Production Platform migration into T+2 successfully achieved

Dear Members,

LCH.Clearnet SA is pleased to announce the successful LCH.Clearnet S.A. clearing application switch from T+3 to T+2 settlement cycle

This migration is the result of joint efforts made by the members and market infrastructures. This is a key milestone for the mandatory harmonization of post trade environment across Europe and implementation of T2S project.

We are looking forward to continue working with our Clearing Members for next step; in the perspective of the Corporate Actions harmonization which is planned for **Q1 2015**.

Further communication related to these subjects will follow shortly.

All changes related to T+2 are available on the Cash Markets service description file available under the secure area ([click here](#)).
