

The maximum margin liability during the year was €277,903.9 million (2021: €231,723.0 million).

New applicants for clearing must meet strict credit, financial and operational criteria, which are regularly reviewed as part of the Company's risk policies. All clearing members are assigned an Internal Credit Score (ICS) and the ICS methodology is subject to independent validation at least annually.

The Company also requires all clearing members to contribute to pre-funded default funds to be used should the margins of a defaulted clearing member not fully cover close out costs. Supplementary financial resources include a proportion of the CCP's own capital and further clearing member contributions to ensure the continuity of ongoing operations. The pre-funded default funds are segregated by clearing service and sized to be sufficient at all times to cover the default of the 2 clearing member groups that would give rise to the greatest losses above margin under a wide range of plausible scenarios of extreme market conditions.

As at 31 December 2022 the total of clearing member contributions to the default funds amounted to €8,548.6 million (2021: €10,263.1 million) (note 18). The maximum amount during the year was €11,540.1 million (2021: €10,800.4 million). Clearing members are committed to contribute further amounts in the event of a default of clearing member subject to the terms within the LCH Limited Rulebook, should they be required.

The models which calculate margins, collateral haircuts, counterparty credit scores, stress losses and default fund contributions are independently validated at least annually and meet all applicable regulatory requirements.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

2. Risk Management (cont)

Sovereign risk

Risk description

Distress amongst sovereigns through market concerns over the levels of government debt and the ability of certain governments to service their debts over time could have adverse effects on the value and liquidity of the Company's cleared products, margin collateral and investments, and on the clearing membership, their clients, and the financial industry as a whole.

Risk management approach

Specific risk frameworks manage sovereign risk for both fixed income clearing and margin collateral, and all clearing members' portfolios are monitored regularly against a suite of sovereign stress scenarios which model escalations in sovereign risk. In addition, investment limits and both counterparty and clearing membership monitoring frameworks are sensitive to changes in economic and financial market indicators, ensuring that the Company is able to measure, monitor and mitigate exposures to sovereign risk and respond quickly to actual or anticipated changes.

The risk committees and Board monitor such risks and the sovereign risk framework continues to protect the Company against potentially severe market volatility in the sovereign debt markets.

The Company has investments in the following sovereigns (or equivalent issuer) as at 31 December 2022:

	2022		202	1
	Investment value	Proportion of portfolio	Investment value	Proportion of portfolio
Sovereign (or equivalent)	€m	%	€m	%
EU supranational	22,838.5	45%	20,046.1	40%
UK	8,055.4	16%	14,406.7	29%
USA	16,794.6	33%	12,654.0	26%
Switzerland	713.2	1%	1,035.8	2%
Germany	205.0	1%	700.0	1%
France	407.2	1%	482.4	1%
Other	1,293.5	3%	439.9	1%
Austria	149.0	0%	0.0	0%
Finland	153.1	0%	0.0	0%
Total	50,609.5	100%	49,764.9	100%

The above total includes other financial assets of €20,000.3 million (2021: €15,874.7 million) along with central bank cash deposits.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

2. Risk Management (cont)

Credit risk

Risk description

Credit risk is the risk that a counterparty of the Company will be unable or unwilling to meet a financial commitment to the Company. Credit risk exposure arises as a direct result of the reinvestment of the cash which the Company holds, primarily as part of its CCP activities in collecting margin and default fund contributions from its clearing members.

Risk management approach

The Company's investment portfolio is invested in accordance with clear risk policies which require secure investment of a significant portion of the portfolio either via reverse repurchase agreements with credit and financial institutions, receiving high quality government, government guaranteed or supranational securities as collateral; or by investing directly in such securities or by the placement of cash with central banks.

The investment risk policy requires that securities received as collateral are subject to a haircut on their market value, that the average maturity of the portfolio will not exceed 2 years, and that while cash may be deposited on an unsecured basis, this can only be short term with high quality banking institutions and limited to a 12-month average of 5% and a maximum of 10% of all credit institution investment.

The amount of LCH Limited's capital at risk to the default of a banking institution or the issuer of a debt instrument is limited to €15.0 million by the non-default loss provision to be applied in respect of losses that arise, other than from a clearing member's default and which threaten the CCP's solvency. These rules were introduced in response to the revision of UK CCP Recognition Requirements which became effective on 1 May 2014. Treasury default losses in excess of €15.0 million would be allocated among clearing members.

The investment portfolio as at 31 December 2022 was €105,589.6 million (2021: €83,011.3 million), of which 99.8% (2021: 99.9%) was invested securely. The maximum portfolio size during the year was €137,020.1 million (2021: €94,801.3 million). Note 20 contains further analysis of the investment portfolio including by type and fair value hierarchy.

All counterparties, including clearing members, interoperating CCPs, investment counterparties, custodians and settlement and payment institutions, sovereigns, and central banks, are assessed according to an internal credit scoring framework. This framework incorporates elements of the counterparty's financial profile, including funding, liquidity, capital and profitability, and a detailed operational capability assessment. The scoring framework is independently validated at least annually. Minimum credit scores are set for joining any clearing service and also for institutions to be eligible for investment or as interoperating CCPs and payment, settlement, and custodial intermediaries. These minimum credit scores are set within the risk policies which are reviewed and approved by the CCP Board annually. Risk policy also requires that increased margins be applied to clearing members when their credit score deteriorates below the entry level. Other actions may include reduced credit tolerances and forced reduction of exposures. Investment counterparties and intermediaries whose credit score falls below the minimum set by policy will no longer be eligible.

The maximum credit risk exposure relating to financial assets is represented by the carrying value as at the statement of financial position date.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

2. Risk Management (cont)

Analysis by credit rating

The table below shows the Company's clearing member balances and investment portfolio by reference to the credit rating of the counterparties. The treasury portfolio includes cash at bank and other financial assets.

Fair value of transactions with clearing members (ratings assigned with	2022	2021
reference to major agencies)	€m	€m
Clearing members rated AAA/AA+/AA/AA-	30,539.3	84,715.7
A+/A/A-	104,756.9	125,467.1
BBB+/BBB/BBB-	65,707.1	64,618.3
Other, <bbb-, th="" unrated<=""><th>7,618.9</th><th>1,665.5</th></bbb-,>	7,618.9	1,665.5
Total outstanding transactions with clearing members	208,622.2	276,466.6
Company investment and cash portfolio (ratings assigned with reference to major agencies)	€m	€m
AAA/AA+/AA/AA- Government backed	50,609.4	49,764.9
AA/AA+/AAA Secured	54,967.6	33,178.8
AA/AA+/AAA Unsecured	12.6	-
A/A+/AA- Unsecured	-	67.6
Total investment and cash portfolio	105,589.6	83,011.3

The total credit risk of the Company is represented by the total financial assets of the Company as disclosed in note 20.

Concentration risk

Risk description

Concentration risk may arise through having significant exposures to individual markets either through a single large position or a group of positions.

Risk management approach

Direct concentration risk arises in several areas of the Company's activities, and in order to avoid excessive concentrations of risk, the Company maintains a diversified portfolio of high quality liquid investments and uses a diversified range of custodians, payment and settlement banks and agents.

Indirect concentration risks, conditional upon a clearing member default, are managed under risk policy through various means, including margin add-ons for large concentrated positions, restrictions on certain non-cash collateral issuers and limits on aggregated exposures to member companies across clearing and investment activities.

The largest concentration of investment exposures as at 31 December 2022 was 21.6% of the total investment to the EU (2021: 24.1% to the US government).

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

2. Risk Management (cont)

Procyclicality

Risk description

Systemically important CCPs recognise that they have an important responsibility towards their clearing members and other market participants to ensure that their actions do not unnecessarily amplify existing market stresses. Risk mitigating actions that are excessively procyclical are undesirable to the Company from a narrow risk management perspective as well as a macro-economic and regulatory perspective.

Risk management approach

The Company acknowledges that while some level of procyclicality may be unavoidable, as it must protect itself by ensuring adequate margins are held against risk, standards have been introduced for ensuring that procyclicality concerns are appropriately addressed in the risk framework and the margin, haircut and credit scoring models. These standards require all models which are used for setting the levels of resources called from participants, and which therefore may be sources of procyclical outputs, to be tested using an extended period of historical inputs.

Interest rate risk

Risk description

The Company is exposed to interest rate risk arising from the cash and investment balances it maintains, the margin and default fund balances it holds from clearing members and the loans and borrowings it has issued.

Risk management approach

Interest bearing assets are generally invested for a longer term than the interest bearing liabilities, whose interest rate is generally reset daily. This makes treasury income vulnerable to volatility in overnight rates and shifts in spreads between overnight and term rates. Interest rate exposures are managed within defined risk appetite parameters against which sensitivities are monitored daily. The risk to the Company's capital is managed within interest rate risk limits expressed as a percentage of capital and calculated under stressed scenarios. The maximum fixed coupon exposure on any asset in the treasury portfolio is 1 year.

Interest rate sensitivity analysis

The Company aims to minimise its exposure to interest rate fluctuations. Any exposure is predominantly due to the mismatch between the Company's interest bearing assets and interest bearing member liabilities. Since the return paid on member liabilities is generally reset to prevailing market interest rates on an overnight basis the Company is exposed for the time it takes to reset the interest rates on its investments and the shifts in spreads between overnight and term rates.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

2. Risk Management (cont)

The following table shows the estimated impact of the exposure described in the paragraph above on the consolidated profit after tax and on retained earnings within shareholders' equity:

	2022			2021		
	+25bp	+50bp	+100bp	+25bp	+50bp	+100bp
	€m	€m	€m	€m	€m	€m
Net exposure of cash and member margin balances	(7.0)	(14.0)	(28.1)	(6.0)	(12.0)	(24.0)
Tax effect of above	1.3	2.7	5.3	1.1	2.3	4.6
Decrease in profit after tax	(5.7)	(11.3)	(22.8)	(4.9)	(9.7)	(19.4)
	-25bp	-50bp	-100bp	-25bp	-50bp	-100bp
	€m	€m	€m	€m	€m	€m
Net exposure of cash and member margin balances	7.0	14.0	28.1	6.0	12.0	24.0
Tax effect of above	(1.3)	(2.7)	(5.3)	(1.1)	(2.3)	(4.6)
Increase in profit after tax	5.7	11.3	22.8	4.9	9.7	19.4

Liquidity risk

Risk description

Liquidity risk is the risk that the Company is unable to meet its payment obligations when they fall due. Liquidity risk exists as a result of day-to-day operational flows such as repayments of cash collateral to clearing members, provision of liquidity to facilitate settlement and cash flows resulting from investment activity. In the case of a clearing member default, the Company must transfer or liquidate the defaulter's portfolio. This default management process may give rise to additional liquidity requirements to meet losses arising from portfolio hedging or close out as well as fulfilling the defaulter's settlement and margin obligations until the portfolio is fully closed out or transferred.

Risk management approach

Liquidity risk is managed by ensuring that the Company has sufficient cash to meet its payment obligations supported by facilities to meet short term imbalances between available cash and payment obligations. The Company maintains liquidity buffers against expected daily operational liquidity needs. This is based on the maximum relevant liquidity outflow observed from an extensive data history, and against the modelled scenario in which the two clearing member companies with the largest liquidity requirements both default (requiring additional liquidity so that these companies can continue to meet their obligations to clearing members and other counterparties).

The Company's liquidity management is subject to strict minimum liquidity targets set by senior executives within its risk and collateral & liquidity management (CaLM) department. These targets are reviewed regularly and reported to the risk committees and Board. On a day-to-day basis, CaLM is tasked with ensuring that the Company can meet its financing needs at all times, in particular ensuring the business can continue to operate smoothly even in the event of the default of 1 or more clearing members.

The ability to access liquidity under extreme market conditions is modelled daily. Liquid resources include available cash balances and secured financing facilities. The Company uses central bank money where such facilities are available to it as a CCP and are practicable as determined through internal review.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

2. Risk Management (cont)

The table below analyses the Company's financial liabilities into relevant maturity groupings based on the remaining period from the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cashflows.

	Less than 3 months	3 months	1 to 5 years	Total
As at 31 December 2022	€m	€m	€m	€m
Transactions with clearing members	(199,364.8)	(9,257.4)	-	(208,622.2)
Initial margin and other clearing member balances	(97,212.8)	-	-	(97,212.8)
Default funds	-	(8,548.6)	-	(8,548.6)
Trade and other payables	(246.4)	(154.2)	(0.6)	(401.2)
	Less than 3	3 months		
	months	to 1 year	1 to 5 years	Total
As at 31 December 2021	€m	€m	€m	€m
Transactions with clearing members	(259,236.9)	(17,229.7)	-	(276,466.6)
Initial margin and other clearing member balances	(72,592.6)	-	-	(72,592.6)
Default funds	-	(10,263.1)	-	(10,263.1)
Trade and other payables	(267.9)	(124.4)	-	(392.3)

Interest due on the financial liabilities is based upon rates set on a daily basis.

Foreign exchange risk

Risk description

Foreign exchange risk arises because the Company can incur expenses in its local currency while earning revenues and treasury income in several major currencies. The Company translates net assets and liabilities arising in other currencies (principally Pounds Sterling and US Dollar) to its functional currency.

Risk management approach

The Company converts surplus foreign currency balances to Euros where practicable on a monthly basis. This partially mitigates the impact of exchange rate fluctuations on the Company's financial performance. Any exchange differences on the translation of net assets and liabilities that remain are recorded in the income statement.

The Company has no designated hedges but seeks to manage its risk by matching currency liabilities against monetary assets. The Company's income statement and regulatory capital volatility as a result of exchange rate movements are monitored.

Foreign exchange sensitivity

The Company reviews sensitivities to movements in exchange rates which are appropriate to market conditions. The Company has considered movements in UK sterling and US dollars during 2022 and has concluded that a 10% movement in rates is a reasonable level to measure the risk to the Company. At 31 December 2022, if the Euro had weakened or strengthened by 10% against UK sterling and/or US dollar with all other variables held constant, the impact on post tax profit for the year ended 31 December 2022 and on equity at 31 December 2022 with comparatives, would be as set out in the table below. Movements in other currencies and entities are not significant.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

2. Risk Management (cont)

	2022 2021			
	Post-tax profit	Equity	Post-tax profit	Equity
	€m	€m	€m	€m
Pounds Sterling – Euro strengthens	(0.5)	(4.9)	(0.2)	(9.1)
Pounds Sterling – Euro weakens	0.5	4.9	0.2	9.1
US Dollar – Euro strengthens	(1.8)	(1.8)	(1.2)	(1.2)
US Dollar – Euro weakens	1.8	1.8	1.2	1.2

If the average Euro exchange rate for the year ended 31 December 2022 had moved 10p against UK sterling and 10 cents against US dollar, this would have changed the Company's operating profit for the year by up to €45.3 million (2021: €39.4 million).

Settlement bank risk

Risk description

The Company is exposed to the risk that a settlement bank could fail, creating credit losses and liquidity pressures for the Company.

Risk management approach

The Company uses a combination of central bank, payment agent and commercial settlement bank models. The policy requires that only minimal unsecured balances at commercial settlement banks are permitted to remain overnight, with the majority placed with central banks. Any such unsecured balances reduce commercial bank deposit limits. Intraday credit exposures to commercial concentration banks are also monitored and closely controlled.

For monies due from clearing members, if the payment agent or commercial settlement bank is not able to transfer funds to the Company, the clearing members remain liable for the fulfilment of their payment obligations to the Company.

Risk policies specify minimum credit scores for all payment and settlement intermediaries and that these are monitored continually, with a full counterparty credit review conducted annually and a full due diligence exercise carried out at least every 2 years. The counterparty credit scores are derived from the framework described under credit risk above.

Custody risk

Risk description

Custody risk is the risk of loss on securities in safekeeping as a result of the custodian's insolvency, negligence, misuse of assets, poor administration or inadequate record keeping.

Risk management approach

Although the risk of insolvency of central securities depositories or custodian banks used by the Company is low, the Company mitigates this risk through a due diligence framework which ensures that appropriate legal arrangements and operational processes are in place. In addition, Company policy sets minimum eligibility requirements, and requires regular credit assessment and back-up contingency arrangements to be in place.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

2. Risk Management (cont)

Capital risk

Risk description

Capital risk is the risk that the Company may not maintain sufficient capital to meet its obligations. This includes the risks that regulators may increase capital requirements or that own capital levels may become eroded. Capital is specifically allocated, and therefore at risk ahead of clearing member resources, in the event of either a clearing member or investment counterparty default. In addition, capital may be at risk to operational losses in excess of insurance protection.

Risk management approach

The Company's approach to capital management and a review of the current regulatory requirements are detailed in note 25. In addition:

- the default waterfalls for each clearing service feature the Company's own capital, to be utilised after
 the defaulted clearing member's collateral and default fund contributions and before the balance of
 the mutualised default funds and further, non-prefunded, resources available from the clearing
 members. In aggregate this capital at risk is equivalent to 25% of regulatory capital requirement for the
 Company;
- the non-default loss provision for the Company (as detailed under **Credit risk**) limits the amount of capital at risk to the investment default/loss of a banking institution or the issuer of a debt instrument to €15.0 million for this entity in a solvency-threatening scenario;
- the Company can manage its capital structure by varying returns to its shareholder, issuing new shares or increasing or reducing borrowings.

Pension risk

Risk description

Pension risk arises from the potential deficit in the Company's defined benefit pension plan due to a number of factors such as mortality rates or changes in inflation assumptions. The scheme is exposed to inflation, interest rate risk and changes in the life expectancy of members. As the scheme's assets include a significant investment in equity shares, the Company is exposed to equity market risk.

Risk management approach

The pension scheme is UK-based and is governed under the relevant laws and managed by the trustees who are required to undertake a formal funding valuation every 3 years and, where assets are deemed to be insufficient, to agree a schedule of contributions to be paid by the Company to make good any shortfall over a period of time. Details of the pension scheme and assumptions used in valuing their assets and liabilities are included in note 19.

Operational risk

Risk description

Operational risk is the risk of loss arising through failures associated with personnel, processes, or systems or from external events. It is inherent in every business organisation and covers a wide spectrum of issues. 1st line operational risk is managed by the business, for example through procedures, documentation of processes, independent authorisation, and reconciliation of transactions.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

2. Risk Management (cont)

Risk management approach

The Company has adopted a framework to identify, assess, monitor, and manage operational risks. This is achieved through self-assessment of risks and controls using a comprehensive risk and control library and the development of key risk indicators as appropriate, enabling the embedding of operational risk awareness within the corporate culture. An independent department performs second line operational risk management, validating the self-assessments of risks and controls and reporting on operational risk to senior management and the Board.

Business operations are subject to a programme of internal audit reviews, which are independent of line management, and the results are reported directly to the Company's senior management and audit committee. Following each review, management will put in place an action plan to address any issues identified. Internal audit evaluates the adequacy and effectiveness of the Company's systems of internal control, as well as the level of compliance with policies, and reports, in addition to management's own combined assurance reporting, to the audit committee and senior management. Any significant weaknesses are reported to the Board. The Company maintains comprehensive contingency plans to support its operations and ensure business continuity. These facilities are regularly tested.

Other risks

Legal, compliance and regulatory risk

These categories include the risk that unenforceable contracts, lawsuits, or adverse judgements can disrupt or otherwise negatively affect the operations or condition of the organisation, and the risk of loss of license or other penalties imposed due to non-compliance with regulations governing clearing house activities in each jurisdiction in which the Company operates.

It is the responsibility of the heads of the legal, regulatory and compliance functions to provide assurance to the Board that these risks are measured and monitored, while the responsibility for any mitigation action resides with the relevant business and functional heads.

In the normal course of business, the Company receives legal claims in respect of commercial, employment and other matters. Where a claim is more likely than not to result in an economic outflow of benefits from the Company (and is measurable), a provision is made representing the expected cost of settling such claims.

Reputational risk

The maintenance of the Company's strong reputation is key to its continued profitability and is the responsibility of the Board, management, and staff. In particular the efficiency, reliability, and effectiveness of the day-to-day operations of the Company are paramount to its reputation.

Business and strategic risks

Business risk is the risk of loss or profit decrease where declining volumes lead to lower revenues which cannot be offset by adjusting variable costs within a reasonable time period. Strategic risk is the risk of reduction in earnings or capital arising from adverse business decisions, improper implementation of decisions, or lack of responsiveness to industry changes. Business heads are responsible for managing these risks and liaising closely with the Board when issues arise.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

2. Risk Management (cont)

Brexit

On 8 February 2022, the European Commission published in the Official Journal an Implementing Decision (EU) 2022/174 determining that, for a limited period of time, the UK framework applicable to CCPs is equivalent to the EU framework. The equivalence decision extends the current equivalence until 30 June 2025. On this basis, on 25 March 2022, ESMA announced the recognition of LCH Limited as a Tier 2 CCP under the EMIR 2.2 supervisory framework, in line with the temporary equivalence decision. As such LCH Limited will continue to be directly subject to the requirements of EMIR and to ESMA supervision.

From a customer perspective, this means no change either in standards or day-to-day operations. All processes and services remain unchanged

Project risk and business continuity, information security and cyber risks

These risk categories include the risk to earnings and capital arising from project execution deficiencies, the risk of loss arising from the disruption of critical business or IT processes due to adverse circumstances or events, and the risk that valuable and sensitive Company data is compromised, lost or misused. The heads of dedicated business functions and of each business are responsible for managing these risks.

Model risk

This is the risk that, for instance, a margin model may not capture the essence of the stress loss/events being modelled, or that there are mistakes in the underlying calculation, which may result in systemic under-margining for the products in question. Model risk management is the responsibility of the heads of business lines which place reliance on the models, and is effected through appropriate testing and maintenance of the models and in particular through the strict governance required for model change, including independent expert validation and senior executive approval. Board approval is required for material changes to important models.

Default management risk

This is the risk arising from not having a well-defined and rehearsed process in place prior to a default event, leading to inefficiencies in the handling of a default such that a material deterioration in the market value of assets held may result in the erosion of CCP capital and the default funds.

For each service, it is the responsibility of the business head to ensure that a functioning default management group is in place in accordance with the group default management policy and guidelines (owned by the Chief Risk Officer). Fire drill tests are held regularly to assess the CCP default management process and identify any areas for improvement.

Emerging risks

The Company has also included a category of emerging risks which are new and difficult to quantify due to their remote or evolving nature. In most cases, the mitigation for such risks is to establish appropriate contingency plans and monitor the development of the risk until it can be quantified and removed or included as a principal risk.

Climate-related risks

International organisations, governments and regulators are focused on integrating climate risks and opportunities into investment decision making, to enable the transition to a low carbon economy. This is an area of emerging and wide-ranging policy making, impacting financial market participants and corporates.

The Company supports consistent global standards and encourages continued alignment between the EU and UK on sustainable finance. The Company has developed climate-related risks scenario over both the medium and longer term, and how these may impact credit, operational, market and liquidity risks. From the current assessment of climate-related risks management conclude that climate does not have a material impact on these financial statements.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

3. Exchange Rates

The most significant exchange rates to the Euro for the Company are as follows:

	2022	2022		
	Closing rate	Average rate	Closing rate	Average rate
Euro to US Dollar	1.07	1.05	1.13	1.18
Euro to Pounds Sterling	0.89	0.85	0.84	0.86

4. Revenue

	2022	2021
	€m	€m
SwapClear clearing fees	375.5	315.3
Other OTC clearing fees	26.9	24.8
Non-OTC clearing fees	41.6	42.1
Clearing fees	444.0	382.2
Other fee revenue	137.4	145.9
Less pass-through costs recharged	(3.1)	(8.2)
Other fee revenue	134.3	137.7
Settlement fee revenue	34.5	33.2
Settlement fee expense	(28.6)	(26.9)
Net settlement fee revenue	5.9	6.3
Revenue	584.2	526.2

Other fee revenue comprises fees charged for compression services, non-cash collateral and other post trade services.

The Company's total income from contracts with customers disaggregated by timing of revenue recognition is shown below. The following table includes other income of €17.4 million (2021: €14.8 million), which relates to recharges of services to other group companies.

	2022	2021
	€m	€m
Services satisfied at a point in time	582.2	524.5
Services satisfied over time	19.4	16.5
Total revenue from contracts with customers	601.6	541.0

Although total income includes net treasury income, this is excluded from the disaggregation table as it is outside the scope of IFRS 15 because it is not earned through a contract with a customer.

NOTES TO THE FINANCIAL STATEMENTS

Non-audit services	-	
Total auditor's remuneration	0.4	0.4

Other operating expenses include €56.7 million of IT costs (2021: €39.0 million) and €2.8 million of professional fees (2021: €2.3 million).

6. Non-underlying Items

	2022	2021
	€m	€m
Restructuring (costs) / income	(0.2)	(3.0)
Tax effect of non-underlying items	(0.1)	0.2
Total non-underlying items	(0.3)	(2.8)

Restructuring costs comprise of costs arising from operating model changes and integration.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

7. Finance income and expense

	2022	2021
	€m	€m
Interest received on cash and cash equivalents	1.5	0.1
Interest received on intercompany loan balances	1.2	-
Net finance income on pension assets	7.0	1.0
Finance income	9.7	1.1
Interest paid on cash and cash equivalents	(7.6)	(3.6)
Lease interest expense	-	(0.1)
Interest paid on intercompany loan balances	(1.2)	(0.9)
Finance expense	(8.8)	(4.6)
Net finance income	0.9	(3.5)

The Company attracts negative interest rates on some of its cash deposits and intercompany loans.

8. Taxation

The major components of taxation are as follows:

€m	€m
Current tax	_
United Kingdom current tax charge (61.9)	(57.3)
Adjustments in respect of current tax in previous years 2.0	0.5
Overseas current tax charge (1.8)	(2.0)
Adjustments in respect of current overseas tax in previous years 0.2	(0.3)
Total current taxation (61.5)	(59.1)
	_
Deferred tax	
Deferred tax relating to the origination and reversal of temporary differences (11.1)	(2.2)
Adjustments arising from change in tax rates (3.9)	0.1
Adjustment in respect of deferred tax in previous years (2.5)	(0.4)
Deferred tax (17.5)	(2.5)
Tax expense reported in the income statement (79.0)	(61.6)

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

8. Taxation (cont)

	2022	2021
Statement of comprehensive income	€m	€m
Tax relating to remeasurement of UK defined benefit pension plan	16.5	(5.2)
Tax relating to revaluation of financial assets that may be reclassified to profit or loss	2.6	1.5
Tax expense reported in the statement of comprehensive income	19.1	(3.7)
Statement of changes in equity Tax allowance on share awards in excess of expense recognised	(0.3)	(0.2)
Tax credit reported directly in equity	(0.3)	(0.2)

Reconciliation of tax expense

The income statement tax charge for the year differs from the standard rate of corporation tax in the UK as explained below:

	2022	2021
	€m	€m
Accounting Profit before taxation	401.3	319.1
Tax at UK statutory corporation tax rate of 19% (2021: 19.0%)	(76.2)	(60.6)
Effect of:		
Expenses not deductible	5.0	0.2
Adjustments in respect of prior years	(0.3)	(0.1)
Adjustments in respect of changes in tax rates	(3.9)	0.1
Higher rate of tax on overseas earnings	(1.5)	(1.4)
Foreign exchange adjustment	(2.1)	0.2
Total tax charge	(79.0)	(61.6)
Effective corporate tax rate	19.7%	19.3%

An increase in the UK Corporation tax rate from 19% to 25% (effective from 1 April 2023) was substantively enacted on 24 May 2021. This will increase the company's future tax charge accordingly.

Exchange differences have arisen on the translation of the closing sterling balances which are due to HMRC.

The portion of capitalised self-developed software costs disclosed above that relates to software not currently brought into use amounted to €71.0 million (2021: €60.5 million). The increase in the year reflects the Company's continued investment in software and commitment to operational resiliency. No amortisation has been charged during the year against these assets (2021: nil), but instead they are tested for impairment (note 10) and a €3.0 million write off (2021: €0.3 million) was recognised in the year.

During the year the Company performed its annual review of assets and recognised disposals and write-offs of assets no longer in use of €0.8 million (2021: €21.7 million).

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

10. Impairment Testing of Intangible Assets

For intangible assets, impairment is assessed by reviewing the carrying value of the asset against its recoverable amount, which is determined by value in use calculations for the relevant cash generating unit ("CGU") using discounted cashflow projections. The Company also carries out annual impairment testing on software not currently brought into use in December of each year, or more often if circumstances show that an impairment may be likely.

Assumptions

The key assumptions used in the valuations relate to discounted cashflow projections prepared by management covering a 5-year period. The cashflow projections are based on the Company's Budget for 2022 and the Company approved plan for the 2 financial years following the last financial year in the budget. Cashflows beyond this period are extrapolated using the estimated long-term growth rates and applying the pre-tax discount rates.

Management has based its value-in-use calculations for each CGU on key assumptions about short- and medium-term revenue and cost growth, long-term economic growth rates (used to determine terminal values) and pretax discount rates, as follows:

- i) The values assigned to short and medium term revenue and cost growth are based on the 2022 budget and the Company approved plan. The assumptions are derived from an assessment of current trends, anticipated market and regulatory developments, discussions with customers and suppliers and management's experience. These factors are considered in conjunction with the Company's long term strategic objectives to determine appropriate short and medium growth assumptions;
- ii) Long-term growth rates of 3.37% (2021: 3.5%) represent management's internal forecasts based on external estimates of GDP and inflation; and
- iii) The pre-tax discount rate of 13.6% (2021: 10.6%) is based on a number of factors including the risk-free rate, the Company's estimated market risk premium and a premium to reflect inherent risks.

Impairment results

Our annual impairment reviews for other intangible assets found that no assets €3.0million (2021: €0.3 million) and self-developed software not yet in use of €3.0 million were impaired (2021: €0.3 million).

During 2021 the Company disposed of its sole UK property lease and novated the right of use asset and associated lease liabilities to London Stock Exchange (C) Ltd (LSE C), a fellow Group company in LSEG. The transaction resulted in the Company derecognising the book value of the property right of use assets (€9.9m), associated property dilapidation provisions (€0.6m) and lease liabilities (€11.3m). The Company received a €1.5m non-diluting capital contribution from LSE C as a result.

During the year the Company performed its annual review of assets and recognised disposals and write-offs of assets no longer in use of €0.1 million with nil net book value (2021: €26.4 million). Asset transfers relate to WIP assets being brought into use and transferred to their respective classification.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

12. Balances with Clearing Members

	2022	2021
	€m	€m
Assets		
Transactions with clearing members at FVPL	208,622.2	276,466.6
Other balances with clearing members at amortised cost	-	20.1
	208,622.2	276,486.7
Liabilities		
Transactions with clearing members at FVPL	(208,622.2)	(276,466.6)
Initial margin and other balances with clearing members at amortised cost	(97,216.5)	(72,592.6)
	(305,838.7)	(349,059.2)

The transactions with clearing members of €208,622.2 million (2021: €276,466.6 million) are fully secured by collateral held by the Company.

As at 31 December 2022 the total of fully collateralised loans in respect of fixed income transactions was €200,261.7 million (31 December 2021: €273,345.3 million). This collateral has in turn been passed on to fixed income counterparties to secure the Company's liabilities in respect of fixed income contracts.

13. Trade and Other Receivables

	2022	2021
	€m	€m
Non-current		_
Other receivables	0.1	0.2
	0.1	0.2
Current		
Trade receivables:		
Fees receivable	74.3	63.3
Interest accrued on investment portfolio	195.9	3.5
	270.2	66.8
Margin receivable on reverse repurchase contracts	9.7	19.2
Other receivables	1.5	1.4
Prepayments	6.0	4.3
Amounts owed by parent companies	8.9	2.3
Amounts owed by companies under common control	16.6	16.7
	312.9	110.7

Fees receivable are the Company's rights to consideration for work completed but not invoiced at the reporting date. The balance of €74.3 million (2021: €63.3 million) arises solely from services provided in 2022 and is invoiced shortly after the balance sheet date.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

13. Trade and Other Receivables (cont)

The Company collects virtually all of its fees receivable via Protected Payment System ("PPS") which members are required to sign up to, on admission as a clearing member. More than 99% of fees are collected this way less than 5 days after the invoice date. The Company does not calculate an expected credit loss allowance on its fees receivable as it expects to receive all amounts due in a timely manner.

14. Cash and Cash Equivalents

	2022	2021
	€m	€m
Cash at bank and in hand	259.3	2.2
Short-term deposits	518.6	505.1
Cash and cash equivalents	777.9	507.3

Cash and cash equivalents are held with authorised counterparties of a high credit standing. Management does not expect any losses from non-performance by counterparties holding cash and cash equivalents and there are no material differences between book and fair values.

The short-term deposits are fully collateralised by sovereign and investment grade corporate securities in accordance with eligibility criteria approved by the Company's risk committees. The Company defines short-term as less than 90 days but these are predominantly overnight.

€91.1 million (31 December 2021: €91.1 million) of the cash and cash equivalents amount is restricted as the Company's own resources to be used in the default waterfall. This is allocated by default fund on a pro-rata basis as follows, as at 31 December 2022: rates derivatives €56.4 million, ForexClear €20.5 million, RepoClear €12.4 million and EquityClear €1.8 million.

The remaining cash is placed on deposit for the purpose of earning finance income.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

15. Trade and Other Payables

	2022	2021
	€m	€m
Non-current		
Other payables	-	0.6
	-	0.6
Current		
Trade payables	12.8	5.4
Other taxation and social security	5.0	21.7
Accruals	37.3	35.3
Amounts owed to parent companies	5.4	3.6
Amounts owed to companies under common control	39.1	14.6
Contract liabilities	4.5	2.9
Other payables	154.2	124.3
Margin payable on reverse repurchase contracts	142.8	183.9
	401.1	391.7

Other payables include amounts accrued under the Company's revenue share agreements.

Changes in the Company's contract liabilities balances during the year were as follows:

	2022	2021
Contract liabilities	€m	€m
Contract liabilities as at 1 January	2.9	2.9
Revenue recognised in the income statement	(2.9)	(2.9)
Increase due to consideration received	4.5	2.9
Contract liabilities as at 31 December	4.5	2.9

The Company's contract liabilities represent the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied, or partially unsatisfied and are expected to be recognised during the 12 months after the reporting date.

The Company's contract liabilities represent fees charged in advance in respect of the RepoClear service.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

16. Leases

Movements in the lease liabilities during the year were as follows:

	2022	2021
	€m	€m
1 January	-	13.1
Interest expense recognised	-	0.1
Lease payments	-	(2.8)
Lease novation (note 11)	-	(11.3)
Foreign exchange	-	0.9
31 December	-	-

During 2021 the Company disposed of its sole UK property lease and novated the right of use asset and associated lease liabilities to London Stock Exchange (C) Ltd (LSE C), a fellow Group company in LSEG. See note 11 for further details

17. Loans and Borrowings

	2022	2021
	€m	€m
Current		
Loan to parent company	356.9	351.9

In December 2021, the Company extended a revolving credit facility with its parent company for another 5 years. Interest is charged on the loan at market rates. The loans represent different currencies. The Company does not calculate an expected credit loss allowance on the loan to parent, as it is repayable on demand and the Company expects to receive all amounts due in a timely manner.

18. Default Funds

The purpose of the default funds is to absorb any losses incurred by the Company in the event of clearing member default, if margin collateral is insufficient to cover the management and close out of the positions of the defaulting clearing member. Default funds are segregated to cover the different business lines of the Company. The total default funds held by the Company as at 31 December 2022 were €8,548.6 million (31 December 2021: €10,263.1 million).

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

19. Employee benefits

i) Staff costs

,	2022	2021
All staff and directors	€m	€m
Salaries and other benefits	105.3	88.7
Social security costs	14.0	10.9
Share-based compensation	5.9	6.3
Pension costs	7.3	7.5

Staff costs included in non-underlying items	0.1	2.7
Total staff costs	132.6	116.1
Average monthly number of staff employed	616	604

Staff costs and the average number of staff include the costs of contract staff who are not on the payroll but fulfil a similar role to employees.

Employee costs are shown net of amounts capitalised as internal development costs of €39.4m (2021: €37.9m)

Key management personnel

	2022	2021
	€m	€m
Remuneration and other short-term employee benefits	5.4	5.7
Deferred bonus and other long-term employee benefits	0.1	0.3
Share-based compensation	3.3	3.1
Pension contributions	0.3	0.3
Compensation for loss of office	-	0.2
Aggregate emoluments for key management personnel	9.2	9.6

The costs above include deferred bonuses, other long-term incentive plan (LTIP) awards and share-based payment costs on an accrued basis.

Key management personnel include the executive director and certain senior staff who manage the business on a day-to-day basis.

Directors' remuneration

	2022	2021
	€m	€m
Remuneration	4.3	5.0
Compensation for loss of office	-	0.2
Total remuneration	4.3	5.2

Remuneration of directors who are also directors of other LCH group companies is charged by way of a management charge from LCH Group Holdings Limited and is included above.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

19. Employee benefits (cont)

The costs above include deferred bonuses, other LTIP awards and share-based payment costs when they vest or become payable.

From time to time Directors may spend management time on associated Group companies, the cost of which is reflected in the above.

The highest paid director received total remuneration of €2,134,856 (2021: €2,004,699) in the year.

In 2022, no director was a deferred member of the Company's defined benefit pension scheme (2021: Nil). Contributions of €75,359 (2021: €67,807) have been made on behalf of two (2021: two) directors to a defined contribution scheme.

Two (2021: three) directors, including the highest paid director, participate in the share-based compensation plans detailed below.

Independent non-executive directors received fees for their services. The Board determines fees that reflect the level of individual responsibilities, attendance of meetings and membership of Board committees. Non-executive directors representing shareholders did not receive fees (2021: nil).

ii) Share-based payments

Company employees were eligible to participate in one or more of the following LSEG share option-based arrangements during the financial year:

- The LSEG Long Term Incentive Plan 2014 (LSEG LTIP)
- The LCH Group Long Term Incentive Plan (LCH LTIP)
- The LSEG SAYE Option Scheme and LSEG International Sharesave Plan (together SAYE schemes)
- The LSEG Restricted Share Award Plan 2018 (Restricted Plans)
- LSEG SharePurchase Plan

The LSEG LTIP has two elements, an award of Performance Shares and a conditional award of Matching Shares, which is linked to a co-investment being made by the executive. Awards are made in the form of nil-cost options. Under the Matching Shares arrangement, selected executives may invest up to the value of 50% of their net-of-tax base salary in LSEG shares (Invested Value). The Invested Value is then matched with a performance related Matching Share award, matched 2:1 on a pre-tax basis (up to a maximum Matching Share award of 100% of pre-tax base salary). The Matching shares condition was discontinued in 2019.

Vesting of the LSEG LTIP awards is dependent upon LSEG's absolute total shareholder return (TSR) performance (40%) and adjusted basic earnings per share growth (EPS) (60%) over a 3-year period. The following targets applied to options granted in 2022:

EPS element (60%):	EPS element (60%): TSR element (40%):	
Average growth over 3 years	Relative growth over 3 years	element that vests
More than 18% p.a.	Upper quartile	100%
8% p.a.	Median	25%*
Less than 8% p.a.	Below median	0%

 $[\]ensuremath{^*}$ Straight line pro-rating applies between this trigger and 100% vesting.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

19. Employee benefits (cont)

The LCH LTIP also has two elements, an award of Performance Shares and a conditional award of Matching Shares, which is linked to a co-investment being made by the executive. The Matching Shares element only applies to selected senior management. The Performance Shares are available to a wider group of executives. Awards are made in the form of nil-cost options. Under the Matching Shares arrangement, selected executives may invest up to the value of 50% of their net-of-tax base salary in LSEG shares (Invested Value). The Invested Value is then matched with a performance related Matching Share award, matched 2:1 on a pre-tax basis (up to a maximum Matching Share award of 100% of pre-tax base salary).

Vesting of the LCH LTIP award is initially dependent upon the achievement of a risk management gateway. If this is achieved, the degree of vesting of the award is assessed against three conditions, measured independently over 3 years:

- 1) **Resiliency metric**: a qualitative assessment of performance on regulatory matters and enterprise risk incorporating operational risk (comprising up to 34% of the award)
- 2) **Efficiency metric**: a quantitative assessment of earnings before interest, tax, depreciation and amortisation (EBITDA) margin performance at the end of the performance period (comprising up to 33% of the award)
- 3) **Growth metric**: a quantitative assessment of earnings before interest and tax (EBIT) performance at the end of the performance period (comprising up to 33% of the award)

For internal audit, risk and compliance participants, the efficiency and EBIT/growth metrics do not apply. Assuming the risk management gateway is achieved, the vesting of the award is assessed against the regulatory/resiliency metric only.

The risk management gateway will be assessed by the LCH Group Remuneration Committee ('Committee') who will assess if the LCH Group has managed its risk effectively over the 3-year period. The award lapses in full if any of the LCH Group CCPs suffers an aggregate loss of more than €12 million (Higher Level Losses). Equally, if, during the performance period any of the LCH Group CCPs suffers losses below this level or circumstances arise in the reasonable opinion of the Committee that have or could have, resulted in a significant adverse event which did, or could have, materially damaged future business operations, the Committee shall determine whether management could or should have taken action to prevent such circumstances and may lapse the award accordingly.

The regulatory metric shall vest at 100% if it is determined that management actions in relation to regulatory matters were wholly effective during the performance period. If it is determined that management actions in relation to regulatory matters were not wholly effective during the performance period, then the Remuneration Committee shall determine a lesser level of vesting as it deems appropriate.

In order for the portion of the Performance Share or Matching Share Award subject to the Cost metric to vest, the Committee must determine the amount of cumulative net consolidated cost savings of London Stock Exchange Group achieved over the performance period by reference to specified cost saving projections and adjustments set out in the rules of the Plan.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

19. Employee benefits (cont)

The cost and EBIT metrics shall vest as follows:

Efficiency metric: EBITDA margin level	Annual Growth Metric: EBIT level	Percentage of shares that vest
2017 award:		
 53% or more 	€337 million or more	100%
• 48%	€306 million	62.5%
• 41%	€275 million	25%
• Below 41%	Below €275 million	0%
2018 award:		
 53% or more 	€393 million or more	100%
• 50%	€357 million	62.5%
• 48%	€321 million	25%
• Below 48%	Below €321 million	0%
2019 award:		
 55% or more 	€400 million or more	100%
• 52.5%	€370 million	62.5%
• 50%	€340 million	25%
• Below 50%	Below €340 million	0%

At the end of the performance period, the Committee shall calculate LCH Group EBIT and EBITDA for the last financial year in the performance period, as approved by the LCH Group Holdings Limited Audit Committee. EBIT means earnings before interest, tax and non-underlying items, as reported in the consolidated accounts for LCH Group Holdings Limited, subject to such adjustments as the Committee considers necessary to take account of matters that it considers to be appropriate. EBITDA margin means earnings before interest, tax, depreciation and amortisation divided by the Gross revenue as reported in the consolidated financial statements of LCH Group Holdings Limited.

If circumstances occur, which, in the reasonable opinion of the Committee, justify a reduction to awards granted, the Committee may at its discretion reduce an award or not grant future awards. In the event that an award has already vested, the Committee may determine that a repayment is made. The circumstances and timeframe in which the Committee may consider it appropriate to exercise such discretions are covered in the Plan Rules.

The SAYE scheme provides for grants of options to employees who enter into a SAYE savings contract; options are granted at 20% below fair market value. The scheme is available to employees based in the UK and Sri Lanka (and approved by HMRC in the UK). The options vest in full after three years, providing the employee remains employed by the LCH Group or the wider LSEG group of companies.

The Employee share purchase plan is a scheme in which employees can buy shares in the Company monthly via salary deduction. For every four shares purchased by the employee, the Group awards them one additional share which vests after completion of a three-year plan cycle.

The Restricted Plan allow for grants to be made in the form of conditional awards over ordinary shares of LSEG, in the form of nil-cost options to certain executives. The vesting of such awards granted to date under the plans are conditional upon tenure.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

19. Employee benefits (cont)

Movements in the number of share options and awards outstanding and their weighted average exercise price in GBP are as follows:

	LSEG LTIP	LCH LTIP	SIP	SAYE	Weighted average
	Number	Number	Number	Number	exercise price
As at 1 January 2021	239,215	109,917	104	85,831	£55.67
Granted in year	103,658	-	78	12,402	£71,08
Net transfers	(7,831)	(7,862)	-	2,797	£63.33
Exercised in year	(36,601)	(91,336)	-	19,770	£38.75
Lapsed/forfeited in year	(7,057)	(10,719)	-	(6,129)	£61.10
As at 31 December 2022	291,384	-	182	114,671	£62.55

653 of the options were exercisable as at 31 December 2022 (2021: 96). The weighted average exercise price is nil for all other schemes except the SAYE. The average share price of LSEG plc shares during the year was £64.94 (2021: £77.96). Transfers in or out relate to staff who are either newly employed or no longer employed directly by the Group, but whose options have not been forfeited as they were or remain employees of other LSEG companies.

The range of exercise prices and weighted average remaining contractual life of awards and options outstanding are as follows:

		Weighted average remaining contractual
As at 31 December 2021	Number outstanding	life (years)
LSEG LTIP - nil	291,384	1.1
SAYE - more than £50.00	74,681	1.8
Total	366,065	1.9

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

19. Employee benefits (cont)

The fair value of share options granted during the year was determined using a stochastic valuation model. The key assumptions used in the valuation were as follows:

LSEG LTIP

	Performance Shares	Restricted Plan	
Grant date	06-Apr-22	06-Apr-22	13-Sep-22
Grant date share price (£)	83.60	83.60	80.98
Expected life (years)	3	0.4-4.0	1-3.01
Dividend yield	0.94%	0.94%-1.05%	0.96%-1.16%
Risk-free interest rate	1.59%	1.28%-1.59%	2.75%-2.99%
Volatility	32.15%	27.56%-32.86%	28.43%-31.57%
Fair value TSR (£)	63.50	-	-
Fair value EPS (£)	81.29	-	-
Fair value non-market			
conditions (£)	-	80.34-83.22	78.67-80.05

	SAYE	SIP	Defined Benefit Plan
		Offer period	
		1 Jan 2022	
Grant date	29-Sep-22	to 31 Dec 2022	06-Apr-22
Grant date share price (£)	76.96	65.72-85.39	83.60
Expected life (years)	3.3	2.45-3.09	1.0-3.0
Exercise price	63.71	-	Nil
Dividend yield	1.11%	0.926%-0.998%	Nil
Risk-free interest rate	4.28%	1.01%-3.06%	1.28%-1.59%
Volatility	32.1%	28.56%-34.68%	28.25%-32.20%
Fair value non-market conditions (£)	26.07	74.58	83.60

The volatility is based on a statistical analysis of LSEG's weekly share price since its flotation in July 2001.

The Monte Carlo method was used to calculate the fair value of the 40% of the LTIP awards granted during the year that are subject to the TSR vesting condition. For the remaining 60% that are subject to the EPS condition and all other share awards and options, the Black-Scholes model was used. Holders of share awards and share options are not entitled to receive dividends declared during the vesting period.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

19. Employee benefits (cont)

iii) Pension commitments

Defined contribution scheme

The Company pays fixed contributions to the defined contribution scheme and there is no legal or constructive obligation to pay further contributions. The assets of the plan are held separately from those of the Company in a fund under the control of the trustees. The total expense charged to the income statement of €5.9 million (2021: €6.6 million) represents contributions payable to the plan by the Company at rates specified in the rules of the plan. Defined contribution schemes are also operated by the overseas branches of the Company and €0.3 million contributions were made during the year (2021: €0.3 million).

Defined benefit schemes

The Company operated a defined benefit pension scheme for its employees in the UK (now the LCH section of the LSEG Pension Scheme), which required contributions to be made to a separate trustee administered fund. The LSEG Pension Scheme was formed on 5 September 2016 as a result of a sectionalised merger between the LCH Pension Scheme and the London Stock Exchange Retirement Plan. The scheme maintains separate LCH and LSE sections with the Company sponsoring only the LCH section. The LCH Pension Scheme was closed to new members from 30 September 2009 and closed to future accrual on 31 March 2013. The last actuarial valuation of the LCH section of the LSEG Pension Scheme was carried out as at 31 December 2020 by an independent qualified actuary.

The valuations of the UK scheme conducted for financial reporting purposes are based on the triennial actuarial valuation as at 31 December 2020. The next triennial actuarial valuation is expected to be completed in Q1 2024. A summary of the principal assumptions used is detailed below. The Company is not aware of any events subsequent to 31 December 2022, which would have a material impact on the results of the valuation.

Weighted-average assumptions to determine benefit obligations

	2022	2021
Discount rate	4.80%	1.9%
Rate of salary increase	n/a	n/a
Rate of price inflation	3.20%	3.3%
Rate of pension increases in payments	2.20%	2.2%
Implied life expectancy at age 60		
	2022	2021
Male currently aged 60	27.2	27.3
Male currently aged 45	28.2	28.3
Female currently aged 60	29.7	29.7
Female currently aged 45	30.5	30.8

The discount rate for the scheme has been determined from a curve of AA corporate bond rates by duration which aligns with the estimated weighted average duration of the scheme's liabilities at around 17 years. Scheme assets are stated at their market value at the respective statement of financial position dates.

Debt / LDI instruments - quoted	51.0	74.4
Debt / LDI instruments - not quoted	136.8	253.4
Total fair value of assets	203.9	382.7
Present value of funded obligations	(160.3)	(293.6)
Surplus	43.6	89.1
- ·		

The company has recognised a net surplus of €43.6 million (2021: €89.1 million) in relation to the scheme on the basis that the company has access to the surplus in the event of a wind up of the scheme. No asset ceiling has been applied to the net surplus recognised as no minimum funding commitments are associated to the plans.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

19. Employee benefits (cont)

Sensitivity analysis

The sensitivity of the value of the benefit obligation to the discount rate is shown below:

	2022 €m	2021 €m
Discount rate - increase by 0.5%	(13.7)	(30.9)
Revaluation in deferment (CPI) and salary increases - increase by 0.5%	11.2	18.0
Pension increases in payment - increase by 0.5%	9.2	23.5
Life expectancy - increase by 1 year	4.1	9.8

The sensitivity analyses above have been determined based on a method that extrapolates the impact on the benefit obligation as a result of reasonable changes in key assumptions occurring at the end of the reporting period.

Payments from the defined benefit schemes

The following payments are expected to be made in future years out of the defined benefit plans' obligations:

	2022
	€m
Within the next 12 months	3.9
Between 2 and 5 years	16.6
After 5 years	23.2
	43.7

Contributions

During 2022 a contribution of €1.0 million (2021: €4.5 million) was made to the LCH section of the defined benefit pension plan in the UK. As part of the triennial valuation as at 31 December 2017, the Company had agreed a funding plan with the trustee, consisting of annual contributions of £3m (€3.6m) a year for the years 2019 to 2022 inclusive, provided a trustee valuation deficit exists at the prior year end. However, as part of the triennial valuation as at 31st December 2020, it was agreed that due to a surplus, the deficit funding contributions were no longer required, and therefore no further annual contributions were made during 2022.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

20. Financial Instruments

Financial assets and liabilities

The financial instruments of the Company are categorised as follows:

		2022	2021
	Note	€m	€m
Financial assets at fair value through profit or loss			
Transactions with clearing members at fair value through profit or loss	12	208,622.2	276,466.6
Financial assets at fair value through other comprehensive income			
Government bonds		20,140.2	15,874.7
Clearing business other financial assets		20,140.2	15,874.7
Financial assets at amortised cost			
Trade and other receivables*		306.9	106.6
Other balances with clearing members	12	-	20.1
Interest bearing loans	17	356.9	351.9
Cash and cash equivalents	14	777.9	507.3
Clearing business cash and cash equivalents		85,449.4	67,136.6
Financial liabilities at fair value through profit or loss			
Transactions with clearing members at fair value through profit or loss	12	(208,622.2)	(276,466.6)
Transactions with second 8 members at rail transaction seg. 1 provides 1885		(200,022.2)	(= / 0) (00.0)
Financial liabilities at amortised cost			
Trade and other payables*		(402.1)	(376.6)
Initial margin and other balances with clearing members	12	(97,216.5)	(72,592.6)
Default funds	18	(8,548.6)	(10,263.1)

^{*}Prepayments and other taxes within trade and other receivables are not classified as financial assets. Other taxes and the liability in respect of the renegotiated operating agreements within trade and other payables are not classified as financial liabilities.

All financial assets held at fair value are designated as such on initial recognition by the Company. Other assets, held at amortised cost, were tested for impairment but no expected loss provisions were deemed necessary.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

20. Financial Instruments (cont)

Fair value hierarchy

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;
- Level 2: other techniques for which all inputs, which have a significant effect on the recorded fair value are observable, either directly or indirectly;
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data. The Company has no financial instruments in this category.

The Company held the following significant financial instruments measured at fair value:

-		2022			2021	
	Level 1 €m	Level 2 €m	Total €m	Level 1 €m	Level 2 €m	Total €m
Assets measured at fair value						
Transactions with clearing members - non-derivatives	-	200,261.7	200,261.7	-	273,345.3	273,345.3
Transactions with clearing members - derivatives	-	8,360.5	8,360.5	-	3,121.3	3,121.3
Government issued bonds at fair value through comprehensive income	20,140.7	-	20,140.7	15,874.7	-	15,874.7
Liabilities measured at fair value						
Transactions with clearing members - non-derivatives	-	(200,261.7)	(200,261.7)	-	(273,345.3)	(273,345.3)
Transactions with clearing members - derivatives	-	(8,360.5)	(8,360.5)	-	(3,121.3)	(3,121.3)

For assets and liabilities classified as level 1, the fair value is based on market price quotations at the reporting date.

For assets and liabilities classified as level 2, the fair value is calculated using valuation techniques with market observable inputs. Frequently applied techniques include forward pricing and swap models using present value calculations. The models incorporate various inputs including foreign exchange spot and forward rates, interest rate curves and forward rate curves.

The Company does not carry any level 3 assets and there has been no transfer in the year between the levels (2021: none).

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

20. Financial Instruments (cont)

Amounts included in the income statement in relation to financial instruments are as follows:

	2022	2021
	€m	€m
Treasury income on assets held at fair value	376.7	27.0
Treasury income on other financial assets	1,051.9	39.7
Treasury (expense) income on liabilities held at amortised cost	(1,209.6)	194.1
Treasury income	219.0	260.8
Treasury income (expense) on assets held at fair value	5.4	(12.8)
Treasury expense on assets held at amortised cost	(7.8)	(76.9)
Treasury expense	(2.4)	(89.7)
Net treasury income	216.6	171.1
Net finance income on pension fund assets	7.0	1.0
Finance income on assets held at amortised cost	1.5	0.1
Finance expense on leases	-	(0.9)
Finance expense on loans and borrowings held at amortised cost	(7.6)	(3.7)
Net finance income (expense)	0.9	(3.5)

Treasury income on liabilities held at amortised cost represents amounts earned from clearing members' cash collateral deposits which attract negative interest rates. Treasury expense on assets held at amortised cost represents amounts where the Company incurs negative interest on its cash deposits.

Offsetting financial assets and financial liabilities

The Company reports financial assets and financial liabilities on a net basis on the statement of financial position where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously. Refer to Note 1 for details of key judgements and estimates applied in this process.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

20. Financial Instruments (cont)

The following table shows the impact of netting arrangements on all financial assets and liabilities that are reported net on the statement of financial position.

	Gross	Amount	Net amount as
	amounts	offset	reported
31 December 2022	€m	€m	€m
Derivative financial assets	2,709,867.9	(2,701,507.4)	8,360.5
Repurchase agreements	227,051.5	(26,789.8)	200,261.7
Total assets	2,936,919.4	(2,728,297.2)	208,622.2
Derivative financial liabilities	(2,719,224.5)	2,710,864.0	(8,360.5)
Reverse repurchase agreements	(227,051.5)	26,789.8	(200,261.7)
Total liabilities	(2,946,276.0)	2,737,653.8	(208,622.2)
	Gross	Amount	Net amount as
	amounts	offset	reported
31 December 2021	€m	€m	€m
Derivative financial assets	1,532,593.0	(1,529,471.7)	3,121.3
Repurchase agreements	316,340.8	(42,995.5)	273,345.3
Total assets	1,848,933.8	(1,572,467.2)	276,466.6
Derivative financial liabilities	(1,552,205.0)	1,549,083.7	(3,121.3)
Reverse repurchase agreements	(316,340.8)	42,995.5	(273,345.3)
Total liabilities	(1,868,545.8)	1,592,079.2	(276,466.6)
<u>-</u>		_	

The imbalance between asset and liability for gross and offset amounts is caused by the exclusion of settled-to-market (STM) amounts from the gross balance on the grounds that these trades are settled.

As a CCP, the Company operates as principal and sits in the middle of clearing members' transactions and holds default funds and margin amounts as a contingency against the default of a member. This means further amounts are available to offset in the event of a default, reducing the asset and liability of €208,622.2 million (2021: €276,466.6 million) to nil.

NOTES TO THE FINANCIAL STATEMENTS

In 2021 the Company disposed of its sole UK property lease and novated the right of use asset and associated lease liabilities to London Stock Exchange (C) Ltd (LSE C), a fellow Group company in LSEG. See note 11 for further details.

Other provisions relate to the expected costs arising from the restructuring programme and integration activities performed in 2021.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

22. Commitments and Contingencies

Treasury assets supporting operational facilities

As at 31 December 2022, the Company had assets and collateral in support of the following operational facilities:

	2022	2021
	€m	€m
Collateral deposits with central banks	264.9	518.6
Fixed income settlement	39,200.1	18,703.4
	39,465.0	19,222.0

The Company holds collateral as security against tri-party cash loans as well as government debt and government backed bank issued debt, which is used to support RepoClear Settlement activity.

23. Issued Capital and Reserves

Share capital

Ordinary shares

The Company has 313,036,873 fully paid-up ordinary shares of €1.00 each in issue as at 31 December 2022 (2021: 313,036,873).

No shares were issued in the year. All the Company's shares are owned by LCH Group Holdings Limited.

Other reserves

Share premium

No additional share premium has been recognised and the balance of €41.2 million is unchanged in the year.

Capital redemption reserve

The balance of €5.1 million is unchanged during the year and represents the nominal value of ordinary shares that have been repurchased and cancelled.

Other reserves

In 2021 the Company received a €1.5 million non-diluting capital contribution from London Stock Exchange (C) Ltd as a result of the novation of the Company's UK property lease.

Distributable reserves

Retained earnings of €682.7 million (2021: €647.2 million) are regarded as distributable under the Companies Act 2006 but may be subject to additional regulatory restrictions (see note 25). Included within retained earnings is a revaluation reserve of €6.3 million (2021: €15.5 million) in relation to the Company's Fair Value through Other Comprehensive Income assets.

NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2022

24. Dividends

	2022	2021
	€m	€m
Final dividend paid of €0.7890 (prior year: €0. 9232) per ordinary share	247	289
Total dividends paid	247	289

The final dividend of €247m was paid on 23 June 2022. On 23 February 2023, the Board of directors proposed a dividend of €0.9328 per ordinary share (€292 million), pending regulatory review.

25. Capital Management

The Company's approach to capital management is to maintain a strong capital base that will support the development of the business and meet regulatory capital requirements at all times. This is managed with reference to external capital requirements, including a consideration of future impacts to the Company. Capital plans are included within the Company's medium-term financial plan which is presented to the Board annually. The capital plans take into account current and future regulatory requirements and the development of the Company's business. The Company monitors capital resources in relation to its capital requirements.

The Company is considered a Qualifying Central Counterparty ("QCCP") in the UK as it has received authorisation under the European Markets Infrastructure Regulations ("EMIR") as transposed into UK Legislation (UK EMIR) as a CCP. In the EU the Company is also a QCCP as it has been recognised as a third country CCP under EU EMIR. The Company is also a QCCP in other jurisdictions in which it is licensed to operate as a CCP including the USA.

The Company is regulated by the Bank of England as a Recognised Clearing House under the Financial Services and Markets Act 2000 and is subject to capital adequacy rules under EMIR. It is also regulated by the CFTC as a Derivatives Clearing Organisation (DCO) in the USA. In Switzerland the Company is licensed by the Swiss Financial Markets Supervisory Authority ("FINMA") as a CCP. In Canada it is recognised as a Clearing Agency by the Ontario Securities Commission ("OSC") in Ontario, and the AMF in Québec, and in Australia it is recognised as a CCP by the Australian Securities & Investments Commission ("ASIC"). The Company is also subject to oversight by other market regulators and central banks in jurisdictions in which business is carried out.

The Company has fully complied with its externally imposed capital requirements in the year.

In particular the Company is required to ensure that its EMIR capital requirement is met by both its capital and audited reserves and adjusted liquid financial resources.

The EMIR capital requirement at the end of 2022 was €340.6 million (2021: €346.0 million). The Company's EMIR regulatory capital as at 31 December 2022 was €417.9 million (2021: €426.6 million) after applicable capital deductions and the deduction of the contribution to a clearing member default of €91.0 million (2021: €91.0 million). The increase in the audited retained earnings and other reserves for the year of €282.5 million (2021: €259.6 million) will be included in the regulatory capital of the Company, for the purposes of the EMIR capital calculation, when the financial statements have been approved for publication.
